After recess Mr. Foster moved the House Weldon took occasion to bring up the ques-tion of the Nova Scotia coal combine. He reviewed the question at great length, going over the subject with great minuteness, quoting from the different acts and charters to show the present position of affairs. His argument was to the effect that the bargain made by Mr. Fielding with the

Whitney syndicate was liable to be mad to operate to the disadvantage of the whole Dominion, and that in the general interest of the Dominion it was the duty of the Government to step in and advise his cellency to disallow the bill pressed by the local Government. Sir John Thompson replied, denying the.

diction of the local government. He said that while personally he would not approve of the bargain made by the Government of Neva Scotia, still that Covernment was the duly constituted authority in the province, and as they had large majorities in both Houses it was but the majority of the people of the province cumbent on the Dominion Ministry to advise His Excellency to disailow the legis lation of the Nova Scotta Legislature.
