# QUALITY. VARIETY. STYLE.

These are predominant features in every department of this house. You will find how much we value them as the allimportant essentials of our business when you have occasion to inspect any particular line of Clothing, or when you look through our matchless collection of Men's Underwear, Hose, Gloves, Ties, Collars, Cuffs or any other apparel desired.

And then there is the perfectly logical reason-of being the largest direct buyers and importers-to give weight to the claim that we can, and do, afford a special advantage to our patrons in prices.
