wooden steamship, C. B. Lockwood, bound down with iron ore, collided with the schooner Nicholas, bound up with coal in the channel at Lime Kiln Crossing. schooner was very slightly damaged, and proceeded on her way. The divers were at work all day trying to patch the leaking in the Lockwood so the ore can be taken out of her by the sand pumps. Her position does not ob-struct the passage, but leaves only about seventy-five feet and makes it very difficult.
