Dr. Clark was one of the judges of lowers and Joseph Franklin looked after the distribution of prizes in the grain

The arts and fancy goods exhibit has fallen short of what was expected.

Exhibit of Musical Instruments. G. W. Robinson & Sons are among the most prominent exhibitors. The firm's exhibit of Heintaman pianes and the Cornwall organs, manufactured Tin Pails, Measures, etc. in Huntington, Que., is extensive and when it is asserted that there are over seventy of the Heintzman instruments in use in the city the superior quality of the piano is at once recognized. Mr. Carkeek, the noted pianist, of Toronto, is with the exhibit to satisfy visitors that the instruments are the perfection that is claimed. Absolute evenness of touch, richness and brilliancy of tone, extraordinary singing quality, unequalled workmanship and the power of standing in tunt longer than any other piano made, are among the characteristic malities of Heintzman & Co's pianos. The Cornwall organ should be heard by visitors to the exhibition. Its tone is unrivalled in purity, sympathetic qual-

ty, sweetness and volume. An Attractive Exhibit. The exhibit of the Boston hat store, ike last year, is one of the most attractive displays in the palace. Mr. Mills had the bonor of winning the lieutenantgovernor's prize, a gold medal for the finest exhibit in the palace in 1802, and this fact alone is sufficient guarantee of the class of goods this firm carries. The choicest assortment of all kinds of furs are tastily arranged, and it is well worth the visitors' time to pay particular attention to this show. Ladies seal sacques, capes, men's fur-lined coats, bear and musk ox robes, ladies' cloth mekets and mantles, fur trimmed and plain, are only a few specialties of the stock. The last named assortment is a new department and has proven a profitable undertaking. Hats and caps of all styles can also be selected at the
