Mr. Fraser explained, would make the total appropriation up to \$1,750,000, and was exclusive of moneys expended for equipment and furnishing of the buildings and for the laying out and ornamentation of the grounds. A VERDICT OF MANSLAUGHTER

RETURNED AGAINST WILSON AND BURKE AT LONDON.

Detective Their Had No Authority to Arrest the Men, Not Having Seen Their Names on a List of the Men to be Arrested.

LONDON, Ont., May 5.—The trial of John Burke and Thomas Wilson, the men charged with the murder of Detective Their on Oct. 13 last, began yesterday before Mr. Justice Street.

The evidence showed conclusively that Thomas Wilson had fired the fatal shot at John Burke's instigation.

Mr. P. McPhillips, for the prisoners, made a very strong plea in their behalf and dwelt especially upon the fact that Detective Their had no authority to arrest them and that, so far as Wilson was concerned, he had not seen the names of the men on a list of the men to be arrested.

Mr. Loug, Q.C., followed and tried to prove to the jury that the killing was deliberate and with malice aforethought, and that the men were guilty of manslaughter.

His Lordship's charge to the jury was that the men were guilty of manslaughter, and that they were to be sentenced to imprisonment for a term of years.

The jury returned a verdict of manslaughter against both Wilson and Burke, and sentenced them to imprisonment for a term of years.

APPELLING LOSS OF LIFE. A Boat With a Large Number of Mahomedan Pilgrims Burned.

ADEN, May 5.—The destruction is reported of the British steamship Khiva off the Arabian coast, probably with an appalling loss of life.

The Khiva sailed from Bombay April 12, and was carrying a large number of Mahomedan pilgrims to Mecca.

The pilgrims were so numerous that they crowded the vessel, taking up all available space.

It is learned that the Khiva was burned off Cape Marbot, on the coast of Arabia. Of the great number on board 900 are said to have been saved, the others perishing in the sea of flames which consumed the vessel.

The details of the event are yet lacking. Later reports state that no lives were saved through the burning of the steamship Khiva. Finding it would be impossible to quench the fire, the captain steered for the nearest port on the Arabian coast and then landed all the passengers and crew.

Several vessels had gone in search of the Khiva before the news of her fate arrived. The steamship Arava left Mecca yesterday with food for the passengers and crew.
