POSITION OF LIBERALS.

A LETTER TO THE PATRONS BY SIR RICHARD CARTWRIGHT.

The Liberal Party Lost Office Rather Than Sacrificed Principles.

The following letter was recently received by a Patron in Lennox county from Sir Richard Cartwright, and has been handed to the Whig for publication:

"My Dear Sir—I can very well understand why you are so well as by many other Liberal farmers as between the claims of your party and of the Liberal Party."

"I know, no man better, how utterly fatal any protective system must be to liberty and to honest and economical government; and it was the profound conviction of this fact, quite as much as any other, that induced me to leave my own country."

"I am, therefore, on every account, strongly in sympathy with the Patrons of Industry as far as Dominion politics are concerned. I consider their objects to be good."

"Suppose we have a series of three-cornered contests all over this Province, and that the Patrons carry a large number of seats."

"Now you will bear in mind that I am very far from saying that such a coalition would be justifiable or desirable. My point is, and it cannot be brought too clearly before the notice of all those Patrons who desire to promote the real welfare of their country, and who I make no doubt, consider the vast majority of the members of the Liberal Party."

"Let us further agree that the Patron platform. Let us take the first plank, the abolition of the tariff. Here the real majority of the Liberal Party certainly agree with the Patrons."
