HIGH-PRICED TERVICE.

An order in council has been passed giving Dr. Bergin, M.P. for Cornwall, \$1,600 in criticocat of an old claim for services as surgeon-general during the north-west rebellion. This makes \$5,000 altogether eccured by Mr. Bergin for his service as surgeon-general during the north-west rebellion, while he at the same time draw an in demnity as member of parliament. Some one had to act as head of the medical department, but the position was not an overcus one, and did not call for such a sacrifice of time and expenditure of labour as this jan church is doing this. The settleenormous sum would indicate. The salary of the surgeon-general has been diffioult to determine. Several votes have been made on account it, the addition each time being attributed to new light which had been received as to what a reasonable allowance should be as compared with the pay in the same position, under similar circumstances, in England. It is to be hoped that the value of the doctor's services has been finally appraised, and that the account has been of good report. closed up never to be reopened. The payment of \$5,000 for two months' eervice, which he was able to perform without any interference with Houston. his duties as a member of parliament, for which he received his indemnity in full, is simply scandalous and cannot be paliated by any applogy. And it stands out in strong condemnation of the policy of the government in regard to the north-west rebellion claims, some of which have been dealt with in a spirit of contemptible meanness. Parlisment has had to discuss some of its shortcomings, and it may have to discuse them again, and the friendly generosity which Dr. themselves as great labor promotors, etc.,

The history of the farmers' alliance is interesting reading. It marks the intelligent action and success of a party governed by high morals, principles, intelligence and independence.
