Mr. Smith presented the estimates for

the year 1898. The report referred to the fact that notwithstanding increased expense owing to the opening of a new class in Frontenac school, the sum required of the council is just the same as was granted last year, viz., \$25,000. This result was secured through strict attention to economy and the placing o the smallest possible amounts to the credit of the various departments under the board. The figures are :
