The jury was out six hours and to the verdict of \$50 to Mrs. Blokuelt. In anhas decided that the gave fee is unreason? able The Thousand Island park trustees may abolish the gate fee.

## "CASTLES IN THE AIR."

in Producing Is.

The Piot and the Play-There Was Trouble The largest house Harry Lindley has yet had greeted "Castles in the Air" last night. There were fow vacant seats, the fact of the play being the work of a young Kingstonian Xmas. Come early. In mater tarn out who do not attend the opera house less to may be brough down the house. very frequently. While the performance comprised many stirring scenes and popular dialogues, still there was compained mis-sing. The play seemed to be complicated and the artists at times found it deficult to extricate themrelves from the perpexities: which would arise. Probably this was due to the fact that the play, as it left the autnor's nands, was too long and would have occupied many hours to produce it.

The play, a piratical production, was set in the eighteenth century on the Spanish oast. The curtain rose with the pirates in their leic after a big day's haul. An English ship had been robted and a young lady, Louise, taken prisoner. Lewis Waldron, a lisatenant in the Eoglish navy and a lover of Louise, left England and juned a crew of supposed smugglers, who turned out to be pirates. He aimed to rescue Louise but she escaped and brought aid to Waldron through the English marines. The pirates were captured as, in their deunkenness, they are about to hang Waldron, whom they accuse of mutiny. Waldron was taken to England and tried for piracy but was oleared on the testimony of Tom Jones, pirate, appearing in court as a sailor. Lewis Waldron married Louise Somerset Lieux. Courtland, of the English navy, also falls in love and, after the death of Licana's father, shot in court when tempting to escape, marries the maid Lidhna was the daughter of one of the chief pirates, Don Parez. Sandro, a jealous pirsts, escaped and turps up to wreak his revenge on Lewis Waldron, but was caught by pirate Jones as he attempted to kill Liuana, who refused his love in the early

part of his career. Sandro was passed over to the authorities. Terry, Harry Lindley, once with the pirates, after a long love siege married Miss Adelaids Filat, as Louise, and Miss distinguished themselves . Mr. Capman, as Lewis Waldron, Earle P. Lewis, as Livut were good in their roles George Gordon, as Ferandi afterwards judge, ably played his part. The court scene was made judicrous by Harry Lindley. Ed. Mullen tock

was known as Pompey, the nigger, who gave Terry so much trouble. Thomas Ronan played Saudro. A LETTER TO THE CLERGYMAN.

Misstatements Corrected. Mrs. Crysler entertained St. James' their on Saturday evening. There is no truth in the statement that Rev. J. K. Mc-Morine is not likely to return to Kingston. His fall intention has been to resume duty here, and no change of mind has yet occurred. These corrections are called forth by a continued line of misstatements affecting this congregation in another paper.

CHURCH GOER. Dr. Duputs' Remarks. KINGSTON, Doc. 20.- (To the Editor) the brief paragraph in your paper did not fully present my reasons for being glad that Rev C O. Johnston said what he did about the bible and the Sabbath day at the workingmen's meeting. I would ask you to publish the remarks below, because is might be tuferred from the report that I was combatting Mr. Row's opinions, with which I have nothing to do. I said I was glad that Mr. Johnston said what he did, especially because the idea had

been promulgated that men who assembled at the meetings did not regard the bible as a sofficient guide to homanity, and that obristianity was not in the interest of the poor man. This, I said, I most emphatically denied, for the marked attention which the audience assembled paid to Mr. Jounston's discourse and to Principal Grant's remarks, which were similar, regarding the sufficiency of the bible for all, showed that our work logmen, at least, were not opposed to its teachings. Regarding the Sabbath, I endorsed the utterances of both these divines, that it was emphatically the "poor man's day ; it is a wall built up between the grasping and oppressive employer and the needy and oppressed employee, a bulwark against engreachment upon the poor man's rest: I stated, most emphatically I think, that "christiauity is the poor man's religion," and how could it be otherwise when its founder was a corporter, its ablest exponent a tent maker and its earliest prome Brothers T.
