The above is the story that comes from Ancaster. A despatch to the press gives another version: Henry Kelly, who resides here, but who yeaterday was engaged in a saw mill in the Dundas road, owing to the careless substitution of one coffee pot for another in which Paris green had been used, was accidentally, it is supposed, the near victim of poison. icaire to shield the girl.

Work With Non-Unionista BUFFALO, April 27 .- There is every indication of serious trouble in Buffalo and Ionawanda between the lumber dealers and the lumber shovers. It is simply a revival of the old contention, only both sides are now pronounced in the stand they have taken and the feeling is more intense. The agitation last year stirred up matters to the extent that it must now be determined through some source which side is the stronger. Both sides claim to be in the

right. It is no longer a disagreement

about rates and terms. It is a question as

to whether the lumber unions shall exist cr The dealers say that they will have nothing to do with the union, and that they are going back to the stevedore system. The dealers maintain that they have suffered abuse and convenience at the hands of the union until they can stand it no longer. They will have nothing to do with the union or the men belonging to it. The union men declare they have rights which they shall insist upon, and that non-union men will not be allowed to
