Williamsville yester tay and had to be bell rung. The bells on the cars are repaired before it could continue on its sufficiently loud to give ordinary notice to passengers. The witness said he The British squadron at Quebce, land- gave more warning to passengers comed some 700 men this morning for the ing down hills than on a level track. HUNTER-At Napance, Aug. 18th, wife of purpose of a land review on the plains of Hughes said the car was a length and a half from Spooner when witness saw Surgeon-Major Neilson has been called him. He had only one foot over the trackto Levis camp. He is a member for the when the collision occurred. Mr. Folger slow going down the hills at Portsmouth. The farmers applying for the position and he the (witness) obeyed these orders. of farm superintendant at Rockwood No one is allowed to converse with the

Herbert McCaugherty was conductor on No. 18 car which struck Spooner and said the bell on the car rang more than usual and attracted his attention. There were three people on the car at the time. As it was the plank of "commercial than a patron. A great deal had been found they were not moving. He knew zie Bowell left Sans Souci. Muskoka, the hill than usual. The bell is usually well rung coming down the bill.

At the request of Juryman Baker Motorman Hughes was recalled and said that the conductor had no right to touch the brakes when the cars were in motion The speed at which the cars are allowed Take the K. & P. and C.P.R. for the to run on a level track is eleven miles an

Witness said in answer to another juryman that he did not run down the Crawford peaches were sold to-day at prison hill at ten miles au hour. A re-Ald. Behan wanted to know if any special instructions had been given to Mr. Churchward caught a maskinonge motor men as to speed when they were ply to D. FRASER.

Mr. Hughes answered that he had make a trip in forty minutes. If delayed he would have to make up the loss to Jone Mudre, solicitor, Clarence street. to Scotland. He will return before John Scally and Isaac Seymore could not give any important information be-

amination he found that there was a wound on the left side of the skull, and saw that both feet were crushed. He bandaged the head and looked after other wounds. The man died from the shock. There was a fracture of the skull and both feet were mangled. No doubt death was caused by the blood flowing into the

through the city. The instructions to dry and the Water Works whart. Apply to if no stops are made the time of the trip is faster. The instructions about the bells are that they must be rung continually on cars coming down the asylum hill. If the motormen do not come down the asylum-hill slow they violate instructions. The ears do not run more than eighteen miles an hour. He was buying a motor car that would run thirty-five miles an hour. He did not think scoop nets on cars were a success, he would adopt them. He had warned conductors to stop cars when horses from his son at Shannonville saying he were afraid. He was superstitious. He was coming to Kingston to secure the expected an accident would occur because the "News" had said there would be no accidents while he (B. W. Folger)

In summing up the syldence the coroner Kenny, but without success. It is said that it was clear the motorman was doubtless if the body will be recovered | doing all he could to save Spooner. Had he not been deaf he would have not been Yesterday while sailing in a naptha killed, because he had ample warning

Ald. Carson says there will be enough | The jury did not take long to come to onerating the company and John Hughes, the speed of cars coming to the city be Last-week Burroughs, known among lessened at Short's corner; that the cars Clergy and King streets, and that each jury's recommendation.
