THE FALLACY OF PROTECTION. in reture. Is this God's plan of reminding it has been asserted by a writer on political economy, that almost every govern- than man's device. Contrast it with God's ment has employed taxation at one time or dustry within the country; that it is often devising. Is not this tantamount to the unsupposed that if purchasers are prevented pardonable sin, the sin against the Holy hither and thither? Tis from buying foreign goods they will have to want that which will operate on our connature's unrivalled buy home made products, and thus manu- science? We must have something to the restoring wonder, Br facturers will be kept busy and there will be operate on our senses, setting up our way in she said, "but I can offer you a comfortplenty of employment. This was noticeably opposition to God's ways. No wonder, when able home if you can dispense with luxuthe case at inception of the national policy! this fallacy of protection readily took hold adoration, contrary to that command, No merchant or manufacturer desires to be underbid by those who offer better goods at lower prices, it therefore follows that when foreign goods are preferred by purchasers the home manufacturers complain bitterly and j is together to persuade people that they are being friured by foreign trade. Nations, as a rule, from an'm mity or nation-

al pride do not like to admit being beaten by foreigners. Manufacturers misled by their tuition and thus became idel worshippers in own selfishness use all kinds of illegical the bargain. This is a fact that cannot be arguments to show that if foreign products denied. I am sorry to know there are some were kept out of the country they could furnish as good and employ many people and add | are members they have no right to member to the result and prosperity of the country. ship. Methodiscs are satisfied with God's This is a fallacy. "Of making work" it | monitor, and I trust will nip every error in Carnovsky, is true, that when work is chespened, people P.S.—All in our congregations are not need more of it; the fact is that wages are members, neither are all the English church

increased by increasing the production of members idel worshippers. - J. M. labor. People do not work for the sake of working, but for the sake of what they pro to make goods as rapidly and abundantly as possibly, and as a result erjoy abundant It cannot be denied that certain works and manufactures may be benefited by government exacting duties upon foreign goods, and the removal of such improper duties particular class, but the good of the whole

The object of industry is to make goods to import foreign goods without exporting hardly write. The captain was washed him to reduce it!—Ulk. home-made goods or products of some kind that wealth is to be increased by producing it in the place most suitable for the production; the proof that the place is suitable is the fact that the commodities there producted are chesp and good. It might be said, What is to become of workmen at writer of the note. The letter was jurned home, if all our supplies be received from over to Postmaster Large, of Ashtabula, and at the suggestion of Capt. Dunn, a copy of it will be forwarded to Mrs. Tom Reardon, never think of sending us goods unless we Line, Buffalo, who he thinks will know the money. If we pay in goods work men will more we buy from abroad the more we as known this is the first message that has shall need of home products to send in ex- ever been received from any of the crew of change. Thus the purchasers of foreign goods encourage home manufacturers in the best possible manner. Wealth must be fr creased by producing it where it can be produced most easily and plentifully. Adam Smith taught England the value of free abor and free trade 100 years ago, and
