HERE'S A POINT.

The Syracuse "Standard" has been examining the political bearing of Canada's proposed treaty with France, and remarks: "In the treaty now before the dominion parliament the colony obtains from France privileges not enjoyed by the mother country, and very likely makes concessions to France which are not made to Great Britain. Such concessions, in exchange for favors, are of the essence of reciprocity, and Canada cannot pursue that idea as she seems disposed to do without discriminating against England." Perhaps this is the revelation that has suddenly appeared unto Hon. Mr. Foster and which makes him hesitate about asking parliament to endorse the treaty. His excuse for inaction was that Sir Charles Tupper had exceeded his instructions in negotiating the treaty, but Sir Charles resents that idea, and those who have been looking into the case are inclined to think that the government is not without fault. The plan of discriminating against Great Britain in favor of France is certainly surprising, especially in view of the howling of the tories against reciprocity with the United States because it was anti-British in its trend. The Ottawa government is getting deeper into troubles, and will soon be over its head in them.

THE INDEPENDENT MEMBERS.

Mr. Calvin, who represents this county in the commons, is proving himself to be an independent in deed and in truth. He did not seek a seat in parliament, but the seat sought him, and being accustomed to think for himself, to act according to his own judgment, which in the business world is recognized as sound, he is sticking to principles as ... ing his friends how he can vote as the circumstances warrant. There was some surprise when he went against the government on the tariff question, but he was influenced by the best of motives. He is not fond of display, does not indulge in much or loud talk, but he has a keen sense of the eternal fitness of things, and saw this fitness, politically, in a modification of the tariff. Now he has been specially distinguished by voting upon Mr. Edgar's motion declaring that the record of the commission which investigated the Caron charges did not warrant his retention in the government. Mr. Calvin is a conservative, with an inborn love for the history and traditions of the party, hesitates about going against it and against the men who lead it, but he is manly enough and honest enough to mark his disapproval of what he cannot unreservedly endorse. The attitude of men like Mr. Calvin, Mr. McCarthy, Col. O'Brien, et al, is exceedingly suggestive. It has its lessons which the government cannot afford to ignore. It may be secure, though without a competent leader at present its position is not too stable. Its future has to be considered. The men who are independent now really represent advanced conservatism in Canada and they are entitled to credit for manfully asserting their opinions. They have no apologies to offer for anything they have said or done. Instead of them seeking to get into line with the government the government must get into line with them and the sooner the better.

Nineteen Boxes.

BRANTFORD, March 20.—The "Expositor" last week published an article on the case of Archie Rymal, of this city, which has caused considerable excitement in Brantford and district. It appears Mr. Rymal has had more than his share of suffering during the past few years, so far was he run down from kidney disease that he had lost the power of his limbs and back. He could only get around with the aid of two crutches or when assisted by kind hands. His death was daily expected. On the advice of his wife he tried Dodd's kidney pills, and took in all nineteen boxes. His improvement was marked from the second box. He is now completely cured, and a living testimony of the curative powers of that wonderful remedy.

THE GREAT DR. TALMAGE

THE BROOKLYN TABERNACLE IN A SERIOUS FINANCIAL STRAIT.

T. DeWitt Talmage the Most Cosmopolitan Divine in Christendom—Shall the People and Pastor be Separated? Some Special Sketches Presented.

Shall Dr. T. DeWitt Talmage and the Brooklyn tabernacle be separated? That is the question which the parishioners of Brooklyn's most celebrated pulpit orator are asking themselves, and with the determination that nothing but death shall take him away, they are doing their utmost to gather together the $20,000 which must be collected before April 1st or the fate they fear will befall them. Toronto "Saturday Ledger" is assisting them. It appeals through its columns to the hundreds of thousands who read the sermons of Dr. Talmage, who are as truly his auditors as if they sat in the pews in front of him every Sunday morning, to contribute what they can to the relief of the financial embarrassment which hangs over the church of which he is pastor.

REV. T. DEWITT TALMAGE. THE TABERNACLE.

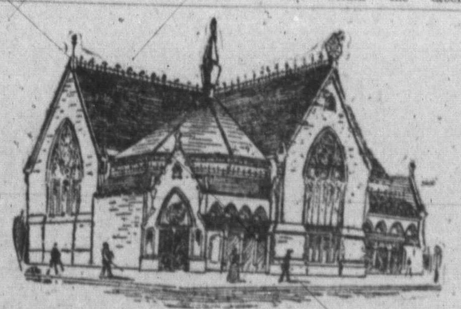
It may seem strange to many that with such a popular preacher as Dr. Talmage for a pastor the church should be in debt at all. There is quite a long story about that. It is a story of the hardest kind of hard luck. Away back in 1869 he came to a church in Brooklyn which had only nineteen members, or at least only that many voted in the meeting which called him. Within the next year the church was so jammed and packed that it had to be enlarged. Remember that this was in the days of Mr. Beecher, who with his transcendent oratory was charming his auditors in Plymouth church in Orange street. The tabernacle was enlarged, or practically a new church was added. That was one big burden which the parish has borne.

The old tabernacle was on Schermerhorn street, near Nevins. After it was rebuilt the congregation worshipped in it until December, 1872, when it burned down. The congregation met then in the academy of music until the new tabernacle was built in the same block, but a little nearer Third avenue.

THE FOUR MEMORIAL STONES IN THE NEW BROOKLYN TABERNACLT.

It was in February, 1874, that the congregation assembled there, hoping that their troubles were over. The insurance on the first tabernacle amounted to only $6,500. That was all they had to begin with in constructing their new home. The times were very hard when this new tabernacle was built. It was in 1873, in the very depth of the financial depression of the '70's. They had to put up a large church to accommodate a congregation by no means rich. It cost them for building, organ, furniture, and equipments about $180,000. Do the best they could, there was still a mortgage of $81,500, which still hung over the parish at the time the second Tabernacle was built.

One night in October, 1889, the air seemed full of electricity. People assembled on their horsetops to look at the curious meteorological phenomenon. Then all of a sudden the tabernacle was in flames. No one knew how. Only there was the fact. There had been a handsome church seating 5,000 people and there was a roofless ruin.



THE OLD TABERNACLE ON SCHERMERHORN STREET.

It was determined to remove to the hill, and a lot was bought at the corner of Clinton and Greene avenues. The necessities of the case called for a handsome as well as spacious building. It was built after Dr. Talmage's wish in a combination of the Norman style of architecture, and an amphitheatrical auditorium. But it cost a lot of money. There is a debt of $287,319.59 upon it now.

He believes that an all-knowing Providence will bring them out of it, but an all-knowing Providence doesn't pay off church debts unless people put their hands in their pockets.

But at the outset somebody may say: "Why should I give money to help a church which is paying its preacher $12,000 a year salary?" As a matter of fact over and above the amounts which Dr. Talmage has paid out for the church his wages for the past three years and four months have been $628. This is smaller salary even than they pay mission preachers on country circuits. Dr. Talmage makes a great deal of money from his sermons and his writings, but his services to the church of which he is pastor are practically free. The public doesn't know this. Because he can command $500 a night for a lecture many think that his pulpit efforts must be paid for in nearly the same ratio, and that come what might he would insist upon his salary being paid. If the church was swamped in debt. But the people who know him know that he supports himself and his family by the money he earns outside of the church.

More than this! He is going to give a check for $10,000 out of his own private purse to help the church along. This $20,000, which must be paid by April 1st, and the $55,000, which must be paid by June 1st, are floating debts, which are the only causes of embarrassment to the society. As soon as $10,000 of this is in sight Dr. Talmage will draw a check for $10,000 and present it. Beyond this indebtedness of $75,000 there is no especial cause for alarm. Russel Sage holds the mortgage for $125,000, and a sinking fund is being established to pay that off. The revenues from the pew rents, collections and other sources will amply pay the running expenses and leave a large surplus each year for the sinking fund.

The sum to be raised, while stupendous in itself, is not really so when one considers the field to be drawn upon. First of all, while the Tabernacle is a Presbyterian church, strictly speaking, it does not appeal alone to those who bow to the Westminster Confession. The Tabernacle can hardly be called a denominational church. Of the thousands who have heard Dr. Talmage preach, who, among them, can recall a sentence in a sermon which was controversial or which was truly and bluely Presbyterian? All who profess and call themselves christians can agree with Dr. Talmage's preached theology. Nobody has heard aught in those walls more sectarian than the bible is.

So the field widens at once from the Presbyterian inclosure to the whole Protestant quarter-section. And not even the sharp line of a demarcation between the Catholic and Protestant hemispheres divides his admirers from those who don't care for him. For among those who have responded with contributions within the last week are very many Roman Catholics; who, while never having set foot within the tabernacle

What Says P. Monegan?

Well This Is What He Said To Us On 6th Day Of February, 1893.

Brockville Times.

For several years past my wife has suffered great pain in her backsaed hips and a feeling of weight and pressing down. She would be taken so bad every two or three weeks that she could neither eat, sleep or rest for three or four days and nights. The doctor said it was piles and made her sit over hot water and gave her ointments and washes and I don't know what all—then the piles would bleed and she would get some relief, but the piles and the pain would never leave her entirely, and soon she would get laid up again. In this way she continued to get worse and worse, though she tried a great many things from the doctors and others. Well, I think it was along in August, or perhaps September last, she took the worst spell she ever had and, though the piles bled freely, she got no ease at all. She had no appetite and could not sleep, sit or lie for the pain. At this time we were told to try "Magic Pile Lotion." We did so, and in less than an hour she got easy and fell asleep, the first she had got for three days and nights. In less than a week she was about the house attending to her work and she has had no return now for nearly five months. It was a lucky thing we got that Magic Pile Lotion and we hear many others giving it great praise. We have used it for chapped hands this winter and it cures them in one night.

First Cheese Factory, First Reaper.

The first cheese factory in Canada was stated by Prof. C. C. James, in his bulletin of January, to be that of H. Farrington, Norwich, begun in 1864. Since that bulletin was issued the honor has been claimed for Eber E. Hill, Dunham, Que., said to have started his factory in 1862, but the claim is not supported by strong testimony.

The first reaper introduced into the operations of the farm in Ontario was in 1843 by the late Daniel McKyes, of Hamilton township, East Northumberland. He used the machine for harvesting, and in the following year Mr. Wade, of the same district, procured another one.

WE HAVE CURED THESE—WE CAN CURE YOU!

FROM CANADA.

CHANCELLOR, P. O., Ontario, October 10th, 1892.
DR. A. T. SANDEN, Dear Sir—I am pleased to express my hearty thanks for advice to try your electric belt. It gave me wonderful relief. I was suffering from heart trouble, indigestion, nervousness, and inactive eyesight of the left eye. I had doctored for over two years, during which time I had several doctors, but they knew every other remedy but proper medicine and at the time I received your belt I was unable to get up at all. I had not worn it two days when I began to improve, and now I feel like a different person altogether. I would not take $100 for your belt to-day if I could not purchase another. There are several belts made in this province (Ontario), but I do not know of any which will give the correct electric current. I will be glad if at any time I can be of any service by way of recommendation to other afflicted persons in Canada I will gladly do so free of charge. As my Canadian confidence is testimonial from a Canadian worth much more than an American testimonial, I may be in your advantage to send this letter to some afflicted Canadian. You may also put me down on your list of testimonials if you feel disposed to do so. I remain, very sincerely, D. S. MARTIN.

BRANTFORD, Ont., Canada, March 1st, 1892.
DR. A. T. SANDEN, Dear Sir—I am glad to add my testimony to the many you have of the great value of your belt. I have been using it for nervousness, and have gained twelve pounds of flesh, and now sleep well and have an appetite like a horse. Your pamphlet whereby belt with your "rules of health" has been a very valuable benefit to me, and I take pleasure in recommending your belt. Yours respectfully,
