A DECISIVE VICTORY GAINED.

The Native Forces Suffer Heavy Losses-Only a Few British Killed-The Vanguished Troops Briven Beyond the Seamese Biver.

LONDON, Nov. 2. - A despatch from Cape own says the troops under command of Major Forbes and Dr. Jameson, Administrator of the British South African Company, occupied Buluwapo after several fights, in which the Matabeles suffered

The first fighting occurred between Hope Fountain and Buluwayo, where the Mata beles had concentrated in force. The Matabeles were armed principall

with their native weapons, assegais knot kerries, although some of them had rifles that proved of little service to them. The natives fought bravely, and made desperate attempts to get within striking distance of the British. The British loss in all the engagements was light. The natives were finally forced to retreat, followed by the Chartered Com

It is thought that the Matabales wi make for the Seamese river or for the comparatively uninhabited country to the westward of the Umniati river.

The Imperial troops took no part in fight. They followed Major Forbes and Dr. Jameson to Buluwayo, arriving there some time after the column had taken possession of the place. King Lobengula accompanied his regiments in their flight northward.

Object to the Arrangement. LONDON, Nov. 2,-The Daily News (Liberal) protests this morning against the home government allowing Hhodes to settle matters with the Matabeles as the Cape government anggests.

The Matabele were wary and cautious, but for days the scouts of the Forbes and Jameson dumns kept in touch with them. On Friday a Matabele impi open ed a determined attack Forbes' column. The fight was vigorously sustained, but the

was unable to make any impression upon the whites, who held their position in Lasager. The Matabele were mowed down on all sides and finally retired with heavy losses. Fresh impe resumed the attack on Saturday. Major Forbes and the columns being then within a few miles of The blacks fought with the expected

bravery, but in the face of the machine guns and the precision of the rifles they were never able to get within striking distance. Finally the attack weakened, and the Matabele showed signs of retreat. The maxims played on their dense masses and the whites instantly rushed on the wavering warriors. Only the royal imbezi regiment attempted to stand its ground. Haif of its men were shot down, and the remainder fled back to Buluwayo. In this practically decisive battle, Lo-

bengula himself commanded, personally directing the movements of his head men. The forward movement of the troops was decided upon before Lobengula had time to rally his men. The combined columns oyened the attack on Buluwayo. Lobengulas' power is utterly gone. The losses of the British were slight and were confined mainly to Major Forbes' column. The loss of the Matabele is reported to exceed 3,000 killed and wounded. The Imperial forces under Major Goold reached Buluwayo on the day following its occupation and took no part in the fighting. All the settlers hope that the Matabele will be driven beyond the seamess before the rainy season so as to avoid further fighting in the spring. Dr.

PARIS, Nov. 2, -Edouard Herve is using I newspaper, which he edita to start a movement in favor of an amnesty for political prisoners, press offenders, ex iles and working men imprisoned for rioting during strikes. By sending these men back to their families, M. Herve says, the Government will give the best evidence of the spirit of fraternity engendered by the visit of the Russians. In many influential quarters the suggestion has been received favorably, as the Government is thought well able to take such a step in view of uninimity and patriotism displayed by all classes during the fetes. THE LUCKEY CASE ome New and Important Testimony Produced by the Crown. BROCKVILLE, Nov. 2 .- The court room

Luckey trial was resumed. Walter Dicks, the Ottawa constable, who took the prisoner from the court house to the jail after his sentence, told of a conversation with the prisoner in regard to his family, in which the prisoner said that if he ever got out he would make it hot for them.

B. W. Granger, the turnkey in the Ottawa jall, also heard him say that it might be better for his friends if they had helped

Herman Taylor, a new witness, and a fellow prisoner with Luckey in the Cental, gave some startling and damaging evidence. He had several conversations n prison with Luckey, whom he knew as del'herson, and he told him that he was given a year for throwing a man out of a bree-storey window during a row in a smith's Falls hotel, and that his friends would give him no assistance out of the scrape. His father would likely have done so but he thought his step-mother, with whom he never got along, must have used her influence against him. The day before Luckey was released, witness said, he told him he was going right home, and had some friends near South's Falls for whom he would make it hot.

James Stewart gave some new and portant testimony that will break up the evidence of the defence at the last trial that old man. Luckey wore boots much smaller than those taken from the prisoner and said to be his father's. These boots were sevens and considerable swidence was adduced last spring showing that the old man put on shoes as small as fours. Yesterday, however, this crown witness testified that a pair of slippers produced in court, size six, were given by the deceased to the witness' wife, saying that they were too small for him, as he wore sevens. James Whiting was placed in the box in the afternoon. He is a very old man and deaf and was stubborn with his answers. The crown had great difficulty in getting his story. Whiting said that he crossed the Luckey farm one day and he saw a girl struck down by a man and dragged buck to the house. This caused a big sensation, but owing to the extreme deafness and ugliness of the old man he could

A CRISIS IN ITALY.

The Government Trying to Save Itself by Introducing Progressive Taxation. Rome, Nov. 2 .- Signs multiply that a Cabinet crisis will be on shortly after the meeting of the Chambers on Nov. 28. Not only the attacks of ex-Premiers Crispi and Rudini, but also the speeches of deputies in the provinces indicate that the Giollitti

ministry is regarded as doomed. The friends of Joseph Zanardelli, who has been a politician of cabinet rank for a generation, are making every effort to push him into power. As premier he would give a more radical tone to the country's policy, although he would not alter the relations of Italy to the triple alliance. Zanardelli, while willing to assume the premiership under ordinary circumstan ces, is not for the office as long as the bank scandals remain unsettled and the financial condition of the Government threatens bankruptcy

Crispi is talking loudly to secure his own return to power and his supporters yield to none in energetic opposition to Giollitti, but his chances have been damaged greatly by the suspicion that he was connected with the bank scandals.

The ministers are preparing to fight to the last. They have drawn an elaborate scheme for progressive taxation. They expect this to be popular, as it will propose to relieve the poor and burden the rich. Probably the scheme will not be debated, as all the plans of the ministry are likely A flying column was sent in pursuit to to be overtaken at the opening of the session by the crisis.

> France and Russia. Paris, Nov. 2,-The Cabinet met lerday to make ready for opening of pariament on November 14. The proceedings were little more than formal. Premier Dupuy requested the other ministers to have in readiness for the next meeting all bills which will be submitted to the deputies. The only subject discussed at any length was the understanding between France and Russia, whose relations doubtless will be the main topic of the ministerial declaration immediately after the assembling of the Chambers.

The Project of Connecting Canada and Australia is Strongly Supported. MONTREAL, Nov. 2.—The Witness has the following special cable from Meibourne, Australia: All the colonies display great interest in the visit of the Can adian Minister of Commerce and the cable project is being heartily supported. The laying of the first section of the new cable was commenced at Gomen, New Caledonia, on August 30 and has been completed to Budenberg, one of the centres of the sugar industries in Queensland, and this places is such and English territory in the south was in communication with each other. It is believed by the supporters of the new it that the cable just laid is only the beginning of a new Pacific cable which is to connect Carsta and Australia and thus complete the talegraph

The course which the new cable is insended to take is from New Caledonia to Fiji, from there to Samos, and from Samos o Honolulu, thence to Vancouver. The rulers of the islands which have been insluded in the route of the new Pacific cable have promised subsidies, and the secounted upon if the construction of the section from Honolulu to Vancouver is to be an accomplished fact. The promoters of the new cable hope also to induce the other Australian colonies, which have hitherto apposed it, to contribute to the guarantee, as there is little doubt that the existence of a l'acific cable connecting the castern and western limits of the British Empire would be a great advantage to all concerned. It is not thought probably, however, that the English Government will be disposed to subsidize this new line.

Court Of Revision Appeals against assessments for Ontario ward were heard at the court of revision yesterday afternoon. Alds. Skinner. Herald and Robinson were present. J. L. Whiting appeared for E. W. Dowling, proprietor of the Frontenac and British American hotels. The hotels were assessed personal property at \$15,-000 and which were sold for \$14,000 and mortgaged for the amount. About \$1,000 was paid on it. Mr. Dowling will be as-

R. W. Garrett's assessment was reduced to \$4,300 and Henry Mooars re-Ald. Behan appeared for the officers of the Ancient Order of Hibernians. The members were separate school supporters and their names will be placed on the list accordingly. Angus J. McDonald was

also put on the list. Joseph Clark asked for a reduction of A Good Word For Canada.

The "Interior," published in Chicago sayso: "We are not so anxious to annex Canada as we are to see some of her good ideas transplanted to this side of the border. Throughout the whole extent of her vast western dominions you will not find an outlaw, or hear of a case of lynch ing. It is not because she has to deal with a class of frontiersmen so different from those of our own western states, but because she has laws and executes them. You can go nowhere, not even in the fastness of the Rockies or the isola- BROOMS. scarlet uniform of her mounted police. You will feel everywhere the presence of protecting law. You are made to realize that you are in a land of order, and that your person and property are under the care of the commonwealth. In too many of our own communities we are fast relapsing into that barbarism in which private revenge becomes the miserable substitute for public justice. Where Women Work. According to George Johnson, do ninion statistician, the women of Canada are engaged in a great variety of occupations. He writes to the London "Advertiser: "They are in beekeeping and gardening, stock raising, laundrying, baking, basketmaking, bookbindboxmaking, buttonmaking; they are compositors, confectioners, corset makers, fishcurers, glovemakers, factory hands, government officials, music teachers, college professors, theatre managers, clerks and copyists, agents traders of all kinds, wholesale and retail saleswomen, stenographers and typewriters and telegraph operators. The soft tones of the telephone girls' 'hello' sound through 30,000 miles of wire that were not in existence ten years ago 'Our girls' have pressed into every kind of occupation.
