The next event on the programme was the battalion match open to five men of any battalion in the 3rd and 4th military districts. There were three entries, the 14th, "A" battery and R.M C. The latter team was looked upon as the sure winners by some, on account of the good shooting the members made during the other matches. The result was, however, the same as for

the last three years, the 14th batt team

The match was fired at ranges of 500 and 600 yda, five shots at each. The total score of the winners of first prine was 200 points, seven over the R.M.C., the next team in order of merit. The individual scores of the winning seams were : 14TH BATTALION

SCHOOL MANAGEMENT REPORT. Mr. Donnelly presented the report of the school management committee, recommending that the proposition to change the system of penmanship, taught from the Spencerian to the vertical, be left with the inyesterday with the battalion match and the spector and director of writing to deal counting out of extra series tickets, over | with; that Miss Kelly be temporarily 200 of them having been fired, at the 200 and sugaged to teach in Frontenac school, services to begin on Nov. 1st and to be discontinued by the inspector when the attendance warrants him in doing so. The committee beg leave to further report that the at present. kindergarten teachers have been requested to consult with the committee on Monday

evening next concerning matters pertaining to the welfare of their classes. Mr. Donnelly explained the reason the change in the system of writing was soggested. Mr. Newlands reported that the vertical system of writing in use in Great Britain, was better for business purposes He has amalgamated the Spencerian and vertical system and can teach the writing with a great deal of success. Mr. Arniel asked if the change in the

writing would entail any extra expense. Mr. Donnelly-"No." Mr. Meek said the new system of writing has got to come, and the board ought to be n advance of the times.

The report was adopted. Mr. Shaw presented the report of the ommittee on school property, recommendng that the furniture for the new school be stained; that a water tap and basin be placed in the principal's room, that iron reating be put on root ; that orders for work in the different schools, except what may be far in advance of the average percentage for authorized and paid for by the school comnittees out of their annual allowance, come from the school property committee, and that B. Mr. Horn said he thought taps should be placed in the rooms and that is the reason he spoke about the report. He wanted Dr. Fee to understand he was not a kicker. Dr. Fee-"I did not mention your name."

Mr. Horn-"You spoke of members discussing the report.' Mr. Arniel said he was against placing tape in the rooms. In answer to Capt. Donnelly Mr. Shaw said the creating would be iron and would cost \$145. The creating would relieve the very low roof.

The report was carried. THE OTHER REPORTS. The inspector presented his report for the month of September.
