

SPRING CLOTHING AND FURNISHINGS.

A big reform in every department of our store this spring.

Our clothing is away ahead of anything we ever had.

Value, Quality, Finish, equal to anything in Canada.

Activity in the Gents' Furnishing Department is stimulated by the advent of fine weather.

STORE REFORM.

We have had a year's experience in closing our store at six o'clock, and find we make a move in the right direction, and will continue to close at six no matter what others may do.

FARMING IN WEST CHINA

Rev. G. E. Hartwell tells the "WHIG" readers about it.

Four crops a year in the fertile belts - The characteristics of the Chinese farmer.

The implements used are quite primitive - A movement for improvement.

Rev. G. E. Hartwell, of the West China, has forwarded us three articles upon farming in West China.

The first article appears below. West China produces in her more fertile regions four crops in a year.

She is considered the most productive province in China, and her resources are almost inexhaustible.

Her soil is fertile, and her climate is such that she can produce a variety of crops.

Her implements are primitive, and her methods of farming are antiquated.

There is a movement for improvement, and the Chinese farmer is beginning to adopt modern methods.

It is hoped that the Chinese farmer will be able to produce more and better crops in the future.

The Chinese farmer is a hard worker, and he is determined to improve his methods.

It is hoped that the Chinese farmer will be able to produce more and better crops in the future.

The Chinese farmer is a hard worker, and he is determined to improve his methods.

It is hoped that the Chinese farmer will be able to produce more and better crops in the future.

It is hoped that the Chinese farmer will be able to produce more and better crops in the future.

WEATHER PROBABILITIES

Strong winds and gales, easterly, unsettled, with rain, or in some places snow or rain, no decided change in temperature.

IT IS ALL VERY WELL

For posts and feathered signatures to "blush" green fields, for the spirit to glow in the heart, for the soul to be at peace, and for the body to be in health.

It is all very well, but it is not all that matters. It is the quality of the goods that counts.

It is all very well, but it is not all that matters. It is the quality of the goods that counts.

It is all very well, but it is not all that matters. It is the quality of the goods that counts.
