## STOVES

The "HAPPY THOUGYT" Range still leads. Over fifty of them sold in Kingston during the fall of 1892. If you wish to have a cooking stove that is the very best in every respect, and you are not sure which is the best, inquire of some of your friends or neighbors who have used several kinds and are now using the "Happy Thought." We can give you several hundred references.

Old stoves and old metals taken in exchange. We have on hand a large stock of second-hand heating and cooking stoves. See them while the assortment is good. Coal Oil cheaper than ever before.
