ST. JACOBS OIL

TRADE MARK

THE GREAT REMEDY FOR PAIN

WHAT IT WILL DO.

Relief.—Instantaneous, in any person, one or two applications of St. Jacobs Oil relieve pains and aches when even permanently. This is the record established in ten years.

Cures.—The conquests of a single bottle have cured countless thousands of the worst kinds of backaches. Tried according to directions, there is no cure to every bottle.

The Testimony.—Thousands of testimonials substantiate the above statements in the cure of all kinds of physical ailments.

The Cost.—A patient knows instinctively the cost of his ailment, whatever may be the origin of his ailment, its expression or development produces aches and pains.

Pains and Aches may be classified briefly, as those of the bone, the joints or muscles and the nerves. They may be satisfied also as to their cause.

Treatment.—Both the part affected thoroughly rubbing, assists. Protect the body from draft and cold.

THE CHARLES A. VOGELER CO., Baltimore, Md. Canada, Ont.

DR. WILKINS' Red Blood Pills.

NOTHING LIKE THEM ON EARTH.

They produce a natural fresh pink color on the cheeks and lips. The most remarkable and the most perfect of all health giving remedies. The greatest of all flesh formers. They purify, enrich and strengthen the blood. The only safe, sure and certain remedy for all those distressing complaints so peculiar to the female sex. They act promptly on the relaxed mucous membrane of the digestive canal, and in this way restore its functions. Pale people using these pills rapidly require a beautiful, clear and healthful appearance.

Price 50c per box, or six boxes for $2.50.

For sale by all druggists, or sent by mail on receipt of price, by addressing

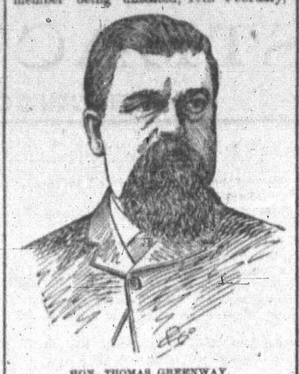
FOR SALE AT WADE'S DRUG STORE

HON. THOS. GREENWAY.

MINISTER OF AGRICULTURE AND IMMIGRATION FOR MANITOBA.

A Native of England, He Began His Public Career in Ontario, and Sat in the Commons as Member for South Huron—His Career in Manitoba.

The subject of the accompanying illustration, says the Farmer's Advocate, Hon. Thomas Greenway, Premier and Minister of Agriculture and Immigration for the Province of Manitoba, is the eldest son of the late Thos. Greenway, Esq., formerly of Cornwall, England, and latterly of Stephen Township, County of Huron, Ontario. He was born in Cornwall, Eng., 25th of March, 1838, and came to Canada in 1844, where he was educated. He was first married on January 25, 1860, to Miss Annie Hicks, who died in May, 1875. He was married a second time in 1877, to Miss Emma Easery, and settled in Manitoba in 1878. Mr. Greenway was Reeve of the Township of Stephen, Ont., for ten years. He was an unsuccessful candidate in South Huron for the House of Commons, at the general election in 1872, and again at the general election of 1874, but was returned to the House of Commons for that constituency by acclamation, on the sitting member being unseated, 11th February,



HON. THOMAS GREENWAY.

1875, and held the seat for the rest of the term. After arriving in Manitoba in 1878, he devoted considerable attention to the locating of settlers from Western Ontario in Southern Manitoba, and to this is largely due the rapid development of that section of the province. He was first returned to the Manitoba Legislature for the electoral division of Mountain at the general Provincial Election of 1879 by acclamation; was re-elected at the general election in 1883, '86, '88, and again at the recent general election in July, '92. On the resignation of the Harrison administration, January 19, '88, he formed a government, taking the offices of President of the Council and Minister of Agriculture and Immigration. On the 23rd of July last the Government of which he is the head was again returned to power. He is a man of indomitable energy, great force of character and progressive ideas, to which the many practical measures on behalf of agriculture and immigration bear testimony. He has instituted a vigorous immigration policy, which has done much to populate the Province with a good class of settlers. He has also aided very greatly in bringing about, through the instrumentality of agricultural societies, farmers' institutes and agricultural exhibitions, a general improvement in live stock husbandry and general farming. Being personally engaged in farming on a large scale near Crystal City, he evinces a keen interest in all that concerns the welfare of the farmer. The department over which he presides has an excellent system of collecting reliable crop statistics and live stock reports from all parts of the Province, which are used in the form of bulletins. The Province has in the present premier one who, from his practical experience and general knowledge of public affairs, is well calculated to do honor to the high and responsible position given him by the people of Manitoba.

Top-Working Trees.

In a paper on Increased Hardiness by Top-Working, read by J. C. Plumb, of Wisconsin, at the recent meeting of the American Horticultural Society, he said: Hardiness stands first, before quality or quantity, especially for orchardists in the Northwest. Top-working on stocks for increased hardiness is not new among fruit growers, but results have been varied.

Stocks must be used that will make a perfect union. The hardy crabs are excellent stocks. Whitney No. 20, and Virginia are both good. Have tried Pewaukee top-worked on Transcendant crab with good results on good strong prairie soil. I do not advocate top-working for hardiness alone, but for productiveness and increase in size of fruit. I believe by this means we may have good healthy, hardy trees; trees that will endure our most severe winters, and we can raise all of our best varieties of apples in this way. I have tried trees root grafted or budded and they will not endure our cold winters. We must have the hardy stocks and then top-work with our best varieties.

Great Yield of Potatoes.

Some wonderful results with regard to potato culture have been obtained by a gentleman farmer in France. This farmer, who is also a distinguished chemist, has been, according to a recent consular report from Nantes, for some time past conducting experiments with potatoes, with the remarkable result that he has succeeded in securing the enormous return of forty-two tons per acre. The plan he adopts is to carefully select the seed and to use only the best and soundest tubers. The ground is dug or plowed to a great depth and is well manured. Before planting the seed potatoes they are soaked for about twenty-hours in a mixture composed of saltpetre and sulphate of ammonia, six pounds of each salt to twenty-five gallons of water. After this soaking the tubers are allowed to drain, and they then stand for twenty-four hours longer, in order that the germs may have time to swell.—Chambers' Journal.

A School for Judges.

A school for preparing judges for the fairs would be productive of benefit. It is often difficult for fair managers to procure competent judges in the different departments, although they are willing to pay liberally for the services of experts.

A Sinful Waste.

The burning off of leaves and chips on clearings has instilled among our people the idea that the burning off all surface litter is good and proper practice, whereas it is actually a sinful waste, rapidly hastening exhaustion of soil.—N. Y. Tribune.

A Hedge of Heliotrope.

A gracious and generous lady in Ventura, Cal., has caused to be planted about her grounds a beautiful hedge of heliotrope, 200 feet long. The public walk is three feet below the level of her garden, and on the banks above wires support the plants, which grow to a height of six feet, their drooping branches falling back to the walk, and covered with fragrant bloom. The little children passing fill their hands with flowers, ladies break the fragrant sprays for their belts, and gentlemen pick them for boutonnieres, for the owner, Mrs. Shepherd, announces that the heliotrope belongs to the town and its people.

Blindness on the Decrease.

Though we are told that blindness is on the decrease, it is sad to reflect that 300,000 people in Europe suffer from this dreadful affliction. Spain appears to be the greatest sufferer in this respect. An oculist tells us that scarcely one in twenty of watchmakers suffer from weak eyes.—Chambers' Journal.

Salaries of Royalty.

The salary of the Prince of Wales is $300,000 per year; Duke of Connaught, $125,000; Duke of Edinburgh, $125,000, and the Duke of Cambridge, the Queen's cousin, $62,000. The royal family costs British taxpayers $40,000 a week.

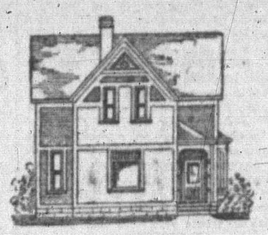
A SEVEN-ROOM COTTAGE.

The Plans of a Neat, Convenient and Roomy Home.

This is a very desirable, neat, convenient and roomy, yet cheap cottage. The plan has four good rooms down-stairs and three above, besides the accessories, such as pantry, entrees and closets and a large attic over the kitchen, which could be finished and made into a good room if necessary. It has been erected and fully finished complete at Carthage, Ill., for a total cost of $1,500, including the foundation. Constructionally the house is of the best, the materials being of first-class quality.

The frame is of pine, sheathed with shiplap overlaid with paper. The outside finish is of pine with cypress siding on the sides and shingles of the same material on the gables.

Referring to the floor plans, the front



FRONT ELEVATION.

entrance is found to be from a porch through the vestibule into the parlor or sitting-room. These rooms are each of good size. To the left of the sitting-room is a bedroom 11 x 13½ feet. The

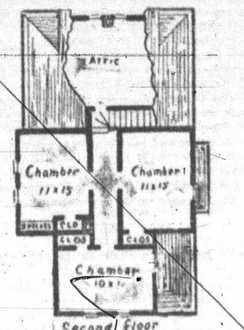
RIGHT ELEVATIPN.

sitting-room and parlor are connected by wide sliding doors, enabling them to be thrown together on occasion. We pass from the sitting-room into the kitchen, which is quite large and intended to be used also as a dining-room. A bath-room and well-fitted pantry open off this room, and stairs to the cellar go down from here under the main flight, which rises from an entry between the kitchen and sitting-room and rear porch.

On the second floor a hall furnishes entrance to three well-lighted and ventilated chambers of ample size.

The timbers are sound and well seasoned; sills 6 x 3; first floor joist 2 x 8, for entries and porches 2 x 6; second floor joist 2 x 10 for main house, and 2 x 6 for attic over kitchen; rafters, studding and collar

beams 2 x 4. All to be spaced 16 inches from centres. The floor joists well bridged. The height of stories are for cellar, 6 feet 6 inches; first story, 9 feet 6 inches; sec-



ond story, 8 feet 6 inches, in the clear. The floors throughout are of selected fence flooring, well seasoned and dry when laid. The doors are all stock made. Outside and sliding doors 1¾ inches thick, all other interior doors 1⅜ inches thick, all principal doors having transoms over them. All windows, except sash, to be hung with weights. The plastering is of three coat work of the best materials and workmanship. The interior finish for all of first floor is of S. Y. pine, smooth wrought and finished natural. Drawers are placed under the projecting window in the sitting-room and the recessed window in the bedroom. A sink and drain table are placed in the kitchen. The finish of the second floor and closets is of good ordinary white pine and painted. The hardware is of best quality and workmanship throughout. The sliding doors are hung with Prescott hangers. The painting outside is three coat work, done in best manner, of best materials, hand mixed, of colors selected to best harmonize with the surroundings. E. A. PAYNE.

How Women Manage Finances.

The Ladies' Club in Sydney is the only club in the city which is not in debt. Their rooms are in a central and convenient locality, where tea, coffee, or cocoa are served at any hour, where dainty lunches are enjoyed by the members and their friends, and where private reception rooms are furnished to ladies who wish to entertain their friends. The club numbers nearly 100 members.

The First at Brussels.

Marguerite Gombert recently passed the examination for the doctor's degree in philosophy and letters at Brussels with marked success. It is the first time that a woman has attained such distinction in Belgium, the first time the faculty at Brussels has been called upon to bestow this degree upon a woman candidate.

The Bifurcated Nether Garment.

By the patient archæological research carried on by one woman it has been proved, for the gratification of all women, that the bifurcated nether garment supposed to be specially distinctive of the masculine toilet rightly belongs to the feminine dress. The women of Judah, it seems, were the first wearers of the garment in bifurcated form, and man, perceiving the convenience and comfort of this article of dress, evolved by the superior intelligence of woman, appropriated the same for his own use, and doomed his womankind to encumber their limbs with flowing robes which render it impossible for them to cope with man in the useful avocations.

A Volcano as an Incubator.

The officers and men of the United States cutter Rush related marvellous tales of wondrous discoveries made by them during their 1890 cruise. The feat of which they seem proudest was the discovery of a natural incubator on the sides of the volcano Bogoslov, where millions of hawks, gulls, and other sea birds deposit their eggs and leave them to be hatched by volcanic heat. Who says that birds are devoid of intelligence?—Vallejo Chronicle.

Tickings in plain and fancy stripes, splendid value, only 13c. per yard, cheaper as 10s, at R. McFaul's.

MEDICAL.

CARTER'S LITTLE LIVER PILLS.

CURE

Sick Headache and relieve all the troubles incident to a bilious state of the system, such as Dizziness, Nausea, Drowsiness, Distress after eating, Pain in the Side, &c. While their most remarkable success has been shown in curing

Fraser's Rheumatic Remedy, Wade's drug Store.

The federal election in Soulanges has been fixed for Dec. 13th.

In Brockville $110,000 has been expended in new buildings this year.

Misses and children's shoes in great variety at Armstrong's new store.

The net earnings of the Canadian Pacific railway last month were over a million.

The Portuguese treasury deficit is increasing, and there is talk of an issue of paper money.

Blankets and comforters at the very lowest prices and the very best values at R. McFaul's.

Ten persons of Danville, Va., bitten by a mad dog, were inoculated at the Pasteur institute, New York.

The statement that Sir William Harcourt, owing to the failure of his eyesight and general debility, was about to resign, is emphatically denied.

Wade's mandrake liver pills, sure cure for biliousness and constipation, Wade's drug store, Kingston.

George Reid, Madoc, has been appointed deputy-warden by the Ontario game and fish commissioners, under the act for the protection of fish and game.

Hanson's Magic Corn Salve cures corns and bunions with three applications. 15c. per box at Wade's drug store, Kingston.

Ald. Mikel, barrister, has announced himself as a candidate for the mayoralty of Belleville. It is likely that he will be opposed by Mayor Bogart.

A sponge is of animal origin, not vegetable, as many suppose. This mistake is common. You should see the desirable sorts. At prices as rock bottom as the spot on which they grew. Wilson's Pharmacy.

It is reported that the gentlemen controlling most of the colored cotton mills of the dominion have about come to an agreement with Parks & Co., St. John, N.B., thus bringing the whole under one control.

Edward Woods, Belleville, who attempted to commit suicide by taking a dose of Paris green, was removed to the lunatic asylum. It was his second attempt to take his life, the first being made with carbolic acid.

There are more cases of sickness and death from diseased kidneys than from all other diseases combined. It is your own fault if you allow your kidneys to remain in an unhealthy condition when the cure is at hand. Dodd's Kidney Pills are guaranteed to cure the worst cases. It costs but little to give them a trial. They are for sale by all druggists and dealers or by mail on receipt of 50c. or 6 boxes for $2 50. Write for book called Kidney Talk.

A private letter received from Dr. Clark states that the case of Fred. Reddick, barrister, Belleville, lately confined in the lunatic asylum, is hopeless. It has developed into the softening of the brain, and the prospects were that he would not live longer than a year.

A Cure for Constipation and Headache.

Dr. Silas Lane, while in the Rocky Mountains, discovered a root that when combined with other herbs, makes an easy and certain cure for constipation. It is in the form of dry roots and leaves, and is known as Lane's Family Medicine. It will cure sick headache. For the blood, liver and kidneys, and for clearing up the complexion it does wonders. Druggist sell it at 50c a package—enough for five weeks.

Hartington Happenings.

HARTINGTON, Nov. 29.—The cheese meeting, last evening, was fairly well attended considering the stormy night. Those who attended went home well satisfied with the past season's work. There is to be another meeting soon. The youngsters are kept busy evenings with skating and practicing for the Christmas tree entertainment, which takes place on the 23rd. A young son of Charles Goodberry's. Mrs. Sproule and sister have moved to Josiah Taylor's house, and Robert McCullough has moved into the house which they vacated. Charles Bell met with a serious accident last Thursday while on his way to Kingston market. One of the axles of his waggon gave way throwing him and his load violently to the frozen ground. He is slowly recovering from the effects of his fall and will probably be all right in a short time. Our sailor boy, A. Goodberry, is in our midst again after spending the summer on Lake Michigan. Chester Fredenburgh came home last week a full fledged cheesemaker. Visitors: Miss Marshall, Camden East; Miss Patterson, Harrowsmith; Miss Babcock, Sharbot Lake; Mr. Saul, Camden East, and Mr. Parrott, Wilton.

Just What You Are Looking For.

A prominent and popular Toronto physician says: "I know of no other cough remedy in the world that can equal the Harvard Bronchial Syrup for the cure of sore throat and hacking cough. It seems to have very valuable and peculiar properties. It soothes every inflamed membrane quickly, loosens phlegm, stops coughing and always allows the afflicted one to rest well at night."

Harvard Bronchial Syrup meets with the approbation of every family owing to its good work. The following testimony from H. J. Beamon, manufacturer of the "Butterfield Spiral Spring Bed," Montreal, is worth reading: "I take pleasure in testifying to the merits of your Harvard Bronchial Syrup. My family have used it for some time for severe colds and bronchitis, and have never found anything to equal it."

Just the remedy you require at this time of year. Try one Twenty-five cent bottle, and you will use no other.

Elgin Events.

ELGIN, Nov. 29.—It seems as though our village has been lost sight of by the press. It is one of the most important villages in the united counties, being an incorporated village with a full staff of officers, and in the way of educational matters, having no less than fourteen school teachers whose homes are in this locality. As we come into the village we see some marked improvements. J. S. Randolph has his new house almost completed. It is quite an ornament to the place. W. Baker has thoroughly renovated the old hotel and built a new barn and stable. Next we notice the large shoe 290 feet in length at the Methodist church. The new butter factory, owned by Messrs. Bargavel and Murphy, is attracting visitors and also a large number of patrons. They are making a very fine quality, under the able management of Mr. Monroe. The quantity made is about ten firkins of fifty pounds each per day, and selling at from twenty-three cents to twenty-five cents a pound. James Dunn met with an accident, he was thrown from his milk waggon causing a severe bruise and abrasion on the hip and a large cut on the head. On invitation of a friend one of our medicos was induced to leave our quiet village for the city.

Holloway's Pills And Ointment.

The most effectual cure for gout and rheumatism. A frequent cause of these complaints is the inflammatory state of the blood, attended with bad digestion, lassitude, and great debility, showing the want of a proper circulation of the fluid, and that impurity of the blood greatly aggravates these disorders. Holloway's Pills are of so purifying a nature that a few doses taken in time are an effectual preventive against gout and rheumatism, but anyone that has an attack of either should use Holloway's Ointment also, the powerful properties of which, combined with the effects of the pills, ensure a certain cure. The ointment should be thoroughly rubbed into the parts affected at least twice a day, after they have been sufficiently fomented with warm water to open the pores to facilitate the introduction of the ointment to the glands.

Presentation to a Teacher.

After the public examination, on Friday, in Westport high school, an address was read by one of the pupils to Miss C. Taggart, who does not propose teaching longer than the present. It was very complimentary. With it was a silver sugar bowl, a faint expression of appreciation of her kind and able services to the pupils.

Something New.

Miss Richardson is sole agent for the new Abdominal Belt for stout ladies can be worn with or without corsets or worn with any style of corsets. Hand-made corsets; also new method of cutting and fitting skirts, sleeves, children's clothes, 10c. Princess street, hair store.
