Canada for the "Canadians."

"Canada for the Canadians." That is a good cry! You can build up good citizens, good ships and railways, and great commercial prosperity upon that cry.

Some people think if a thing only comes to them from a great distance it must be better than the same thing at home. Distance fosters illusions. The truth that a prophet hath no honor in his own country still has application. Berlin, or London, or Paris, sounderso much grander than Montreal. So some people think! Not sonsible people! Foolish people who think that big names make the thing better and lend dignity to their position.

Common sense will have ultimate triumph. Common sense has achieved a signal victory in one particular. Ladies! Wraps were always; expensive. They have always been imported. The duty and glamor of distance, and the imposing sound of big cities, gave them a high price and a great vogue.

Why not make Ladies' Wraps here in Canada?

That thought, occurred to the proprietors of MELISSA. They should, perhaps, bave been seized with it exclier, for their success with the Men's Coats had been immediate and great. Would the loyal women of Canada not buy an article which was a necessity with them, made right at their doors, it that article was a good deal better than the article which came from a long distance? It was an experiment, but from the moment the skilled artists, which the

manufacturers of MELISSA employed, got to work, and showed specimens of their craft, success was assured, a A So then, ladies, in every city and town and village of the Dominion, you can buy And the state of t apyligh and fastidious in outline than any that have been imported.

There was a need for the MELISSA in Ladies' Wraps. They had to put up with unsightly rubber garments, much to their discomfort, but they have now perfect fit with infinite variety of shade and grace, and, not least, absolute protection from the rain, in garments which it will be a pride to wear, and at prices whice put them within easy reach. Here is a new departure, a patriotic enterprise worthy of support for the sake of

that national solidarity which the politicians talk about, but chiefly worthy because of its intrinsic merit. Travellers will soon be on the road with Fall samples. Designs, Patterns and every other information furnished on application. Special attention given to letter orders.
