A HORSE TRADE.

Care Before Judge Price in Cham The case of Mr. Horton, commercial traveller, Montreal, against F. R. Scobell fo micrepresentation in a horse trade was con-

sidered before Judge Price, in chambers, this Horton gave a mare, \$35 and a set of harness for a span of ponies. They were alleged to be sound. Horton drove them to Inversry and then to Kingston, and Dr. Massie certi fied that one of the animals was diseased, that it had the beaves. Returning to Sydesham Horton recovered his horse but not the

Various witnesses were heard for and sgainst the declarations as to the soundness of the animal. STREET RAILWAY PLAN.

MR. FOLGER APPEARS BEFORE THE STREETS COMMITTE.

There Was an Informal Discussion as to the Purposes of the Street Car Company -No Work to Begin Before Next Sep-

tember-Improving Streets. B. W. Folger was present at the meeting the streets committee, yesterday afteroon, in the interests of the electric street allway scheme. He said he was anxious to put in such a road and to do it in such a anner that the city would not be any oney out over the venture. He believed the read could be built through bonuses. Mayor McIntyre contended that the city

ould not not without special legislation.

Mr. Folger explained that the bonding

oheme could be secured by special legisla-

The city would then be protected and could not be anything out. "The city could take the whole thing from us and put in the electric road and we pay them so much. That is one scheme, but I hardly think we could agree on that point, but we might." Aid, Gaskin said that while in Ottawa he had taken special care to enquire into the electric street railway business there. The company paid the city so much per mile. Mr. Folger-"If you go on and built the road I will give you \$4,000, yes \$5,000, a year for it." He said another scheme was if a majority of the people resident on the streets through which the road would pass would favor an increased assessment then principle as the local improvement system. There is a law granting this now on the The case of city of Kingston vs. Ronsseau | statutes. The system he proposed putting is what is known as the overhead system. The water works department added a | He noticed that in Germany the ators The officers of Lyn lodge, Sons of England, | beautiful wreath to the late Miss Polson's | battery was giving satisfaction but he thought the coat of this was so great that it could not be used profitably in a little city curred this afternoon and was largely at- | like Kingston. Ben's witty answer called forth ap-Mayor McIntyre-"You're right, I did not look at it in that way." Mr Bolger said he had estimated the cost of grading Princess street up to Clergy at \$5,000. Mr. Folger thought this was too

low a figure. It would undoubtedly cost more than that. Ald. Wilson said the old street railway was a great inconvenience. The track was too narrow guage for a waggon ; the proposed road would be a great improvement as the

rails would be the width of a waggen track and would save the macadam. The committee agreed to further consider the matter. There was quite a strong feel

ing in favor of the electric road, GOVERNMENT ESTIMATES
