RALLY TO NIGHT. There should be a great rally of the electors at reform hall to-night when the LOTS: OF she liberale, will be ratified. Mr. Guen doubt, be accorded a reception whose warmth will satisfy him that he has reason to expect success. The larceny committed in 1887 -- the stealing of a seat in parliament -cannot be repeated. Mr. Gunn is at home in this contest, and is already at work, and there can be no discounting his popularity. No man has entered did not vote for him before have proffered men. From this class come the young men tion to a popular gentleman and a popular able of places because of their foul and cause, and will be in remarkable contrast with the meeting in the interest of Sir John Macdonald, on Saturday night, which Sr

NOT ALL TORIES.

John did not attend and his absence from

which has disgusted many a conservative.

Judging by their observations, dropped during the evening, and by their actions, there were a good many electors at the meet ing on Saturday night who were not in acgord with the party who held the platform. And the fact that Mr. Smythe attacked one interrupter, called him a sneak and a grit, and intimated that he ought to be put out was an evidence in itself that the expresident of the local conservative association was considerably flustered. And needlessly so. An elector has a right to express his dis sent from any wild or extravagant statemen; and a speaker makes a serious blunder where he undertakes to silence or annihilate an opponent. Political meetings are never made up of the members of one party. It they were what would be the sense of making explanations and seeking conversions. There would be no one dissatisfied or disgrantled, no one to convert. The interrup tion of Mr. Smythe was not offensive and did not call for the language which he employed. The liberal party will remember his insults and deal with them in a proper way and at the proper time. The so called

EXPERIMENTAL STATIONS. A centemporary recounts the action of the farmers' institutes in regard to experimental dairy stations, and says the dominisn government has promised to establish one here, and that its location and opening can be premoted by the return of Mr. Kirk patrick. The remark auggests two thoughts. (1) The government of the dominion, that which now asks for the endorsation of the people, has not promised to establish an ex. perimental station here or anywhere else. The agitation for an experimental institution has been carried on by the dairy men for some time, but until lately they were ernment and expecting Hon. Mr. Dryden to give practical effect to their suggestion. The appeal to the federal government was an after consideration. It has not yet acted on. An experimental station has not been promised to any district, and no member of parliament can hope to bribe Mr. Kirkpatrick is not yet the nomines of his party, and, until he is, has no particular reason to quote circumstauces which may have a tendency to strengthen his candida ture. The farmers have apparently made up their minds to have a candidate of their own choice and calling, and if they cannot be served in this respect by one party they can by another. The issue is a direct one. No man can hope for election in the county who does not advocate reciprocity in its largest sense, and Mr. Kirkpatrick cannot do this without swallowing his past opinions

EDITORIAL NOTES. Mayor Drennan says he is willing to leave his business and work day and night for the return of Sir John A. Macdonald. And well he might. He sees a better prize than a laurel wreath at the end of the race if Sir John wins.

"The short coming of the dominion voters" list is an iniquity for which the conservative party is directly responsible." This is the conclusion of the conservative Journal, o Ottawa And the howl of disapprobation at Macdonaldism goes on, both from papers.

Ald. McLood has a poor memory. He claimed that the public institutions of Kingston were given the city by Sir John A: Macdonald. Please name them! Did Sir John give Kingston the military pollege? Did not he and party attack and assail it until it was found to be a success !

The cost of running a small factory or company is proportionately larger than the unexperienced imagine. Take, for instance, the statement of the defunct City Mutual-Insurance company, of London, Out. Its premium income last year was \$25,889 ; its expenses of management over \$8,000, about | ed for the Sydenham high school at the time one-third of cash receipts ! The losses were \$29 680, and the assets include \$34 839 of premium notes. Who can be surprised at the failure !

The Empire, having questioned Hon Laurier, the Montreal Herald, on Mr. now what he has always been, a liberal As such he held a seat in Sir John Mac donald's first coalition government affer confederation. As between the two leaders Hop. Mr. Laurier has Mr. Mitpheli's entire confidence, and he will give the liberal leader and the liberal party all the aid he can in ousting Sir John Macdonald from

Lanark has appointed a county treasurer and limited his salary to \$600 a year. This

laborar receives in Kingston, and less than THE LESSONS OF WINTER. many mechanics in Kingston and Perth are paid. He cannot well engage in any other occupation, because he is sied down to regular office hours. The clerical service he performs is worth his salary, and for the anxiety and honeaty required in handling over \$100, 000 a year literally nothing is paid. Can any one live Cecently on \$600 a year? Does it ever strike county councillors that there is some relation between inadequate salaries and so many defaications by treasurers ?

There are in the house of commons 215 members, of whom the province of Ontariocontributes 92, the province of Quebec 65. Nova Scotia 21, New Brunswick 16, British Columbia 6, Prince Edward Island 6, Manitoba 5 and the North West territories 4. Of the whole number of members 132 are more or lass closely bound together in the quaservative party, while 83 formed the they speedily occupy the orchestra chairs liberal side of the house. The largest divi- while Dr. Talmage and the large corps of sion recorded in the house last session waster, workers who are helping him listen to we believe, Sir John Thompson's amendment to the motion in regard to the French language question, when 199 members voted | The New York Herald estimates that dur on one side or the other. In another divisinn upon the same question 180 members voted. On such questions as those of supply, rebate on corn, customs reform and the amendment of the dominion election act, which were all purely party questions, the government's majority ranged from 31 to 43 in houses of from 152 to 163

THE Y M C.A. CONVENTION

The Closing Events of the Gathering. The

Farewell Service.

F. M. Pratt, Hamilton, read an admirable paper at the Y.M.C.A. convention on Sa turday afternoon, giving reasons why a change in policy was needed to reach the mechanical classes. The tendency was the much to cater to the commercial and professional classes. The future of this comprehensive work for young men lies in a satisfactory solution of this great problem. No one will deny the duty of the association towards young mechanics and laborers, for a contest with brighter prospects. Men who they compose the largest class of young him their support, and he has comented the who fill the police stations, gaols and liberal party and made it work as a unit. streets and corners, who often make the The meeting to night will be a demonstra- thoroughfares at night the most uncomfort profane language. The mechanic demands recreation in the form of amusements, a play room, cheap lively entertainments and a free social time in a plainty furnished, home like room. These are seldom provided. A large play ground should be provided, also reading rooms, trades classes, and a leading feature should be an orchestra. The best mechanical papers should be kept

H. C Thompson, of Toronto, read paper entitled "The field of the physical department." He pointed out that the bodies of men must be cared for if health most prevati. Young men must be developed physically as well as spiritually. This was the field of the associations. There were about 180,000 young men in communities where associations exist and in forty-three associations there were 9.374 young men. Only seventy-seven of the associations provided facilities for the physical needs of young

After the paper had been generally disussed R. C. Morse conducted a conversation on committee work.

It was moved by Mr. Cole, that the convention meet in London next year in the second week in February. Mr. Gooch moved as amendment, that the onvention meet in Quebec in 1892 and resented excellent reasons for his conten

was Quebec, 39; London, 36. In the evening there was a song service and an apt address by S. J. Moore on "De finite Personal Work." He gave a fine the West End association, Toronto. A conference of college delegates was held at Dr. Goodwin's house and was very profit-

addressed by the delegates. The city hall was crowded last evening Calvin presided for the opening and gave place to Mr. Morse, of New York, Rays, Houston and Dr. Jackson; Mesars. He gates in eight minutes gave testimony to benefit and the leading impressions derived from the convention. Then all joined hands, the people or influence the electors by talk | song "Blest Be the Tie That Binds," and Rev. S. Houston gave the closing benedic tion. "Ged be with you till we meet again, brought the convention to an end.

> A FINE GATHERING. Annual Meeting of the County L.O.L. of

Central Frontenac. The annual meeting of the county L.O.L. f central Frontense was held at Sharbot Lake, Tuesday, Feb 3rd. On the arrival of the K. & P. train from the south the dele gates to the county lodge repaired to the Union hotel where a sumptuous repast had been prepared by mine hoat, H. H. Rob erts, the proprietor, to which ample justice was done. At 1 p.m. the meeting, thlargest ever held in the county, was called to order by C. M. George Smith, whose annual report on the workings and progress of the order during the past year was high ly gratifying and listened to with close attention throughout.

The following officers were then elected M., G. Smith, (re eleated); D.C.M., E. L. (iodfrey ; C.C., Andrew Parker, (re elected); F.S., Alex. Manson; R.S., A. J. Sharpe. (re elected); treasurer, C. G. McKnight; lecturer, S. W. Davy, (re elected); Dh C. H. Godfrey and Charles Clark ; D. of C.

oleman Godfrey. After the newly elected officers had been fuly installed the lodge adjourned for tea and resumed at 8:30 p.m. It was decided to hold the annual celebration of the 12th of July at Sharbot Lake and the next annual meeting of the county lodge at Harrow smith. The meeting adjourned at midnight.

MEMORIAM.

The Late Thomas Dennison. On Sunday last Thomas Dennison, J.P. assed to his rest after an illness of seven days. His demise was a great shock to his many friends. It was caused by an extremecase of grippe. He was born in Ireland, eighty one years ago, and at an early age removed to Canada. He was one of the old est settlers in Portland having settled on the farm on which he died, sixty one years ago. From it be made an ample fortune. At the time of his death he was an acting justice of the peace and was one of the few whose rulings gave general satisfaction. He and the late Peter Knapp were thetwofirst trustees appointof its inception in 1871. He also took a leep interest in educational matters. He was a conservative in-politics and a consistent member of the Church of England. His wife preceded him several years ago. Two daughters mourn his loss. He was a brother of George Dennison, ex M.P.P., and Portland township. His nephew, Dr. Mc Paul's church, Sydenham.

At every service now men and women rise in all parts of the house to inpresent would pray for their conversion, and after the regular service is concluded their difficulties and give them advice. Tearful eyes and convulsive sobs bear testimony to the earnestness of the seekers. ing January slone over a thousand persons declared their resolve to live Christian lives. Dr. Talmage's sermon this evening, which he also preached in the Brooklyn Academy of Music in the morning, was from Job xxxviii, 22, "Hast thou entered into the treasures of the snow?" Grossly maligned is the season of winter

had many admirers, but winter, honry headed and white bearded winter, hath had more epemies than friends. Yet with out winter the human race would be mane and effortless. You might speak of the winter as the mother of tempests. I take as the father of a whole family of physical, mental and spiritual energies. The most people that I know are strong in proportion to the number of snow banks they had to climb over or push through in child bood, while their fathers drove the sied oaded with logs through the crunching drifts high as the fences.

At this season of the year, when we are so those white angels of the atmosphere, those poems of the storm, those Iliais and Odys seys of the wintery tempest, I turn over seldom or never fell-I find many of these. touch of the snowflake on their cheek, they had in sight two mountains, the tops anon and Mount Hermon all the year coronets of crystal from their forcheads

The first time we find a deep fall of snow in the Bible is where Samuel describes a fight between Benaiah and a lion in a pit, and though the snow may have crimsoned under the wounds of both man and brute, the shaggy monster rolled over 'lead, and the giant was victor. But the snow is not fully recognized in the Bible until God in terrogates Job, the scientist, concerning its wonders, saying, "Hast thou entered into the treasures of the snow?"

I rather think that Job may have exam ined the snowflake with a microscope; for although it is supposed that the microscope was invented long after Job's time, there had been wonders of glass long before the thought of. So long ago as when the Coliseum was in its full splendor, Nero sat in the emperor's box of that great theatre, which held a hundred-thousand people, and looked at the combatants through a The amendment was carried. The vote gem in his finger ring which brought
