The chairman stated that residents on Simcoe atreet complained that the slip at the foot of the street was blocked by yachts in the winter months. Ald, McKelvey contended the statement with reference to the Donnellys tainly be opposed to any person making money out of city property without the permission of the council. But if one citizen wanted to use the ways on which to rest a yacht, he would not object. Ald. A letter was read from R. O. Forsyth, on behalf of the Thousand Is land granite company, asking the privilege to tender for the construction of granolithic walks in the city next year. Ald. McKelvey said it would be a good i lea to advertise next year for the laying of granolithic walks.

Prophecy At Kingston.

The executive committee of the servative association met G. F. Marter. M.P.P., the other night in Capt. Gaskin's residence to talk over provincial politips - Mr. Marter stated that the indications point strongly to the defeat of Sir Oliver Mowat's government and the return of the conservatives to power. The western portion of Ontario, hitherto almost solid for the Mowat administration. is beginning to estimate it at its true value, and Mr. Marter predicts sweeping gains for Mr. Meredith at the next general election.

These things we learned from a report in the "Empire," and marvelled that the wise man of the north should go into the east to prophesy concerning the west. But such are the ways of prophets. When the fit is on them and they begin to dream dreams, see visions and scent out 'indications,"they must be allowed to take their own course or the spell will be broken.
