DISEASE SPREAD BY BEDBUGS

velopment of Tuberculosis.

The recent publication of a map of New

Haven, Conn., showing the number of

deaths from tuberculosis in the past four-

teen years to be almost 3,000 and indicating

that there are what may be called tuber

colosis districts in the city, making the

general subject of tuberculosis and its pro-

pagation a matter of present interest. The

theory of Dr. De Forest, who prepared the

map, is, according to the Regester, that

there are certain houses in the tenement

house districts that are favorable to the

spread of this disease. Deaths from i

have occurred there and are likely to occur

spreading the disease. But has the doctor

any knowledge as to whether any of these

iouses which he has marked with numer-

ous pin points as the homes of tuber-

culosis are infected with bedbugs? The

sent number, copied from a German

medical journal the report of the case

of a boy 18 years old who had developed

pulmonary tuberculosis after having slept

with a brother who had died of the disease.

The third brother, with whom the accond

prother had slept, had likewise died of

tuberculosis. The patient presented numer-

ous bedbug bites, and it was learned that

the bed in which he slept contained a large

number of the parasites. Thirty of these

were taken and used in the inoculation of

three guinea pigs, all of which died of tu-

also obtained from the diluted and filtered

also obtained from bugs taken from healthy

surroundings and brought into contact with

aberculous sputum. The bugs become in-

directly through the medium of the expec-

toration, or by transmission from one ani-

mal to another. The transmission of tuber-

culosis from the bugs to the human beings

remains an open question, but the probabili-

bility of infection in this manner.

KINGSTON LAD DROWNED

A SAD FATALITY AT NAPANES OF MONDAY AFTERNOON

He Fell Off the Dock and Was Not covered Until an Hour Afterwards -Living With His Grandmother-A Son of Urish Wilson, M. P., Very 1th-The Gratu Crop Report,

NAPANEE, Aug. 23 .- Monday afternoon, bout four o'clock, a young lad of about ight years, named James Arthur McGowan, was drowned off one of the docks here. He appears to have been playing by himself at where the water was about twelve fost deep. Another lad near by saw him and ran home to tell his parents, who live some distance away. It was nearly an hour ; before the body was recovered and then too late A KAST, No. 607 "Valliere Turrane." to resuscitate it. Deceased lived with his grandmother, Mrs. Byrnes, here. His mo-

Morley Wilson, second son of Uriah Wil son, M.P., has been lying seriously ill of typhoid fever for some time. For a few days his friends entertained but little hope of his recovery. He is getting better now. He is a young man of fine education and much promise, a graduate of the university of Toronto and a law student here. He is still very low, but the worst seems past. TEW BRICK HOUSE, EARL STREET, IN There have been three or four cases of very

erious illness of late, but no deaths. Farmers in this vicinity have nearly finished their grain harvest, nearly all of which has been recured in good condition. The yield is reported good and the quality fair. The fall wheat is not so plump and IILLEN & SILLEN, ARCHITECTS, SUC heavy as some years, but the crop is a good one. There is, just now, a great plague of grasshoppers in some places, and late fields of oats are being much injured by them Rain is greatly needed just now, and the pastures have become very short and dried

The Oddfellows are expecting a great excursion to Tweed on Wednesday. If the day proves fine there will be an immense
