Will Take A Hunt.

Ald. Curtis will take a vacation nextweek and go off on a duck hunt. The doctor has been tied down all summer over parks and on account of the many improvements going on was unable to take a vacation during the heat of the summer. He thinks he deserves a little time for sport now, however, and will shoulder his musket. He has had the cairns in both parks rebuilt until now they stand from top to bottom at an angle of forty-five degrees and of substantial build. The doctor took considerable pains over these antique monuments and has now a couple of fine looking erbetions, that is for their class.

, Remembered The Sermon, At a reception in Chicago recently to the world's parliament delegates the Rev. Robert Collyer told a story which runs as follows : A farmer met a parson and said to him-'I remember a sermon you preached twenty years ago." "Iniced," replied the parson, "and what was the text?" "I don't remember the text, but the sermon remains in my mind." "And pray what, then, was the substance of the sermon?" "Well, I can scarcely word it properly, but it amounts. to this-that 'theology is not religion by a -- sight,"

Elected To The Board, At a meeting of the grand trustees of the C.M.B.A. held in London, this week, general business was transacted. Rov. Father Tserman, of Cayuga, was chosen a member of the Board to fill the vacant seat. He was in New York when

A Grand Success-It Saves Babies' Lives! Why has Lactated Food proved such a grand success above all other makes Simply because in its composition nature's food-breast milk-has been the model. Lactated Food is a triumph of medical science and cannot be improved in any way. The best physicians in Canada have taken hold of it with the utmost confidence. They know its healing, nourishing and building qualities, and prescribe it freely.

Mothers, this grand food will save you much trouble, sorrow and anguish if you give it a trial for your weak and sickly babes. Thousands of mothers have al ready testified to its great superiority

In purchasing a Cooking Range, every person wishes to get one that combines efficiency, eco-, nomy in use of fuel and durability.

The "Happy Thought' Range may not be as cheap as some other stoves, owing to its superior construction, but the saving in fuel, durability

and ease of management more than repays one for the slight additional cost. We have still a very fine assortment of Second-hand Heating Stoves.
