RIO GRANDE CITY, Tex., Aug. 10.—The Mexican refugees on this side of the border are again on the warpath and are endeavoring to work up another revolutionary movement against Mexico. General Lorenzo Garcia, who commands the Northern Military Zone of Mexico, with headquarters at Meier, received word that a hand of revolutionists had opened a recruiting station and established their rendegrous at the Jabaline ranch, below this city. General Garcia at once telegraphed the information to General Frank Wheaton, commanding the Military Department of Texas, and the latter ordered Second Lieutenant George L. Langhorne of the 3rd Cavalry, stationed here at Fort Ringgold, to proceed with a detachment of 30 men from Troops A and C immediately to the scene of the reported revolutionary gathering. The troops left here two days ago and nothing has since been heard from them. It looks as though the Mexican revolutionists along the Rio Grande border have entered upon their second winter campaign against Mexico. CONVENTION OF ELECTRICIANS IN THE QUEEN CITY.

The Goderich Libel Suit-Death of Fr. Edward H. Leger, H.P. for Kent County-Session of the Grand Lodge of V.M. P.B.A. Tonoxro, Aug. 10 .- The annual convention of Wirard Edison's illuminating com-

panies was opened at the Rossin House vesterday morning. The standing committees of the association were called upon for reports, and from these reports several discussions of practical subjects resulted. These included the importance of high insulation in the interior of buildings and the improvement of safety

esting questions relative to the possibility operating electric railway systems from ighting stations, and during the discussion Mr. William Lloyd Garrison, the famous reformer of Boston, was called upon and gave in an exceedingly interesting manner some results of his pioneer incandescent light experience at Brookton, Mass. By invitation of the association Mr. M. Sullivan, for several years official atono

grapher of the association, and now pub-

isher of The Street Railway Gazette of

Chicago, read a paper entitled "The Central Station and Street Railways." Mr. Sullivan's paper showed that there are to day no less than 400 street railroads America using electricity, involving an industry of \$400,000,000. His paper also showed that it was economical to operate as small a number of cars as two, with the electric current, as has been demonstrated by experience. He advocated the consolidation of street rull-

order to effect a more economical line An interesting and valuable paper, illus trated by statistical tables and diagrams, was read by Mr. J. H. Vail on "The Applica tion of New Apparatus and High Economy Engines in Central Stations to Secure

ways with the electric lighting stations in

Among the notables present were: Samuel by the tax payers of this township, Charles Insul, the late general manager of the Stieringer, electrical engineer of the World's ARA GROCTES SELL IV.

Goderich Libel Suit.

GODERICH, Aug. 10 .- The town ball held sweltering crowd vesterday afternoon when the magistrate resumed hearing the charge of criminal libel and conspiracy against W. F. Maclean of The Toronto World by M. C. Cameron, Mr. Garrow appeared for the prosecution, Mr. Murphy for the defeuce. There was a great deal of cross-firing between the two Q.C.'s After the cross-examination of Reporter Fox Mr. Murphy asked that the warrant under which Mr. Maclean was arrested be produced and impounded, netwithstanding Mr. Cameron's advice to the constables at the last court not to do

Thereupon a sensation was caused by Mr. Garrow saying that he used to amend the information by striking out the charge of conspiracy, and also the names of Laura Gordon, who was an invalid, and Richard Gore, who could not be found, and making it a simple charge of criminal libel against Mr. Maclean.
