We understood that the Frontense armers' institute was created as an educational and improving agency, through which the agriculturist would imbibe knowledge and breadth of view. The knowledge which inspired the above treatise upon discrimination in advertising rates shows the practial, intrinsic value of the course of lectures and discussions, while the breadth of view which leads a hundred able-bodied farmers to beat down one person to his fair charges is admirable. As the WHIO makes no reduction upon the tariff to be found on its second page to undeserving bargain hunters, and has a contempt for public associations of that class, it has returned the advertisement to the institute's portfolio. It is neither taking nor paying 67 cents on the

Village Of Odessa.

ODESSA, Oct 26. - A pleasant social event

took place on Wednesday of last week at the residence of Nicholas D Hicks Parker S. Timmerman, postmaster of this village, was united in marriage to Mrs. Asseistine, widow of the late R. Asseistine. The ceremony was performed, in the presence of the more immediate friends of Mrs. Assetstine, by Rev. W. Timbert. An interesting place is the roller skating rink, recently started by our enterprising young townsman, George D. Hicks. The jubilee hall has been secured for the purpose and three nights of the week the floor is packed with young people enjoying the pleasure to be found on skates, Allan Fracer, an aged and respected farmer, of this township, had the mis fortune to fall from the hay mow, sustaining a fracture of the leg. The case is more serious on account of his advanced age, he having reached the seventy third year. The accident took place on Tuesday. The much talked of improvements to connection with the Methodist church are well under way The work is being done by John Elson, of this village, and adds testimony to his ability as a mechanic. The Grundyr, who wanted to leave the village for a contractor, are amply rebuked by the excellence of the workmanship displayed. Mr. Elson will

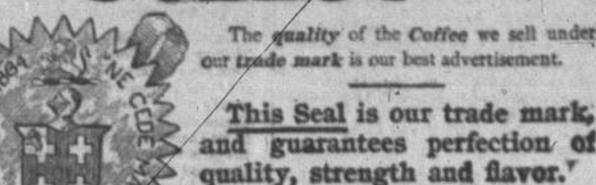

make improvements on the Anglican church after ficiening this contract. It seems to be the fate of towns or vilages to be possessed of citizens who take delight in preventing the prosperity of the place. Odessa is no exception to the rule. The action of the department of militia in excluding the Odessa chair company from onger using the drill shed for a store-house for foished chairs, reveals that we have neighbors, who for political spite, will aim a blow at an industry that employs more lacombined. The drill shed is of no earthly use to the government, being unused and unccoupled, with the exception of a few feeb accoutrements of the Ernesttown company of militia. The clique, which controls one side of politics in this township have used putting the chair company to considerable inconvenience, placing a limitation upon the quantity manufactured and a consequent tose of labor and wages to the many dependont upon it for their daily bread. This may be satisfying to the clique, but is viewed in a different light by citizens in general. Two of the clique are in the habit of asking for the suffrages of the people, and when they again present themselves for election they will be reminded of their narrow action.

Consumptives, Cheer Up ! exercise a litrle common sense, and spend a paitry sum. You may be very feeble now, sitting bolstered up in the big arm chair, but you may now throw up your hat or bonner, and shout for joy? Miller's Emul-sion of Cod Liver Oil will save you if you take it according to directions. What you need is good new blood and rebuilt tissues. If you take Miller's Emulsion you will gain from five to ten pounds of flesh with each bottle. There is no use wasting words. A hint should be enough to a consumptive of the fact that Miller's preparation of Cod \$1, at Wade's drug store.

Marriage a Failure. Tononto, Oct. 27.-A motion will be made to the master in chambers yesterday in the alimony suit of Martha E. Dit Blondin against her husband, Cleophas S. Dit Blondin, for particulars of the charges made by the plaintiff in her statement of claim. The action is for alimony, the defendant being a well-to-do farmer in the Township of Balfour, Algoma. The parties were married in February, 1888, but soon after their marriage the defendant, so the plaintiff says, began to evince a violent and ungovernable temper, and during the period of their reaiding together on several occasions assaulted ner. In March last affairs reached a crisis and shortly afterwards she was orced to leave him.
