FARMING IN CANADA. Says the Watertown "Times": "In butter and cheese, the empire state easily leads all the states in the union. Canada won over us on first trial at Chicago, but for the June make of butter and cheese, the commissioners of this state are going to make a show that will listance the dominion." The announcement of such a result will be interesting, but it is not surprising. Time was when the Americans did lead, and easiy, in the manufacture of cheese. But that was a great many years ago, before farmers discovered the mine of wealth there was in cheese, before experts became as numerous as they are now and should be there to advocate a policy were so beyond the reach of some districts, and before the introduction of appliances which reduces the labor of the cheese factory to a minimum. The empire state leads in some respects

the rest of the continent, including Canada, but not in cheese in the city. Telephone No. 179. Vehicles ready and the success of this country is not associated with chance or accident. Report has it that our neighbors have been sending their cheese to Canada for export in the hope of having it sell as a Canadian article, and therefore an article

of finer quality and higher price. The good fortune which has attended ncourage them to adopt other special-"There are 40,000 acres of New

York land," we are informed, "devoted o grapes, and the value of the product per acre. The average value of the crop in 1890 was four times as er ton as that of California's yield." There is something suggestive in this statement. It is that if there is not

money in wheat and barley raising there

is money in the cultivation of something sise. The farmers of Frontenac do not act with intelligent independence. They do not experiment individually, but they watch each other, and if one succeeds in producing a supply of that for which there is a profitable demand a hundred imitate him, and the business is hopespectacles. Sensitive persons will appreciate this. All sights scientifically fitted free of sion and purpose of one who, some sum mers ago, realized that his wheat crop

was a failure and that something had to be done with the land to make a living from it. He talked the matter over with his son, and, plowing up the ground. planted corn, and secured a splendid

crop. Thus he provided the fodder for and has not been mistaken. For a couple of seasons he was pinched and close run. dairy farm, a dairy business of large tourists and campers is small. There proportions, and to-day he is pointed to were more people on the islands last as a man who is rapidly growing rich.

Every farmer cannot hope, of course, to become a cheese-maker, and every Finkle, Napance, met with a very painfarmer would not be justified in going running it almost through the foot, where into the dairy business. But a great it stayed for a length of time, resisting many, if they studied the situation, the doctor's persistent efforts to extract

SUBJECTS OF INTEREST.

THE COUNTY COUNCIL'S ACTION

OVER THE SCHOOL GRANT.

Comes Under Criticism-Latimer Cemetery Should be Put in Order Out of Respect For the Dead-The Thieves at Work at Caturaqui Cemetery. Kingston, June 26,-(To the Editor) n your account of the county council's

proceedings I noticed, much to my surprise, that the paltry grant of \$800 to the Sydenham high school was passed over by the council as a matter of appalling impossibility, while money was lavished in other directions as if the council were the representatives for New York city. I was still further surprised to learn that more determined than probably before many relatives and neighbors of those who opposed the measure so strenuously had derived personal benefit from the school. I had hoped that the tendency of human nature was towards advancement, but if this is the way our council-

lors express their gratitude for the greatest of blessings (education) conferred upon their friends and relatives. I fail to see wherein lies their advancement. It may be, however, and I. hope it is, that made the cause of a new election, must the county council in this matter do not represent the people who have elected

I can countenance the efforts of the county council on one supposition only. They probably are aware of their own ignorance and at the same time are turning an envious eye on the young generrick F. Robbing Graves Of Flowers.

CATARAQUI, June 26 .- (To the Editor): At New London, Conn., a woman was recently convicted for stealing flowers from graves in Cedar Grove cemetery, and sent to jail for three months. If more such thieves were dealt with in this manner, the practice would perhaps

become less common. I lately visited a number of cemeteries in western Ontario, where I was told by the officials that robbing graves, not only of flowers but of shells, ribbons and other articles, is one of the great evils they have to contend with.

Lately I have had numerous complaints about flowers and plants having been stolen from graves in Cataragui

I have good reason to believe that most of the stealing is done late in the evening, after the men employed in the cemetery are exempt from duty and all welldisposed persons have retired. Hence the great success; the proceeds amounting law requiring the gates to be shut at sunset must now be enforced. I am instructed by the board of directors to make an example of any offender.
