JOHN OFFORD, Assistant Business Manager.

CUNARD STEAMSHIP COMPANY.

SAILING from New York every Saturday. Authorized Agent, F. A. Folger, Ferry Dock, foot of Brock St. Kingston.

THE DAILY WHIG.

"Opifer per Orbem Dicor."

THE WAY TO DO IT WELL.

On Saturday Hamilton had a mammoth society procession and picnic in aid of St. John's fire sufferers. The attendance was very large; the proceeds, $1,500. There was an afternoon and evening programme of games, sports and exhibitions. Prof. Hand gave a free display of fireworks, generally declared to be the prettiest of the many he has given there. The grandest scene was one in which all the societies were represented. The special pieces were:

Steam fire engines, with whistle; fir true, with shower effects; keystone wheel, acrobatic monkeys, revolving wheel, bouquet of whistling rockets. The chief piece was an original design, 30 by 40 feet in size, and had its central figure a representation of the angel of Mercy with horns of plenty in her hands. In the piece were the beaver, the rose, the shamrock and the thistle; Oddfellows' emblem of the links; anchor and shield, representative of the Veterans' association; deer and head, representative of the Foresters, and under it all the word "Sympathy." The frame for the beautiful piece was golden fire.

WHAT OF THE EFFECTS?

There is a great diversity of opinion as to the probable effects of the retaliation in canal charges ordered by President Harrison. The disposition of the Canadian people and press is to defend the Ottawa government and to hope that having taken a certain position upon the question at issue it will have the fortitude to fight it out until the end. Two thoughts, however, press themselves upon the mind: (1) Admitting that there was, as alleged, a gross violation of the Washington treaty by the American government, in respect to the use of its canals, a discussion of it should have been forced and an understanding, if possible, have been reached without resort to any strain upon the agreement so far as Canada was concerned. (2) The rebate on St. Lawrence traffic was intended to benefit the purely Canadian trade, but the fact that it is to be abandoned at the end of the season emphasizes the contention of the Americans that it is discriminatory and so justifiable of retaliation. The question now is, What can be done? The shippers are not appalled by the outlook. They realize that the "$30" tax will seriously handicap them and affect trade with the western grain ports, but they say they can stand it, and if they can there will be no worry. The period can not be long until Canada has an independent water way, and the minister of railways and canals is proving equal to the emergency by ordering the completion of the Sault canal with all possible speed. In the long run the Canadians will have the best of the situation so far as the navigation of the lakes goes. Meanwhile an appeal may be made to our government to pay the tax imposed by the American government, and it is likely to be an appeal in vain. Having ordered the rebate of the Welland canal toll in favor of the Canadian shippers it cannot go further without appearing to misuse the public funds in the interest of a certain class, and such a feeling is not to be desired.

EDITORIAL COMMENTS.

The record of all the street railways is that they vastly increase the income from them when they use electric cars. The people get faster, cleaner and smoother riding.

* * *

The bandsmen of Hamilton and Detroit are still at loggerheads anent the 13th engagement at Denver. When musicians fall out and childe and fight they become particularly idiotic.

* * *

The Toronto *News* suggests that the management of the schools be transferred to the Ottawa government. With racial and religious differences at their heighth this would be a singular course to follow.

* * *

The *Empire* recommends the reimbursing of the Canadian shippers who have Canadian grain contracts and will be heavily mulcted by the retaliation toll on the Soo canal. As Hon. Mr. Haggart says "hear, hear," it may to be a go.

* * *

Rev. W. W. Carson calls President Harrison down and declares that the retaliation proclamation will be a guarantee of Cleveland's election. Which might not be any better for Canada, seeing that Cleveland was the first, in the last presidential campaign, to bluster about what the Yanks should give the Canucks.

Get Off the Powder Train.

Montreal Herald.

Those who suffer from this retaliation can thank the aggregation that assemble in council at Ottawa and rule this land. They made our international relations subserve local, personal and political ends. They elected their man for Kingston at the general election of 1891, and subsequently at the bye-election; though to do so they ignited a train, which has just now reached the powder magazine. We have said repeatedly, but it will bear repetition, that the bare-faced discrimination between Kingston and Ogdensburg as transhipping points for Montreal was the germ of the present embroglio; and that discrimination was dictated by the meanest and pettiest of reasons. This year the blunder of 1891 was repeated, despite the well-intentioned advice of Montreal. When the Washington authorities protested the Canadian government should have promptly got on stronger ground by widening the scope of the rebate. In place of that they made a proposition that simply trifled with the question, and invited the decisive step that president Harrison has taken.

A Revelation.

Our genuine ice cream soda is a great success at five cents, and is liked by everybody, but our ten cent ice cream soda is a revelation. Our frosted cream is delicious. Wilson's Pharmacy.

TEN YEARS IN SERVICE.

MARVELLOUS PROGRESS SHOWN IN A SINGLE DECADE.

There is a Vast Amount of Capital in Use in Electrical Appliances—An Incentive Given to the System—Data Has Been Irrevocably Lost.

Electricity, New York.

Just ten years ago—August, 1882—the first central station for commercial incandescent lighting was established, and arc lighting was beginning to assume its present form; yet a single decade has seen the use of electric light and power advance from the experimental stage to the very front ranks of industrial enterprises.

The most recent estimate of the capital invested in the electrical industries in the United States is $750,000,000, and of this amount $350,000,000 represents the proportion which electric lighting and power have attained; $100,000,000 is also the estimated investment in electrical supplies, of which the electrical lighting and railway appliances constitute a large proportion.

The influence which the Edison and Thomson-Houston companies exerted in the development of the electrical industry will be further appreciated if we consider the slow progress made in this branch of science previous to the time of their organization. The telegraph was at that time almost the only important application to which electricity had been adapted, and, although electric lighting by means of the voltaic arc had been accomplished by Sir Humphry Davy as early as 1810 by means of a battery of 3,000 cells, it was not until 1867, when Dr. Siemens announced his invention of the self-exciting dynamo that any material progress toward the science of electric lighting was made.

At the Paris exhibition of 1878 the system of electric lighting invented by Jablochkoff, by means of which several of the streets of Paris were lighted by electricity, proved an incentive to inventors which resulted in the production of the modern type of arc lamp, which was in a comparatively experimental stage at the time of the organization of the American electric company of New Britain. The incandescent lamp had received less attention at the hands of scientists than the arc lamp when Edison announced his invention. The division of the electric current into small units had been a long-standing problem before the scientists of that day, but all the experiments previous to Edison's invention had been in the direction of a filament of low resistance, which obviously required a prohibitive amount of copper to conduct the current for a few lamps, even over short distances. The invention of a high resistance filament marked the turning point in the history of incandescent electric lighting.

Thus we see that the whole of this great industry has practically come into existence within a single decade. The men who have been making history at such a rapid rate have been so engrossed with the present and the immediate future that they have paid little attention to the preservation of records, etc., that would not only be of interest, but of great practical value to the great army of young men who have taken up the science of electrics as a field for their life work. In the work on the Richmond road experiments were made with, perhaps, seventy-five different designs for a trolley. No memoranda or photographs were preserved, and not even Mr. Sprague himself can tell to-day just what a half dozen of them were. This is only one instance out of many where data have been irrecoverably lost.

THROWN FROM A HORSE.

But Luckily the Injuries Were Not Alarming—The Many Visitors.

FORFAR, Aug. 23.—Farmers are very busy with their harvest. A number from here attend camp meeting at Harlem. Mrs. Charles White, Portland, was visiting at P. Downey's on Monday. Mr. and Mrs. H. Hart, Smith's Falls, are visiting here. Rev. Mr. Jamieson is away and Mr. Shaver, Newboro, occupied the pulpit in the Methodist church on Sunday. Edward Myers was successful in passing his primary examination at Athens. Mr. and Mrs. James Ackland, Athens, and Mrs. George Ackland, of Newboro, were visiting friends here last week. Miss Maud Myers, while out horseback riding, last week, was thrown and injured. She has so far recovered as to be able to be out again.

A number of farmers have threshed part of this season's crop. Messrs. Fletcher and Delbert Warren, Elgin, were visiting at C. T. Hales' on Friday. James Ackland thinks he will have no difficulty in capturing all the prizes given on Jerseys at the fall exhibitions in this locality. Fred Morris left for Manitoba last week. It is his intention to stay a while. Mr. Lasher, grocer, is away buying stock.

Westport Whispers.

WESTPORT, Aug. 23.—The excursion from Perth on the 19th was small; only about seventy-five were on board. Mr. and Mrs. Delany, Cleveland, visiting relations for the last three weeks, return home on the 26th. Mr. and Mrs. Derbyshire have returned from Calgary, N.W.T. They intend to make this their home in future. John North, jr., has bought two lots on the corner of Concession and Adams streets, from E. G. Adams, for $200. He has the material on the ground to build a large barn. Herbert Derbyshire is building a residence on Concession street opposite the Presbyterian church. Casper Speagle has the contract of building a dwelling for E. Golden, Bedford, and for Mrs. W. Bennett, on the mountain. Thad. W. H. Leavitt, of Brockville, paid us a flying visit last week.

Bargains, at the Misses Harrington's, only till the 15th September, as they will rent or sell their store on that day.

There is a large staff of men at work for the last week preparing the grounds for the R. C. picnic. The handsomest cottages, in this vicinity, are to be seen on the north shore of the Little Rideau, adjoining the village. They are owned by James Gorrell, D. P. Alguire, Mr. Leech, James Bilton, J. P. and G. F. Randells and W. Myers. W. A. Lamont, photographer, and Miss A. Lawson, dressmaker, of this village, were married on the 16th. T. J. McCann, Ottawa, is home on a visit to his father, M. G. McCann. Miss Mary McCann, Ottawa, is visiting relatives here. Go to M. G. McCann's for your fine boots.

Harrington Happenings.

HARRINGTON, Aug. 23.—School has reopened with a fair attendance. J. S. Moore intends commencing to work his iron mine next week. Specimens of the ore are to be exhibited at the Toronto industrial exhibition. Mrs. Wm. Patterson was taken very ill to-day. Dr. Channonhouse is in attendance. Miss Gertie Dennison is spending a few days in Harrowsmith. We think Harrington would be a good place for a young man, intending to go into farming out in the west, to come for a wife. Visitors: Miss McMahon, Kingston, at E. Revell's; Miss Ethel Lawson, Sydenham, and Miss Ethel McClement, Ingersoll, at D. Dennison's; Miss Murphy, Kingston, at J. Babcock's; Miss Amey, Kingston, at Isaac Carscallen's; Miss Johnston, Hockston, at M. Clow's; Miss Marshall, Camden East, at W. Galbraith's; Miss Saul and the Misses Vine Napanee, at E. Sigsworth's; Miss Lulu Simpkins, Desoronto, at D. Wood's. Then there are the young gentlemen from a distance who occasionally visit their friends here. We won't tell their names for the young ladies might not like it.

Gratifying to All.

The high position attained and the universal acceptance and approval of the pleasant liquid fruit remedy Syrup of Figs, as the most excellent laxative known, illustrate the value of the qualities on which its success is based and are abundantly gratifying to the California Fig Syrup Company.

Kingstonians In Trouble.

TICHBORNE, Aug. 23.—Farmers have about finished haying and report grain and root crops good. Our new school opened on the 15th and is progressing fairly under the management of Miss G. Spooner. What might have been another drowning accident happened on Eagle Lake, Saturday a party of sports from Kingston while fishing upset their boat and had it not been for timely aid would soon have gone under. One young man lost his boots and had to walk home in his bare feet to the amusement of the rest of the party who were more fortunate. Captain Boyd Smith is expected here soon.

Ladies' kid hand turn shoe at Armstrong's new store for $1, elegant styles.

PRINCE EDWARD COUNTY.

Hop Picking Has Begun—The Council's Troubles—Death of a Lady.

SOUTH MARYSBURGH, Aug. 23.—The past week was dry and quite favorable for harvesting. The people of Point Traverse have a large area of their land seeded with buckwheat, which, at present, is badly in need of rain, for, strange to say, the showers that were so frequent in the rest of the county a week ago did not visit this locality. Hop picking will commence on Monday next. The area is large and crop considered good throughout the county. With some producers the picking season will last for four weeks.

Threshing has become general, and some good yields of fall grain are being reported, but in most localities spring wheat is a failure. In some cases from the very best of land the yield has been under five bushels to the acre. B. Cooper, Bloomfield, was visiting friends here this week. He is owner of the pacing mare Daisy for which he was recently offered $1,500. Mrs. H. Goodwin, whose sudden death occurred in Sophiasburg early last week, was a sister of W. Call, of Black river. Her brother, Patrick Call, with his wife and other members of his family from Rochester, was among those from a distance who attended her funeral on Thursday.

The excursion per str. Hero to Kingston and Clayton on Tuesday from South Bay ports was in the interest of Carman church. Point Traverse, and was a success. Over $100 were realized. There was the full complement allowed by law on board, a large number being left at each dock on the way down. Our municipal fathers met in Milford on Saturday last, and, notwithstanding the recent judicial decisions that have been rendered in matters relative to South Marysburgh affairs, the council is still in possession of its minority opposition of two. It is a strange course they have taken and is not, apparently, meeting with the approval of many of their supporters.

Several deaths among horses have occurred here recently as a result of a distemper now prevalent. Mrs. Palmatier, relict of the late J. Y. Palmatier, Point Traverse, died on Thursday last at the residence of her son, West Greenbush. Robt. Dayton, Milford, is again manager of Love and Church's Peerless separator, and Wm. Delaney, of Black River, controls a similar combination for Messrs. Jenkins and James.

The Salvation army corps, of Picton, visited Milford on Wednesday evening. Visitors: J. Burk and sister, Miss A. MacManus, Miss L. Valletta, Miss Nellie MacSloven, all of Picton; the Misses Farrell, Demorestville; Rev. George Nickle, Madoc. Wheelman S. Ellis, of the new str. Iona, was home over Sunday. Loaded she runs ten miles an hour. She will tow the barge Saxon, now loading lumber at Deseronto.

DELTA DOINGS.

Farmers Moving to the North-West—A Fine Fair Promised.

DELTA, Aug. 23.—Farmers are complaining of a falling in the quantity of milk from their cows. The quantity of milk delivered at the factory, yesterday, amounted to 21,859 pounds. G. Stevens is going around with a petition asking for a more general clearing up of the streets. William Vanloon and Mr. Brown, of Frankville, were here on Saturday last. Nathan Stevens is having the interior of the Central hotel painted. Mr. Wright has the contract. Delta fair occurs Sept. 20th and 21st. The prospects are that it will be the best ever held here. A large number of special prizes are offered. L. Soper, L. Washburn and T. Bolan contemplate going to the north-west shortly. Mr. Soper intends to locate there. G. Morris has purchased Soper's farm.

Rev. Mr. Harris, Montreal, filled the pulpit in the Methodist church, on Sunday evening, and preached to a large congregation. John Beadle has purchased a Noxon binder. Mr. and Mrs. R. Burch and Mrs. T. Burch are camping on "Whisky Island." Rev. Mr. Moyle and family are camping on Soper's Point. Fishing is excellent on the lakes at present. R. Whalley is going to take a course in college. James Pennock is building himself a new skiff. Visitors: Miss Nellie Flood, East Saginaw, Mich.; Mrs. James Downey, Brockville; Mrs. Greene and daughter, Kingston. Miss Ida Soper has gone to Chicago to remain. Mrs. C. Lafleche is visiting in Ogdensburg.

The Couple Married.

ARDEN, Aug. 23.—For the past week or ten days there has been fine harvest weather and the farmers are making the most of it to secure their grain, which is being harvested in good condition. Mr. Evans, a cattle buyer, has been around purchasing fat stock. About a year ago Joseph Clapper was to have been married to Emma Loyst. The latter's father objected on account of her youth. On Wednesday, the 10th inst., the happy event took place at the Methodist parsonage. They were married by the Rev. W. B. Tucker. At present they are staying with Henry Clapper, but after some necessary repairs to his house Joseph intends to move on to his farm, back of Cross Lake. Miss Price, daughter of Andrew Price, of Camden, has been visiting at David Osborne's. Mrs. Dan. Perry, Morven, has been visiting friends in Kennebec. Miss Osborne is on a visit to her sister in Havelock. Dr. Spankie is here inspecting the schools. He was at the Arden school yesterday. His report of the school is very favorable. As the attendance is increasing under the successful management of the teacher, Mrs. J. G. Price, an extra room has become necessary, as well as an assistant teacher. A warrant was sworn out last week against William McGarvey for procuring whiskey for a boy. To avoid arrest he has left the neighborhood. On Sunday evening, at the service in the Methodist church, six children were baptised by the Rev. W. B. Tucker, one being the youngest child of William Pringle, reeve. Archdeacon Daykin is expected to preach on Sunday next.

Wilton Events.

WILTON, Aug. 22.—Threshing has commenced. Two steam machines are kept busily engaged in this neighborhood. A son of Shem Hartman, Odessa, met with a painful accident last Friday at George Walker's, Florida. While hunting eggs in the latter's barn he fell from a beam breaking his arm. Dr. Mabee set the limb, and the boy is progressing favorably. Mr. Shanks delivered an interesting sermon in the Presbyterian church, Sunday evening. The friends of Rev. G. Porteous are pleased to learn of his return from the old country, improved in health, although too fatigued to conduct the services last Sunday. He will do so, however, next Sunday. We are pleased to note that, out of the four successful candidates at the primary examination at Sydenham, two, W. Walker and W. Mills, were from Wilton. The latter deserves special credit, having attended high school only six months. Miss F. A. Thompson is visiting Mrs. Collins, Trenton; Miss Ella Sanderson is visiting friends in Picton; Miss Lee, Picton, is the guest of Miss Marguerite Storme; Mr. and Mrs. George Miller, Detroit, at Mrs. J. Miller's; Mrs. Lawrence, Murvale, at Mrs. Burt's; Mrs. Harry Baker, Walkerville, at Hiram Walker's, Florida.

The Testimonials

Published in behalf of Hood's Sarsaparilla are not extravagant, are not "written up," nor are they from it employees. They are facts, and prove that Hood's Sarsaparilla possesses absolute merit and is worthy the full confidence of the people.

Hood's Pills are purely vegetable, perfectly harmless, effective, but do not cause pain or gripe. Be sure to get Hood's.

Lanark Village News.

LANARK, Aug. 23.—David Bain, Gananoque, paid a flying visit to our town. Miss Lizzie Burns, Almonte, was in town the other day. The travelling dairy visited us this week and held two meetings. They tested a large quantity of milk, some going as high as seven per cent. At the close they said there were some very good cows in the neighborhood. An exciting game of lacrosse was played here between Lanark and Almonte teams of which the latter gained the day, the score being 6 to 1. The exhibition takes place Sept. 15th and 16th. The directors have erected a new cattle shed and other buildings are in the course of erection. There is an increased membership over last year and everything promises to be the best exhibition on record here.

Having too large a stock of cotton hosiery on hand we will offer them at cost price for the remainder of the season at R. McFaul's.

Misses and children's shoes in great variety at Armstrong's new store.

COMMERCIAL MATTERS.

THE KINGSTON MARKETS.

The Quotations as Gathered About the Square and Elsewhere.

KINGSTON, Aug. 23.—The markets have been fairly well attended during the past week. Prices for all classes of vegetables have been fair, the only very steep advance being in potatoes, which have risen 10 cents. Butter is worth from 18c to 20c per lb.; packed, 16c to 20c per lb. Eggs are held at 11c to 12c per dozen; cheese, 12½c.

Family flour, $2 35 per cwt; bakers' flour, $2.30 to $2 60; cornmeal, $1.50 to $1.80 per cwt; bran, $13 per ton; chops, $24 per ton.

Tomatoes are selling at $1 30 per bush.; turnips and parsnips, 5c per bunch; apples, 20c per peck; sweet corn 10c per doz; squash, 10c to 20c each. Old potatoes, $1 per bag; new, $1.50 to $1 75; cabbage, 25c to 50c per dozen; cucumbers, 10c to 20c per dozen; vegetable marrows, 5c to 15c each; cauliflowers, 5c to 25c each; green onions, lettuce, radishes, 30c per dozen; beets and carrots, 40c per dozen; celery, 40c per dozen; huckleberries, bring $1 per pail; blackberries, 13c per box or 90c per pail; peaches, $2.50 per basket.

Mutton, 7c to 8c per lb.; carcase, 6c to 7c per lb; spring lamb, 30c to $1.25 per quarter, or 10c to 12½c per lb; beef, carcase, 5c, 6½c and from 7c to 12½c in the shops; veal, 4c to 6c. Cattle, live weight, 2½c to 4½c per lb.; live lambs, $2.50 to $3 apiece.

Lambskins, are being purchased at 45c to 55c; and sheep pelts the same figures; veals, 40c to 80c; hides, 2c, 3c and 4½c; deacons, 25c to 35c; tallow, 3c per lb.

Salmon, 25c per lb; cod, 10c per lb.; eels, 8c per lb.; pike, 6c per lb; pickerel, 8c per lb.; whitefish and trout, 10c per lb.; haddock, 7c to 8c per lb.; bass, 8c per lb.

A local merchant describes the grain market in this way: "The market has taken another drop in wheat owing to large receipts going forward to Europe, and spring wheat is now quoted at 6s. 2d. and 6s. 3d. less than it has been in a great many years. The weather has been warm and favorable to harvesting, all tending to reduce prices, though we would not be surprised when our farmers get into threshing if they find a very different yield to last year's crop. Fall wheat is undoubtedly good and the yield will be large, but the spring crop will not be over one-half a crop. Taken altogether it will be a fair average crop. Peas are not turning out well; there is lots of straw, but very small pods; oats look well and promise a large crop. The acreage is very large and they have been harvested in excellent condition. We quote last week's prices with no material change except in wheat, which is to-day, for new fall, 70c; spring, 72c; oats are dull, the new crop having the effect to weaken the prices of the old, and we quote old oats not worth more than 30c; new oats probably 25c to 27c; peas, 65c in good demand. There is no market for buckwheat at present and we cannot quote prices. Dealers are holding off on rye and talking low prices. The market is hardly open and not likely to open over 1c per lb."

Markets Elsewhere.

Toronto quotations are: Beans, per bushel, out of store, $1.25 to $1 30. Dressed meats, per lb., beef, fores, 3c to 4½c, hinds, 7c to 9c; veal, 7c to 8½c; mutton, 6c to 7c; lamb, 9½c to 10½c. Dried apples, jobbing at 4½c to 4½c; evaporated, 7c to 7½c. Eggs, fresh, 11c to 11½c; No 2, 9c to 9½c. Hay, timothy, on track, new, $9 to $9 50; old, $11 50 to $12. Straw, $6.50 to $7 in car lots. Hides, cured, 5c; green, No. 1 cows, 4½c; No. 1 steers, 5½c. Skins, lambskins and pelts, 50c; calf, 5c to 7c. Hops, Canadian, 1891 crop, 19c to 20c; yearlings, 15c to 16c. Honey, extracted, 8c to 10c; combs, 11c to 12c; onions, Malta, per hamper, $3 out of store. Potatoes, per bbl., $1 25 to $1.50. Poultry, chickens, per pair, 50c to 55c; geese, per lb., 8c to 10c; ducks, per pair, 50c to 55c; turkeys, 11c to 13c per lb.

There were heavy receipts of export cattle for the week at Montreal, but no change of holders. Butchers' steck trade was dull, the supply in excess of the demand. The following are values: Cattle, export, 4½c to 4½c; cattle, butchers' good, 3½c to 4c; cattle, buschers' mediums, 3c to 3½c; cattle, butchers' culls, 2c to 2½c; sheep, 3c to 3½c; hogs, 5½c; calves, $3 to $6.

News About Town.

It is the current report about town that Kemp's Balsam for the throat and lungs is making some remarkable cures with people who are troubled with coughs, sore throat, asthma, bronchitis and consumption. Any druggist will give you a trial bottle free of cost. It is guaranteed to relieve and cure. The large bottles are 50c and $1.

Dulce at Wade's drug store.

Mr. J. G. Anderson

Of Scottdale, Pa., a veteran of the 11th Penn Vols., says, as a result of war service he

Suffered Every Minute

From liver and kidney troubles, catarrh in the head, rheumatism and distress in his stomach. Everything he ate **seemed like lead.** Sleep was restless, and in the morning he seemed more tired than when he went to bed. He says:

Hood's Sarsaparilla

and Hood's Pills did me more good than everything else put together. All my disagreeable symptoms have gone." Be sure to get Hood's.

HOOD'S PILLS are the best after-dinner Pills. They assist digestion and cure headache.

HOLLOWAY'S PILLS AND OINTMENT

THE PILLS Are at all seasons of the year a reliable remedy for correcting any Disorder of the Digestive organs, and for restoring a healthy action to the STOMACH and BOWELS. They act on the Liver and Kidneys with marvellous effect, and by giving strength, and tone to these important organs create a circulation of pure and healthy blood. Females of all ages find these Pills valuable.

THE OINTMENT Heals all recent Wounds, Cuts, Bruises and Sprains and is a certain cure for BAD LEGS, SORES, ULCERS and OLD WOUNDS. It has no equal for the cure of Bronchitis, Sore Throat, Coughs, Colds, Rheumatism, Gout, Glandular Swellings and all Skin Diseases.

MANUFACTURED ONLY by Thomas Holloway, 78 New Oxford St., late 533 Oxford St., London.

CAUTION! CURE SERS should look to the Label on the Boxes and Pots. If the address is not 533 OXFORD STREET, LONDON, they are spurious.
