At midnight the Etata received 40 head of cattle, 47 head of sheep and 3000 pounds of dressed meat from the ferry-boat Cor-onado. The Vessel has also received other stores, including 800 tons of coal. As soon as all the provisions and fuel were on boar she expected to leave the harbor and cruis between here and Catalina to meet schooner Robert and Minner, from which she was to take the Remington rifles and ammunition and then sail for Chili.

San Diego, Cal., May 6 .- About 5.30 last evening the Chillan steamer Etata quietly steamed out into the ocean, carrying with her U.S. Deputy-Marshal Spencer. Marshal Gard was not aware that the captain had any intention of disregarding his authority, for he left for Point Loma just one hour Gard there were aboard A. C. Spaulding of San Francisco, A. M. The orthodoxy of Dr. Workman of Cobourg has been brought into question and many have been the arguments for and against his position towards the accepted doctrine of the Methodist Church. The members of the Board of Regents were not particularly as xious that the public should be acquainted with the nature of his discussion. But it was the most interesting part of the business transacted by the board, nevertheless. Dr. Workman's lecture on "Messiale: Prophecy" was considered yester-day. After a discussion lasting nearly three hours the board passed this resolution: "That it is the decision of this board that

under existing circumstances Brother Workman be transferred from the faculty of theology to the faculty of arts." In other words Brother Workman bee member of the temporal in place of the spiritual faculty, and this is significant. Tax Min.s Run, N.J., May 7,-James at the point of death from the effect of the bite of a cat. Mr. Smith sat down on a chair on which there was a newspaper three weeks ago. Beneath the newspaper was the family cat. As his weight descended on the animal she seised his right hand with her teeth and inflicted a deep wound, from which the blood flowed freely.

Mr. Smith thought little of the incident a the time, but last week the hand and arm became greatly swollen and very painful. Dr. Moser of Griggstown was called in and pronounced it a case of blood-poisoning resulting from the cat's bite. Remedies were administered, but without effect, and the patient is in a dying condition. Mr. Smith is about 50 years old, has a wife and two daughters and is the owner of considerable farming land in this vicinity.

RAINSFORD HEARD FROM

Imue in New York. Rev. Dr. Rainsford, New York, who has been pisched into for interchanging pulpits with preachers of other denominations, spoke on Sunday of the distinction between uniformity and union in the church and con- PRETTY PATTERNS, Clean and New cluded ; "It is nonsense and an insult to say to other christian churches that this pulpit is for union. There is not much fear of that kind of union coming. I do not be lieve that American christianity is the work Without Cilt, 50 to 200 a roll. of the Protestant Episcopal church. In the south it was the Baptist church, in the west the Methodist Episcopal, in New England Puritanism, and in New York the Protestant Borderings Without Gilt, One-half Episcopal church. I think our church has made the mistake of being so active not to lose touch with the past, to the prejudice of its duties to the present. If the Protestant Episcopal church spoke to-day through the Gold Borderings 4c to 12c per yard majority of its clergymen and bishops, it would, I think, say there can be no true church without bishops. I don't believe that that statement is tenable. I won't say that you do not belong to the church of my Christ because your clergy are not episoopally ordained. Christ never taught that there is no church without a bishop. In

the first two and a half centuries after Christ that principle was not taught, and I stand with some of the best and most learned men of our church, such as Archbishops White-ly, Arnold and Siddon, when I say that I do not believe it."
