NOT LOST HIS GRIP. Those who concluded that the Gladstonian party was doomed to defeat on the home rule question, that the old man elequent had too small a majority to permit of divergent views upon any subject, are beginning to see that they were hasty in their conclusions. Mr. Gladstone saw no occasion for alarm, said he had seen enough of political life to warrant the conviction that he had the of Mr. Gladstone's opponents is that he will go on with the home rule bill first to the exclusion of all other logislative proposale, but he has quietly intimated that concurrently he will bring forward the ballot, one man one vote, and other reforms, and theb they will be pushed through and the liberal party prepared to "sweep the country," as it is hold it can do with a change in he manner of conducting elections. The friends of the home rule party will, no doubt, ceptance of the radical proposals by them," because the radicals are the projectors of taken to engineer. Of course the Chamber- the shirt. lain liberals are alarmed, and the member for Birmingham has clearly intimated that he and his followers are not to be caught radicals, and how they are going to oppose them now is the conundrum of the hour. To in some way, directly or indirectly, help bone rule is to invite a conflict with the

will be careful to avoid. A SIGN OF THE TIMES. It is a good sign, in the opinion of single tax mara when the city assessor of O sawa advocates the Heary George theory of assessment before the board of trade. Nor does Mr. Pratt base his arguments upon abstract theories. He is dealing daily with the subjact of taxation-it is his business-and he declares that the present system of collect-Ing the public dues from the people is barbarous and defective and unjust. Note his contention as briefly outlined in one of the

masses which some of the dissident liberals

Ottawa papers : "The basis of assessment is the actual ash value, and there commences the diffigulty for on this point there is always a difference of opinion; therefore a more equit able system should be devised. He believed in the single tax by which the land only is taxed, the buildings and improvements going free. Land is more easily and correct-

ly valued than improvements. "A house costing \$10,000, in one locality may be worth every cent of the assessment; the same house in another locality may not be worth fifty cents on the dollar. Active capital should be encouraged, but by the present system we discourage it. As soon is concealed beneath a cover of diamonds as it begins to assist the mechanics by build- | and blue enamel, which is set in a flexible ing houses, we put a tax on it. The ten-dency of the system is to step improve-

"By taxing the land alone a more just as-sessment could be reached, and at the same time the city treasury not suffer. By the single tax there would be a gain to the city. At the present time the revenue on \$16, 718,435 for land and improvements at 20 on the dellar is \$334,368 70. At say 50 on the dellar on the land alone (\$6,746,533) the revenue would be \$337,326.75, a gain of \$2,.

had ground for his contention that by a tax for lavender, on land alone the burden of taxation would fall equally upon all, and that the revenue | the aid of fashionable militnery. A nauof the city would be increased instead of diminished. A similar argument, by the pretty face, the brim rounded in a curve on one side, the point of the shell almost funds to pay insurance on the church, etc.;

The hay brop in Admaston township in the church of the shell almost funds to pay insurance on the church of the same and business with three applications. 15c week at the Methedist parsonage, to raise on one side, the point of the shell almost funds to pay insurance on the church oto; way, misapplied by the socialist Edwards, bidden by sprays of yellow laburnum; the and a trial will make it absolute- while in Kingston, did more to sieken seme upper crown resting on an under one makes a hat look charming, for beneath bought from us are bought at. He was great on figures and was in the this upper crown there is generally a vista habit of undertaking to demonstrate his theories by frequent illustrations. As they crumpled up tu most picturesque fashion, were not correctly evolved the idea he left two white wings, placed like those on the N.S. John Loyns and wife, from Manitoon many a mind was that the single tax was a doubtful commodity which cautious pecshould be, and a green welvet bow, clasped been away for tan years. A large quantity six works visit to her husband at Ninga, with a diamond buckle, formed the back-Popular Teas. Popular prices a doubtful commodity which cautious pecple should leave severely alons. Mr. Pratt, ground. of Ottawa, is a great catch for the tax reformers, because he knows what he

is taiking about, and if he says Henry George's Ideas are practicable he has and are generally becoming. Worn by spoken to some effect, because, as the men they are, I believe, a mark of respecta-Ottawa Journal remarks, his opinion carries | bility, and if you see a man wearing one great weight with it and he clears the way feel quite sure that he is a perfectly "calm home party at T. Berrigan's on Monday about terenty-two years of age, was sefor the introduction of the single tax into and correct" sort of person, says an English evening (on the arrival of his son John, it greet as clark with the firm of Barnet & civio politics.
