The chairman of the committee has been asked, through the newspapers, who compose the committee. He has declined to answer, and the reason is said to be that, with one or two exceptions, every one of the nominees is a member of the committee. In other words, the commirtee have numicated themselves ! Fitting this and that together, it looks very much as if the university faculty, with the aid of a few of their particular friends, were endeavoring to run the elections in their own interest and for their own perposes.
