MRS. W. E. GLADSTONE. CHARACTERISTICS OF THE WIFE

is the daughter of a Welsh baronet, Sir

Stephen Glynne of Hawarden; on the death

of her brother the title became extinct, and

all the estates were left to Mrs. Gladstone

for her life, with the remainder to her eld:

est son. It is in this way that Mr. Glad-

stone enjoys his right to the castle now

famous throughout the world as his real-

dence. The Glynne family is ancient and

highly connected; a sister of Mrs. Glad-

Duke of Buckingham, and other aristocratie

families. She is of a peculiar type, one known perhaps only or England, and

certainly entirely unfamiliar to Americans;

a lady according to the English meaning

of the word, that is, a woman of high birth

and position who shows in hearing and

offensive of her station; who has been used

and sometimes brusque in manner; very

neglectful or forgetful of conventionalities,

and has indeed many of the peculiarities

that an American woman of recent fashion

gave great offence by leaving out people

consequence. The London wits used to say

that she put her invitations under the sofs

when she had written them instead of send-

ing them to the servants to deliver. When

General Schenck arrived in London as

American Minister, he was anxious to meet

other nights he must be in the House of

detracted not one iota from the respect

the son of a manufacturer, although a young

man of extraordinary promise, he was hard-

ly the social equal of the baronet's daugh-

ancient origin. Her fortune and her fam-

the grandest people in England had driven

down and were awaiting the arrival of the royal guest, who came at last in the com-

and followed by the Court and the mem-

bers of the Government. Mr. Gladstone,

then Premier, and Sir Henry Rawlinson,

dress; and as they advanced the great

erowd opened and formed a lane under the

trees. It was nearly a quarter of a mile to

the place where a collation had been arrang-

ed, and there, as is usual when royalty is

present, an apartment was reserved for the

shah and the Prince and the most important

lignitaries, among them the Prime Minister

and Sir Henry Rawlinson. But in the

crowd outside, looking at their husbands as

they passed, stood Mrs. Gladstone and Lady

Rawlinson, entirely without attendance.

They were not invited to the special colla-

purely official, and official rank in England

does not extend to wives.

he statesman.

THE HOUSEHOLD

CHAMPION BUTTER COW

SEVEN POUNDS IN A YEAR.

ligual's Lily Flagg is the Jersey Quesa,

that Established this Record - Betain of

Her Work -Her Bill of Fare for the Year

In the light of every day experiences on

the farm and in the dairy it is marvellous

that a little core weighing only 950 pounds

should produce 1,047 pounds three-fourths

sunces of botter in one year, but here

whose cows scarcely produce two hundred

single cow can produce the yield of five such

cows. But when we know how these big

records have been reached, step by step,

first one cow, and then another raising the

figures, we are convinced of the possibilities

of such performances with careful breading

The contest among the Jerseys has hap

pily been for a champion prize cup that is passed along from one record breaker to another. The cup was introduced by E. F. Appleton at the time he took the record of

136 pounds fourteen and three-fourths

ounces from Landseer's Fancy with Euroti-

sama's 945 pounds nine ounces. Then it

was won by Bisson's Bella with 1,028

pounds fifteen and five-eighths ounces and

new Signal's Lily Flagg has the cup, with

the record of 1,047 pounds three-fourths

ounces. The popularity of those contests

is shown in the following invitation : "The

citizens of Huntsville, Alabama, request the

pleasure of your presence at a reception to be given at the Monte Sano Hotel, on Wed-

neaday, June 20th, at half-past 8 o'clock in honor of Gen. S. H. Moore; W. E. Matthews,

Esq.; Captain Milton Humes and Mr. L. C. Goodell. These were the gentlemen who

owned the cow and conducted the test. At

this reception and feast the Champion Cup

ville paid honors to the little cow that won

which time her highest daily yield of milk

our pounds six ounces of butter. In July

eleven onnces milk, containing four pounds

two ounces butter. In August, September

and October she held about her own. I

November she fell off with her highest yield

dropped. At that time she was giving

twelve pounds eleven ounces milk and mak-

ing twelve ounces of butter a day. On the 5th of January the record again began with

twenty-eight pounds nine ounces milk and two pounds twelve ounces daily. This was

milk was forty one pounds ten ounces, con

milk and three pounds fifteen ounces of

butter. In May, the last month of the test,

her highest day's work in milk was thirty-

four pounds six ounces, and in butter four

sounds ten and three-fourths ounces. In

Up to May 24th the test had been what

fairy authorities, and, either under better

The following is the feeding of Signal's

Lily Flagg for the full year. She began

with a ration of two gallons corn meal,

osts, three quarts oil meal and two gallons

silage, given daily in two feeds. Gradually

two gallons wheat bran, one and one half

gallons oil meal and about fifty pounds of

clover hay. As her' time for calving ap-

proached the feed was reduced, and on

bran. After calving the grain was gradu-

ally restored to the full ration and kept up

until the last week when, under the advice

of Mr. Fuller, two quarts of oil meal were

added. During the whole year the

cow received precisely the same treat-

ment as that given the general herd. She

ran on a rather poor pasture and took the

Signal's Lily Flagg was bred in Ken-

incky and while strictly thoroughbred and

registered cow she does not belong to any

of the fashionable families as the first part

of her name would imply, as she is only

one-twelfth Signal blood. The credit of her

greatly encourage testing the best cows to

find the wonders. She was eight years old

at the time of this test and weighed about

950 pounds. While perhaps not a model

cow in appearance, yet she is of good form

and, what is much better, of strong consti-

tation and she looks well enough to go

through another year's trial. She has two

tested daughters, one of fourteen pounds a

week and another of twenty pounds, thus

showing that she possesses that greatest of

all thoroughbred gifts, the power of trans-

mitting her good qualities to her offspring, and as she has dropped eight calves (one

greatly benefited by the good work of
