GREATEST SKIN CURES.

Cuticura Cures All Skin Eruptions Gives a Clear Complexion Free from Pimples.

Too much or too cannot be said of the Cuticura Remedies, as I have used them for the last year and a half or so, and find them to be the greatest skin cures, blood purifiers and humor remedies of the age. I have used a good many so-called toilet soaps, and I find Cuticura Soap is the best I have ever used. I find it far superior to all other toilet or medicinal soaps. It cures all skin eruptions, and gives a clear complexion. As for shampooing I would use no other, and for the hair officer, it is a cure for all pimples, blackheads, eczema and all irritations and roughness of the face. For after using the Cuticura Soap awhile, it makes the face smooth and cool, and does not give that burning sensation which so many other toilet soaps do. Try the Cuticura Remedies and you will not a regret that you have ever done so.

ACROSS THE ATLANTIC.

500 DEATHS DAILY FROM CHOLERA IN RUSSIA.

The Coming Meeting of Parliament—"Stamford Road to Ruin"—Collided in the Clyde—The Insanity Dodge in England—Tourists Fall Over a Precipice.

LONDON, July 30.—The Lancet, in an editorial, says that the cholera is making steady headway in Russia, and that even the incomplete official returns received admit that 530 deaths are daily caused by the scourge in that country. The disease is spreading westward, and the report that it has invaded Roumania, if true, is of serious import to Europe. No proper account, The Lancet says, has yet been issued in regard to the disease in Paris, and little importance can be attached to Dr. Proust's official statement that there is no invading or imported cholera in France.

The Lancet concludes its article as follows:

"When half the people attacked die it matters little what name is given to the cholera in Paris and its suburbs."

Riots arising out of the cholera panic and directed against the medical authorities have occurred in Tashkend. Troops have rigorously suppressed the riots, killing and wounding seven persons.

Confidential reports from St. Petersburg say that the Russian Government is convinced that the recent so-called cholera riots were due to Nihilists. Threatening letters have been scattered broadcast, and citizens in many towns are afraid to ask for police protection. Revolutionary agents assure the poorer classes that they will be killed in the cholera hospitals, while the rich will be spared.

A Roumanian Bulletin.

BUCHAREST, July 30.—The existence of cholera in Roumania is officially denied. The public health is everywhere good.

LABOUCHERE ON TOP.

A Notable Victory Achieved by the Editor of Truth.

LONDON, July 30.—In the Old Bailey Police Court yesterday John James Gardiner who was under indictment for having conspired with Louis Leon Goldstein, alias Roberts, to defraud and assault a number of girls, has been convicted and sentenced to six months' imprisonment. This is a great triumph for Mr. Labouchere, the proprietor of Truth and well-known Radical M.P., who first exposed the methods of the prisoner in an article headed "The Stamford street Road to Ruin." The prisoners thereupon brought a criminal prosecution for libel against Mr. Labouchere, who defended himself so effectively that the police found it incumbent to prosecute his prosecutors.

ORNAMENTED HANDKERCHIEFS.

The Czar Orders Three and a Half Million For His Soldiers.

LONDON, July 30.—An order has been issued by the Russian Minister of War that the private soldiers of the army shall hereafter carry handkerchiefs, and as these articles are unknown luxuries among the lower classes of the empire they will be furnished at the Government's expense.

Each soldier will receive four handkerchiefs; that is, the whole army will require approximately 3,500,000. The handkerchief have been specially designed for the service. Each will have in the middle a representation of the army rifle with its individual pieces of mechanism around it. The border will be ornamented with 12 small pictures representing 12 typical scenes of soldier life in peace; at each corner will be a picture of soldier life in war.

A CROOKED WOMAN.

Bessie Bellwood's Suit Hastens the Duke of Manchester's End.

LONDON, July 30.—George Victor Drogo Montagu, Duke of Manchester, is dying at Tandragee Castle, County of Armagh, Ireland, one of the family seats. His Grace was born on June 17, 1853, and on May 29, 1876, was married to Consuelo, daughter of Don Antonio Yznaga Del Valle of Ravenswood, Cuba.

A suit against him to recover money loaned by Bessie Bellwood, the Music hall actress, with whom he associated for some time before he arrived at the Dukedom, has been settled. The painful publicity attendant upon this and other matters has, it is stated, aggravated the physical afflictions to which the Duke has of late been subjected, and his life is now despaired of.

ADJUDGED INSANE.

Young Greatrex Escapes the Penalty of Murdering His Father.

LONDON, July 30.—William Ernest Greatrex was tried at Leamington yesterday for murdering his father, a country gentleman of wealth, who lived near Milverton.

The prisoner, the youngest son, was wild and dishonest from early youth. He was sent with ample means to the United States, squandered his fortune in five years and returned penniless.

His father, after settling upon him an allowance of £350, told him he must thereafter shift for himself until he should marry and reform, when he should have enough money to establish him in business.

Young Greatrex went to London and lived extravagantly several years. He wrote to his father last spring for a further allowance, which was denied him.

Then he wrote that he would go to Milverton and shoot his father unless more money were sent. The money was not sent and eight weeks ago young Greatrex went to Milverton, found his father taking a walk with his sister-in-law and deliberately shot him dead.

When arrested the parricide said:

"I had courage to shoot my father, but hadn't courage to shoot myself. Give me some prussic acid and I will take it."

At the trial, when the facts of the killing were put in evidence, several witnesses testified that there was insanity in the family of the prisoner's mother, and that he had been regarded as very eccentric.

The jury then adjudged the prisoner insane, and the judge ordered him detained at the Queen's pleasure.

Ravachol's Executioner Warned.

PARIS, July 30.—M. Deibler, the headsman of Paris, has received from his landlord notice to leave. Since the execution of Ravachol, Deibler has received many letters threatening his life. On Monday the landlord was warned that Deibler's end was near, and that if the landlord wished to avoid suffering the loss of his property in the wreck he must make the executioner move at once.

Collided in the Clyde.

LONDON, July 30.—While the steamship Peruvian, bound from Glasgow to Montreal, was steaming down the Clyde yesterday she collided with the steamer City of Lisbon. The latter was considerably damaged.

Where Witchcraft Was Believed In.

SALEM, Mass., July 30.—The 200th anniversary of the hanging of Rebecca Nurse of Salem Village for witchcraft was yesterday commemorated in Danvers Centre, old Salem Village, by the Nurse Monument Association. The distinct feature of the occasion was the dedication of a granite tablet to commemorate the courage of 40 men and women, who at risk of their lives gave written testimony in favor of Rebecca Nurse in 1692.

A Dentist Dies of Slow Poisoning.

DETROIT, Mich., July 30.—Dr. W. C. Britian, one of the most popular dentists of Detroit, died on Monday. Yesterday the true cause of his death was learned to be the excessive use of the drug tincture of Sanguinaria, which he administered to himself to cure a cold. He used it in such quantities that it acted as a slow poison.

An Old Sailor's End.

CHATHAM, Ont., July 30.—Capt. Sutherland, owner of the steam tug Alfred Wilcox, died at St. Joseph's Hospital yesterday, aged 76. The immediate cause of death was heart failure.

The Rochester Mandolin club (25 strong) will be on the str. North King next Sunday morning and will give a concert of sacred music during the trip to the islands.

Twenty-five per cent. off all cotton hosiery; forty per cent. off all parasols for the remainder of the season at R. McField's.

WINZEL MUST DIE.

Detective Joyce's Murderer Pleads Guilty and is Sentenced to Be Hanged.

LONDON, July 30.—John George Wenzel, the young German who murdered Detective Joyce, was sentenced to death for the crime yesterday. Wenzel admitted his guilt.

Officer Joyce, who was one of the oldest officers of the force, having served 22 years, went to arrest Wenzel on a charge of theft. Joyce arrested Wenzel and proceeded to put handcuffs on him. Thereupon Wenzel drew a revolver from under his blouse and shot Joyce fatally.

To Oppose John Morley.

LONDON, July 30.—It is stated that Joseph Cowen, proprietor of The Newcastle Daily and Weekly Chronicles, and noted for his independent action in politics, has agreed to oppose Mr. Morley, should the latter, which is almost certain, be appointed a member of Mr. Gladstone's cabinet, and offer himself for re-election.

When Mr. Cowen was a candidate with Mr. Morley, in 1885, for the two Newcastle seats, Mr. Cowen had a larger majority than Mr. Morley, Mr. Cowen's vote being 10,489 and Mr. Morley's 10,129. Mr. Cowen did not offer himself for re-election when the split arose on the Home Rule question, and his party orthodoxy has been held in doubt by many. The statement that he will oppose Mr. Morley has caused a decided sensation among the parties.

LONDON, July 30.—When the members of the Cabinet separated yesterday it was decided that the Queen's Speech from the Throne at the opening of the new Parliament would be limited to a blank intimation that Parliament had not met for transaction of business.

Lord Salisbury is to visit the Queen on Monday previous to the final Cabinet council for the consideration of the exact form of the Speech from the Throne. Powerful influences will in the interval be brought to bear on the Queen and Cabinet Ministers alike to try to induce Lord Salisbury to adopt a bolder policy. The appeals now being made to him and his colleagues to challenge the Liberals on franchise reform have some Ministerial support, but the majority of the members of the Cabinet appear to rely upon an early break-up of the Gladstone Government through a rupture of the internal forces on which it must rest.

The absence of any declaration of policy in the Speech from the Throne will not deter Liberals from proposing a vote of "no confidence." They will be rather strengthened in denouncing the Government for shirking the avowal of a program.

Conservative whips who were consulted on the question of procedure yesterday stated that it was perfectly competent for Parliament to proceed to the transaction of business without a Speech from the Throne. It is a fact that the House of Commons can dispense with the speech if it so chooses. In order to assent the historic right to do without the Speech from the Throne some bill is always read a first time in each House before the speech is considered. Still the unbroken tradition is that Parliament requires some form of a speech.

The Irish party are not entirely reassured in spite of Liberal declarations that Home Rule will be expedited, and until Mr. Gladstone adds the assurance of an immediate dissolution of Parliament if the House of Lords reject the bill a suspicion will haunt them that they will be used to carry the Newcastle program and then thrown aside. Now having him on the hip they will throw him unless he makes Home Rule his first and final aim. The payment of members will be early proposed. A bill dealing with the matter can pass without the assent of the House of Lords by putting the vote of money on the estimates, which the Lords are powerless to reduce.

The Irish-American peace commission has decided to visit London and hold a conference with both Irish parties on the opening of Parliament.

Orkney Goes Liberal.

LONDON, July 30.—The returns from the last of the constituencies, that of the Orkney and Shetland Islands, to elect a member to the new Parliament have been received. They show, as was expected, the election of the Liberal candidate, L. L. Yell, who received 2617 votes, against 1614 cast for his dissident Liberal opponent.

In 1886 a Liberal was elected by 971 majority.

Unhappy Lies the Head.

LONDON, July 30.—The Vienna correspondent of The News says it is reported that the foreign representative at Sofia unsuccessfully interceded in behalf of the conspirators who were executed on Wednesday. Vienna and Berlin papers uphold the necessity of the executions.

The Sobbda of Sofia says the mourning families should curse Russia and her diplomacy, at whose doors the guilt really lies.

French papers have violent articles in defence of Russia. The Intransigeant of Paris advises Bulgarian patriots to shoot or stab Prince Ferdinand and Premier Stambuloff.

The Bulgarian Government maintain that the Russian documents produced at the recent state trial are authentic. They say that Dragoman Anchiachin of the Russian Embassy in Bucharest fled from that city to Sofia a few days after the murder of Minister Beltcheff and sold the papers to Premier Stambuloff for $6200. Premier Stambuloff has sent proof to Berlin and Vienna.

Two Tourists Fall Over a Precipice.

VIENNA, July 30.—Two tourists climbing the Raxalpe yesterday slipped on a boulder-strewn slope and fell over a precipice. Their bodies were found, still roped together, at the bottom of the precipice.

Ten Firemen Injured.

LONDON, July 30.—Rallis' large flour and cotton warehouse at Bootle was destroyed by fire last night. The loss is over £30,000. Ten firemen were seriously injured by the fall of a wall.

Impaled Upon the Bull's Horns.

SAN LUIS POTOSI, Mex., July 30.—A sickening sight was witnessed here last night at a bull fight by electric light in the new ring near the city. There were 5000 persons present. The matador, Alberto Limentura, was in the act of giving the third bull a thrust with his short sword, when he slipped and fell. The frenzied bull had him on his horns in a moment, and was goring him ferociously when three of the banderilleros rushed to the rescue. Suddenly the bull charged upon one of the banderilleros, who sought protection behind a barrier erected for that purpose. The bull overtook him and caught him up on the sharp points of his horns, which penetrated entirely through the man's body.

Widowed by Canned Lobster.

NEW YORK, July 30.—Charles Newport was a young Englishman who lived with his parents in Tompkinsville, S.I., and a little while ago he started the Newport Club House, a saloon, on the corner of Bay and Williams streets. He prospered and three weeks ago was married to Miss Dora Getze of Stapleton.

Among the dishes served at the wedding dinner was canned lobster. Immediately after eating it he became sick. The doctor, his father said yesterday, pronounced it a clear case of poisoning. The young man's blood became tainted, and the hot weather of the past few days turned the scale against him and he died. His bride is nearly distracted.

29 Deaths At Philadelphia.

PHILADELPHIA, Pa., July 30.—Twenty-nine deaths were added to the results of the hot weather yesterday, but relief is now at hand, the temperature having fallen several degrees.

Victims of the Heat Epidemic.

NEW YORK, July 30.—There were 46 deaths from the heat in New York yesterday and 27 in Brooklyn.

Died in 30 Minutes of a Bee Sting.

HILLSBORO, Ill., July 30.—Mrs. Robert Morrell, an old lady living 10 miles north of Hillsboro, was stung on the back of the neck by a bee yesterday and died from the effects in 30 minutes. Mrs. Morrell had been in the best of health previous to the sting.

THREE MORE FATALITIES IN THE QUEEN CITY.

Scalped by a Washing Machine—An Ill-migrant Lad Sustains a Fatal Sunstroke—Attacked by Mules—An Old Sailor's End—Smallpox Epidemic Over.

TORONTO, July 30.—William H. Tegard, a colored longshoreman, fell off the schooner Lily last night. Some of the ship's crew rushed to his assistance, but were unable to save him. Deceased leaves a wife and family.

The body of Daniel Sullivan, a deck hand on the steamer Carmona, was fished out of the Scott-street slip yesterday morning.

William Hilderaft, an electric light man, while assisting in repairing a break on one of the lines last night, received a shock which resulted in instant death. The unfortunate man leaves a wife and two children.

RISING RAPIDLY.

Matrimonial Relief for a Sufferer Offered by a Sympathetic American.

ST. JOHN'S, N.F., July 30.—Temporary buildings are going up rapidly in the burned district, 227 being under way now. Permanent structures will be erected as soon as new street lines are run. All old streets in the fire-swept section are to be straightened.

The mayor received from the United States yesterday a letter containing an offer to marry any one of the feminine sufferers, providing she is of good character, has light complexion, is plump, weighing from 150 to 175 pounds, and is between 23 and 35 years old.

Relief supplies continue to come in.

Another victim of the fire, a man named Doyle, died yesterday.

FEROCIOUS MINKS.

A Man Badly Bitten and a Boy Kills Up of Them.

ARTHUR, Ont., July 30.—A prominent farmer had occasion to visit a creek bottom on his farm, accompanied by his dog. While walking through the tall grass he suddenly came upon a migrating army of minks, and they instantly attacked him with incredible ferocity, jumping at his throat, biting his hands and legs and fairly swarming upon him. His dog was quickly compelled to abandon him, and but for the assistance rendered by some men in an adjoining hayfield, who were attracted by his cries, he would undoubtedly have been overpowered. A boy armed with a stout club succeeded in killing 20 of the ferocious animals.

DIED ON THE ROADSIDE.

Henry Oxford, an Immigrant Lad, Sustains a Fatal Sunstroke.

CHATHAM, Ont., July 30.—Dr. J. L. Bray held an inquest yesterday on the body of a young lad named Henry Oxford, 13 years of age, who was secured from Dr. Barnardo's Home in Toronto by William Morrison, a Raleigh farmer, two weeks ago and who died suddenly.

On the day of his death he watched the cows till noon; at 3 o'clock he was working, pulling mustard, for half an hour; about 5 o'clock he went out for the cows. No answering when called by Mrs. Morrison, she went out to look him up. She found him lying on the roadside dead.

Dr. Duncan held the post mortem and gave it as his opinion that death had been caused by the excessive heat.

Smallpox Epidemic Over.

VICTORIA, B.C., July 30.—The smallpox scarcely claims recognition now in the ordinary street conversation. It has run its course, and people have become tired of it as they do of everything else, and want something fresh to discuss. There have been no startling developments and the patients are nearly all convalescent.

A Minister Down With Smallpox.

WINNIPEG, July 30.—Rev. Mr. Small, Presbyterian minister at Gretna, is afflicted with smallpox. He caught the disease while visiting some Chinamen there.

Found Dead in a Field.

ERIN, Ont., July 30.—The dead body of a man was found in a field on the farm of Mr. Isaac Teeter. The body presented the appearance of a man about 50 years of age. He is supposed to have escaped from some criminal or charitable institution and that he died from exhaustion.

Scalped by a Washing Machine.

PRESTON, Ont., July 30.—While ascending a hill on a furniture wagon Willis Biggs slipped off, and a washing machine fell on him, tearing the scalp entirely from one side of his head. He will probably die.

The Confidence Queen.

BOSTON, July 30.—Ellen E. Peck is in jail again, charged with swindling. By certain representations she secured $1200 on the equity of a house in Newbury-street on which there were two mortgages.

Mrs. Peck is called by the police the "Confidence Queen." She is 57 years old, and has been engaged in crooked transactions for nearly 30 years. Samuel Pinges, a patent medicine man, gave her $2700 for private information concerning stocks from Jay Gould's office. He got some tips and discovered too late that Mr. Gould was selling the stocks he was buying. John D. Grady, a crooked diamond dealer, was the next victim. He raised a sum enough for a compartment in a safe deposit vault where she had some phantom diamonds stored.

She kept on swindling diamond dealers and others out of amounts ranging from $100 to $1000 without being convicted until October, 1885. She had been arrested several times but always found a loophole until that time.

20 Fatal Sunstrokes in Chicago.

CHICAGO, July 30.—During the five days of unusually hot weather, beginning Sunday morning and closing with the lookfor rain last night, there were 20 deaths in Chicago from sunstroke. Other cases may yet terminate fatally. The number of prostrations was not short of 500.

CUT OUT THEIR TONGUES.

An Outrageous St. John's, Nfld., Slugging of the Insurance Companies.

ST. JOHN'S, Nfld., July 30.—Some wretch went, last night, to a field where were two horses belonging to O'Brien, in whose stable the great fire started, and cut the animals' tongues out. This cruel act is supposed to have been prompted by a spirit of revenge for losses by the conflagration. The utmost indignation prevails and a liberal reward has been offered for the scoundrel's arrest.

The haggling of the insurance companies, which are presumably substantial English concerns, with fabulous rosetrees, is in marked contrast with the course of the other concerns doing business here which have given far more satisfaction.

A large meeting of mechanics was held last night. Nearly all lost their tools and are therefore unable to take work which is offered in abundance. They ask the relief committee to supply them with necessary implements. Thus being enabled to resume their trades they will cease to draw from the relief fund.

A Fight Is On.

NEW YORK, July 30.—Richard K. Fox sent the following cablegram yesterday:

"London, July 29.—Joe Choynski has accepted the challenge of Jem Smith. The English champion agrees to fight Smith either in England or America, in any club that will offer the largest purse. The fight to take place in February."

Peter Jackson, Charles E. Davies, Warren Lewis and Joe Choynski will return to America at once after the Pritchard and Hall fight to attend the Sullivan and Corbett affair. Frank P. A Freak of Lightning.

LANCASTER, July 29.—On the evening of Monday the dwelling of David Tait was struck by lightning. The fluid entered through the chimney, which it shattered, passed along the stovepipes and out through the store in the dining-room, tearing up the floor for about a foot around where Mr. Tait was sleeping. Then it took its way to the cellar, but did no further damage. No one was injured.

Are They Wind Mills?

TORONTO, July 30.—The managers of the *Globe*, *Mail* and *Empire* waited upon the mayor and urged that newspapers be included among the manufactures entitled to exemption on plant, machinery and tools. Carswell, the city solicitor, is of the opinion that newspapers are as much factories under the act as works where calico is printed. The exemption, it is said, will probably be made.

A Lawyer in Trouble.

FARGO, N.D., July 30.—The trouble between Taylor Crum, a most noted criminal lawyer in North Dakota, and the Fargo bar association, culminated yesterday when the association preferred formal charges against Crum. These will be presented to court with the view of debarring Crum from practice. They include perjury, blackmail, altering orders of court, falsifying and abusing jurors.

OTTAWA EXCLUSIVENESS.

A Prominent Young Ottawa Man Black-balled in the Rideau Club.

OTTAWA, July 28.—Social circles here are much exercised over the black-balling, by the Rideau club, of a prominent young citizen. The gentleman who has been ostracised is one of the partners in a prominent milling company, which derives its power from a spot not very far from the Chaudiere, and, desiring to obtain the club facilities, to which a young man of his social position was entitled, had his name "put up" at the Rideau club. The vote upon his nomination came on the night before last, and, to his surprise and to that of his friends, no less than three black balls were found among the ballots. It may be that the members of this most exclusive club have taken advantage of the disappearance of the Ottawa club to follow the example set by that octavia of civil servants to boycott everybody who is concerned in trade. But the Rideau club already includes among its membership many gentlemen who have defiled their fingers with the touch of coin derived from a much less honorable calling than that of grinding wheat into that which afterwards becomes the staff of life.

THE NEW GREAT GUN.

Development of the Modern Marvel Machine—Experiments Yesterday.

BRIDGEMAN, Pa., July 30.—At the completion of the five-inch brown segmental tube air gun draws near, the experiments with the 56 shells tests have been resumed. Yesterday, with a new powder of greater energy than that heretofore used, three shots were fired, the first giving a pressure of 44,000 pounds per square inch, the second 56,200 pounds and the third more than 66,000 pounds. The exact figures have not been accurately, but it is known that more than 66,000 pounds was the pressure in the cylinder. The extraordinary result, fully 50 per cent. greater than has ever been obtained in any built-up gun, left no mark whatever on the cylinder, and there was not the slightest enlargement of the bore. The total pressure on each of the plugs at the ends of the cylinder was more than 1,320,000 pounds.

UNITED STATES NOTES.

THREATENING NOTICE TO NON-UNION MEN IN HOMESTEAD.

Powderly on the Rhots—Victims of the Heat Epidemic—Heat to 30 Minutes of a Boy Sting—Trust of Trade—The Ballot Isle Disaster—The Confidence Queen.

HOMESTEAD, Pa., July 30.—The second month of the great Homestead strike opens rather discouragingly so far as the locked-out men are concerned, though they do not in the slightest admit and express as great confidence in ultimate victory as ever. On June 29 3300 men were locked out, 1800 others struck out of sympathy, and only a few watchmen were left around the plant. To-day there are about 725 men in the mills and the firm claims it has a quantity of beams ready for shipment.

The non-union men are beginning to receive an astonishing number of threatening letters. The following is a sample:

HOMESTEAD, July 29.

NOTICE—All non-union men desiring to leave Carnegie's Works will be provided for by the unionmen of Homestead, but all who stay at work will seek their God. All are being spotted. Beware!

All the Plotters About Rounded Up.

PITTSBURG, Pa., July 30.—"I think we have practically all the Anarchists who plotted to kill Chairman Frick of the Carnegie Steel Company," said Police Superintendent Roger O'Mara to me last night. "There may be one or two at large, but if they amount to anything we will be able to get them. Everyone suspected of even the remotest part in the scheme is being shadowed."

Powderly on the Riots.

WASHINGTON, July 30.—General Master Workman Powderly of the Knights of Labor appeared before the House Judiciary Committee yesterday and made a broad denial of the statements of the Pinkertons relative to the character of their employes. Referring to the New York Central strike he accused Mr. Depew of deliberately causing the strike and then going to Europe. He said the Pinkertons prevented the settlement of strikes. He was in favor of the protection of property by persons living in its vicinity and opposed to bringing in outside aid.
