America's Cup Defender Shows Her Reels to the British Cutter.

A GOOD TEST OF THE BOATS. After Sailing Over a Triangular Course

in all Kinds of Work the Vigilant Shows Valkyrie the Way Home by Over Ten

NEW YORK, Oct. 10.-Yesterday was concerned, and Lord Dunraven and all the crew of the rakish black cutter were happy' when they went down to the bay in the morning. C. Oliver Iselin and the gallant crew of the white defender were the happy ones when the yachts came back in the afternoon. They led a triumphal procession of yachts and excursion craft up the harbor, for the Vigilant had adde I another victory to her score. She had walked away from the Valkyrie in a wind that topped the seas with foam and drove clouds of spray over her weather bow. The day was an ideal one for an outside

race. The yachtsmen, American as well as British, were glad that the day arrived when there could be no excuse of light winds for either of the contestants. All felt that the comparative merits of the two crack single stickers would be made plain before the day was over, and the anxions citizens of two nations would be able to make something more than a guess as to which is the Queen of yachts. The first of the international races was a run to lee ward and return; that of yesterday, the second in the series of three in five, was a triangular course of 30 miles, 10 miles to

The most cursory glance at the yachts showed an apparent disparity in size. From every point of view the Vigilant seemed the larger. Her hull appeared to be longer and her sail spread much bigger than that of Valkyrie, which was almost dwarfed by the towering Vigilant.

At 11.25 promptly the starting gun flashed from the Magic's port bow. The Valkyrie and Vigilant had both been a ies over to the westward, but were then bearing down for the line, the Valkyrie a triffe in the lead. When the echo of the starting gun died away both boats put down their helms, shot up into the wind and darted for the line, the American about 5 seconds ahead and a little to wind-

Despite the seemingly great advantage the Vigilant enjoyed by having the weather guage of her antagonist the English cutter walked right through the American boat's lee and gained more than three lengths in the first ten minutes. Both yachts seemed to be pointing equally high, but the Vigilant's people were pinching too much, for her headsails were shivering in the breeze. The sails of the Valkyrie were wrapped full and she seemed to be outfooting her rival with case.

By noon the wind had freshened considerably and the American boat began to hold her own. The Vigilant rapidly closed the gap between herself and the Valkyrie, and when it looked as though she was going to pass her to windward the Valkyrie went on the port tack at 12.07. Of course, the Vigilant, being on the starboard tack, had the right of way, but instead of foreing his rival to go astern, Mr. Isolin tacked 25 seconds later than the Valkyrie. Both yachts now stood to the westward.

At 12,48 the Valkyrie went in the starboard tack, followed by the Vigilant one minute later. Again she tacked at 12,51, followed immediately by the Valkyrie. At 12.59 the Valkyrie stood off to southward on starboard tack, while the Vigilant stood in shore for the first mark on the po tack. At 1.01 the Englishman tacked and stood for the mark, the American then leading by three-quarters of a mile. A 1.04 the Vigilant, then about 200 yards north of the mark, went on the starboard tack and headed for the first turn which she passed on the port hand two minutes and 35 seconds later. At 1.10 the Valkyrie came bounding along for the mark having gone on the starboard tack, passing it also to port 1 min. 20 sec. later. The official time of the first turn was Vigilant 1,06.35, Valkyris 1,11,20.

Both yachts bore away for the second mark with a fresh breeze on the starboard quarter. The run to the second mark was without incident except that the breeze continued to freshen, and the Vigilant gradually increased her lead

The official time around the second mark was : Vigilant 1.66.55, Valkyrie 2.05.52. In the run on the second Yrom the first to the second mark the Vigilant gained 4m. 12s. over the Valkyrie, The wind was a bit fresher than it was on the first leg, blowing at the rate of 15 or 20 miles an hour and the sea somewhat rougher, a few whitecaps appearing on the surface of the water.

From the second mark to the finish of Sandy Hook lightship it was a broad reach on the port tack, shifting to a close reach as the wind canted to the westward. The Vigilant seemed literally to fly through the water from the moment she groed around the mark, and when the red outline of the lightship revealed itself in the haze the English cutter was hull down, fully three miles astern. She seemed making very heavy weather of it, and though her sails fit as neatly as a glove she | been drinking. looked at times as though she were anchor ed. The wind blew fresh from the southwest throughout this leg, getting a little to the west near the end. Indeed it had inereased to almost half a gale, and both hoats were foreud to take in their jib topsails before half the distance had been covered, for their sharp prows were buried deep into the sea and the lee rails were awash more than once. The yachts made for the line established by the May and the lightship, with the wind a little forward of the port beam and blowing half a gale.

Following is the official summary of the race from start to finish ---Start. Finish. Elapsed, Corr. 11.25.00 元性24 3.所.24 3.35.96 11.25.00 2.50.00 8.35.01 3.36.04 Valkyrie .. Vigilant wins on corrected time by 10

afternoon and went direct to the Point followed by Miss Gussie White, a young woman of New York. Miss White was subsequently found in the water clinging to an overturned boat. She said she had seen Dr. Olney struggling in the water and had gone to his assistance in the boat She tried to pull him in the boat, but the effort resulted only in capsizing it. Dr. Olney was drowned and Miss White saved herself by clinging to the bottom of the boat. Dr. Olney's body was found yesterday and an ugly looking wound behind the ear indicates death through some other agency than drowning. The case is shrouded in mystery. Dr. Olney was 39 years old and connected with an electrical ompany in Brooklyn. Miss White is the daughter of a man of some prominence in

The Russin's Passengers, QUARANTINE, S.I., Oct. 9, 9 p.m. - The number of passengers removed from the steamship Russia was 288. They were taken to Hoffman Island this afternoon, where they were bathed and lodged in the dormitories. These passengers were taken from steerage compartments 4 and 5, where most of the cases occurred. To-morrow the balance, 120 in number, will be taken to Hoffman Island, where they will be subjected to the same regulations as to others. All of the passengers have been inspected twice daily by the health officer or one of his deputies. All are well. The result of the bacteriological examination has not been completed, but is suspicious enough to warrant the holding of the pussengers.

A petition to the throne has been circu lated in Changehitung with a view of stirring up the people to kill all foreigners and born their property. It shows among other things how one concession after an-

other has been made to "the English bar-

barians" until at no distant day they will get entire possession of the land. The bark Florence Treat, a Sydney vessel was wrecked recently on the Chinese coast during a typoon. Capt. Pulson, wife and all the crew excepting two were lost. Information has been received in Shang hat of an attack by a mob of native rictors the Roman Catholic mission of Lichnen. Sir John Abbett III. MONTREAL, Oct. 10, - Ex-Premier ohn Abbott has been very low for some time past, and yesterday Dra. Roddick Brown and Girdwood performed a surgical operation upon him, which proved successful in relieving him greatly. midnight his son, Mr. John Abbott, reported that he was sleeping quietly, and aparently very much improved. The ex-Premier's brother, Mr. Harry Abbott, of Vancouver, has been summoned to his bedside, but Mr. John Abbott states that this John's illness, and that he was coming east anyway. There is no doubt, however that Sir John's condition is very serious. He has been brought fto the city from his summer residence at St. Ann's.

His Life for His Dog. Loupon, Oct. 10 .- John Henderson one of the best known and most well to do farmers in Nissouri, was killed about 6.30 this morning on the G. T. R. track near Thorndale by a light engine. He was struck in the side and knocked 40 feet. When picked up he was dead. He was driving up the cows from the pesture and had got safely across the tracks, but a favorits dog which had accompanold man was still on the other side when the engine was seen coming along. Fearfullest the dog should be killed, deceased started back for him, but was himself struck by the locomotive.

WESTBROOK, Oct. 10, -Farmers in this vicinity are taking advantage of the fine weather, doing fall ploughing and threshing. Grain is not turning out as well as was expected. Taken altogether it will be considerably under the average. J. Ferguson, Bath road, has rented the Grass farm and is moving in. M H. Grass will reside at Portsmouth in the future. Some boys undertook a visit to Mr. Bell's melon patch a few days ago and the proprietor was there about that time to receive them. There was a lively time while it lasted, the visitors taking the lead, but unfortunately for them, in their hurry, dropped a bag they brought along for the spoil with the owner's name printed on it.
