POISONED!

Many of the victims in a Critical Condition—
Calling Loudly For Help!

A multitude of men and women in the country and now suffering from the effects of poison. These are now in a critical condition, and need urgent and silent sympathy, unless effective measures are adopted at once to rescue and save them.

Bally ventilated houses, workshops, factories and offices are responsible for almost every case of poisoning. Close confinement in such places during the winter months has produced a tide of sickness for years past. Poisoned nerves and poisoned blood are the chief祸根 of disease amongst our people; all old and young are suffering. The human system perishes in this way in a terrible condition, and demands instant attention.

At this particular season such poisoned cases require a renovator, renovator and poison specialist. The agent is found in Paine's Celery Company, the great life-giver. This wonderful medicine cures purifies the blood, tones and strengthens the nerves, and cleanses the whole system. No other remedy has accomplished such grand results in the spring time.

The Most Distrustful **Earthquake**
Recorded in History occurred in 1750, and the scene of that terrible disaster was in and near Yedo, Japan. The number of people killed was 120,000.

Paine's Celery Compound is a spring medicine far elevated above all others now before the public, and is freely prescribed by some of our best physicians.
