A recent traveler in Malta says that the people have a peculiarly apt and ready wit. He tells of an English officer, who, failing to make a poor Maltese understand an order delivered in the language of Cockaigne, called the poor man "a fool." Understanding this much, the man, who had traveled about a good deal, though he did not understand English, replied by asking: "Do you speak Maltese!" "No. "Do you speak Arabic?" "No. " "Do you speak Greek?" "No." "Do you speak Italian?" "No." "Then, if I be one fool,

"Oh, ride it yourself," he said with a show of scorn and indifference. "You'll earn soon." But when the Yuma gravely shook his head and pointed once more to the bicycle Percy arose and walked toward it with assumed indifference, though he felt his limbs

trembling under him. He examined the injured wheel leisurely and saw that practically it was as good as if sound. Nevertheless he pointed to the twisted spokes as though the trouble the Yumas

had experienced lay in them. The Yumas were watching him, and with evident suspicion. Some of them took up their lances and stationed themselves near, plainly to prevent any effort to escape. Percy mounted. At first he rode the bicycle round and round in a little circle, all the while causing it to wobble as if it were out of order. Under his indifference he was closely watching with a wildly beating heart for a chance to break past the line of lances and send his wheel spinning across the sand. Slowly he increased the circle, adding a yard or two of its diameter at

every sweep. Suddenly, seeing an open-ing, he made a sharp, quick turn, and throwing all his strength in the rush made a dash for liberty. A threatening yell rose behind and several lance points whizzed past him. But the haste with which they were thrown caused them to fly wildly. None touched out, wan mountains, ghostly and uncertain in outline, appeared to him to dip and him, and in another moment the young bicyclist had spun well out beyond the yellblue haze.
