Sir John Thompson Says the Regulations Are Too Severe. ----

SEALERS RAID THE ISLANDS.

Hundreds of Scale Killed and Many Skins Carried Off by Lawless Brews-Lessees Must Pay the Full " Bental for the Use of the Islands.

LONDON, Aug. 18. - In an interview with a correspondent vesterday Sir John Phompson stated that no power was given to the Rebring Sea Court of Arbitration to award financial damages. All questions of right had been decided against the United States. Several weeks' discussion had ensued on the demand of the United States counsel for the total abolition of pelagic sealing. There had been weeks of discussion on this subject, and after the public argument Count Spinola, arbitrator for Italy, Baron Gram, arbitrator for Sweden. and Baron de Courcel, for France, drew up a scheme of regulations far more severe than those eventually adopted, when the scheme was materially modified in favor

The American arbitrators, the Premier said, declined to support the regulations on account of their being insufficiently severe to satisfy them, while Sir John Thompash opposed them for a directly opposite reason. The award, therefore, stood on the votes of Lord Hannen and the three neutral arbitrators. I am informed from a reliable source that ex-United States Minister Foster ex-

pressed himself as much dissatisfied. Senstoy Morgan was satisfied in scarcely any point, which Justice Harlan said the result was more advantageous than expected. A Raid on the Islands.

PORT TOWNSEND, Wash., Aug. 18 .- The steamer Queen arrived from Alaska last night, bringing news of a daring raid on St. Pani and St. George islands, in Behring ly hefore going aboard he said he believed Devery ordered them out. Then a scene known schooners landed crews on the tions which would protect seal life in the were so enraged at the proprietor that islands after dark and slaughtered several Behring Sea while not stopping profitable they wrecked the place. Forming them islands were overpowered by the raiders, who broke into the sealing house and carried away an immense number of skins belonging to the lessees of the islands. The vessel escaped before the Government cutter could be informed of the occurrence.

Franc'sco, president of the North American Commercial Co., Secretary Carlisle says : " The action of my predecessors in making reductions in the rental and bonus which your company agreed to pay to the United States, under its contract for the exclusive privilege of taking seals in Alasas, was without authority of law." The original contract was entered into

m 1889 and fixed the annual rental at \$60,000 per year and limited the maximum eatch in any one year to 100,000 seals, which catch could be reduced in the discretion of the Secretary of the Treasury. In addition to this rental the Government was to receive \$9.60 per skin of each seal taken, besides other provisions as to the care of the natives. The Secretary of the Treasury fixed the limit of the catch this year at 7,500 scals, The next year about 13,000 were taken and in 1892 10,500. Acting on an opinion rendered by Attorney General Miller, Secretary Charles Foster, as he had reduced the catch of seals from the original contract of 100,000, reduced the rent in proportion. This action of Secretary Foster is now declared to have been illegal, hence the demand made, which, it is understood, will be followed by legal proceedings in

French Laborers Fight With Stalians-Ten Dead Many Wounded.

Paris, Aug. 18.—Krench and Rallanworkmen fought in Argues Mortes, Department of diard, yesterday. The fight began in the street at noon, and was carried on intermittently for nearly two hours. The police made repeated efforts to restrain the med, but were not strong enough to resi/re peace. Ten med were killed and 26. wounded severely. A disturbance was threatened again in the evening but was

prevented by the police. PARIS, Aug. 18.—Later despatches from Argues Mortes says that troops and police were taken from Nimes to Argues Mortes last night to restore order. After the fight the French workingmen, who had beaten the Italians, started a man hunt for the avowed purpose of exterminating the foreign workingmen. They attacked with knives and clubs every Italian that they aught. The Italians fled from the town and most of those who had been in the fight took possession of farm-buildings and barricaded the doors. The troops rescued them in the evening and escorted them to the railway station, where most of the men took a train for Marseilles. The number wounded is known to be above forty. Ten dead bodies have been found and others probably will be picked up in the fields. All the killed and most the wounded were Italians.
