Panama Canal Workers Hopeful, PANAMA, Dec. 1 .- Canal affairs are by ginning to show signs of returning life here, and the arrival of Ex-Director General Mange was the occasion of numberless conjectures as to the object of his

Information received from most reliable sources states that this gentleman has come to the isthmus on a special commission from M. Monchicourt to report on the exact state of the immovable property and material of the company in view of the possibility of the early resumption of work. The Panama Canal Investigating Committee continued its inquiry to-day. M. Flory, auditor in bankruptcy, was called upon to give testimony as to how the

money of the company had been espended, The committee then heard the evidence of M. Rossignot, M. Flory's predecessor.
M. Rossignot confirmed the statement that Baron Reinach had received 9,000,000 france from the Panama Canal Company, of which amount 4,000,000 france had been described as used for advertising.

M. Hondet, a former secretary of the Panama Canal Company, confirmed the statements of M. Rossignot M. Thierres, manager of a Coulisse firm, testified that Baron de Raisach had paid 3,900,600 france into the firm's account in

the Bank of France, and on that security JOOGS the firm had issued 27 checks. The witness refused to say, however, to whom the hecks were made payable The committee thereupon appointed three I its members to accompany M. Thierres

to the Coulisse firm's office, with instru tions to examine books and make a copy of numbers of the checks in question and amounts for which they were drawn, The committeemen reported that Phirree refused to show the checks. LATEST TRIPLE ALLIANCE

Paris Journal Evidently Imagines Has a Big Scoop. LONDON, Dec. 1 .- The Paris Journal a recently established paper, much giver to sensations and canards and in no way to be confounded with The Petit Journal tried to create a new, sensation to-day by publishing what it asserts to be the text of the latest triple alliance treaty. "We do not state how we procure it,"

says solemnly in its editorial columns. The story is ridiculed here as a pure fabrication. This alleged treaty, says The Journal, is in German and was signed by Emperor William and Francis Joseph in Mey and by King Humbert, June 5, 1891, and is a contrauance of the dreibund for six years. In its articles it provides for co-operation through diplomacy and by "material assistance on land and water" between the several countries in carrying out their several foreign policies. It provides for keeping the several armies on a war footing and for the maintenance of the status quo.

The seventh and vital clause in the aleged treaty is as follows: 7th-(A) In case of conflict between Germany and Russia Austria agrees to mobilize her armies and declare war against Russia, acting in harmony with the staff of the German army, Italy meanwhile mobilizin her army on the French frontier. In case France should side with Russia Italy would declare war against France, her army entering that country, her base of operations

being Savoy. (B) In case of conflict between Germany and France, Italy will act as above indicated. In such event Austria would mobilise her army on the Russian frontier and declare war against Russia in case the latter should interfere in the conflict and side with France. In such case Austria would act as indicated in paragraph A.

(C) In case of conflict between Austria and Russia, Germany is to mobilize her army and declare war against Russia, sending two army corps into Austria. Italy would mobilize her army on the French frontier and act as indicated in paragraph and in case France should assist Russia. A Chrese Factory Proposed.

CATARAGUI, Nov. 30 -- Ton farmers this section are beginning to find out that selling bay and grain on Kingston market and elsewhere and not putting back an equivalent amount of manure on the soil is exhausting their land, consequently they are agitating for a cheese factory. There are few places where one would pay better or is more badly needed, and the only wonder is that there has not been one started long ago. The probabilities are that we will have one in full blace next year. Mr Spen cer has opened a shoemaker shop here. It will fill a long full want. John Ward expects to finish the season's threshing in about two weeks more. He has owned and operated a threahing machine for over twenty years and says he never handled so much straw for so little grain as this year.
