Be Sure About Your Oats. A St. Louis writer who claims to be an authority on the subject says he has tried an old remedy for saving wet shoes and that it works well. His method is to stand them up, put them in shape and then fill them with oats, "such as they feed to horses." This will in a few hours draw all the moisture out of the leather leaving it soft and pliable. Oats "such as they feed to horses" i

A FLASH OF LIGHTNING

The Way it Played Havoe About Yarker-The Football Club Defeated. YAMKER, Aug. 10.-The football match on Friday, between Napanee and Yarker, resulted in Yarker's defeat. The home boys had a strong team to face, and for the first half hour of play neither side scored, but on the change of goals, Napanes scored. With a little more steady practice Yarker club would be a hard club to beat. The Napance boys were a well trained club and thoroughly understand the game.

The rain of Thursday was the heaviest ever known in this abetion; it fell like a perfect sheet of water. A flash of lightning, a sharp crack and we know that some place in our village was struck. On investigation is proved to be Mrs. Breusulz's house. Stewart Walker, of Verona, was eating his dinner when, like a ball of fire, the light ning entered the room. Splinters flow on the table from the floor, where it passed through into the cellar. How it entered is a mystery; the only place noticeable is where it went through the floor. Mr. Walker had a narrow escape. A fine maple in front of E. W. Benjamin's residence was snapped in two. Wm. Hope driving from Newburgh to Yarker had his horse stunned by a shock; the horse fell breaking the shafts. Wallace's traveller, whose team and waggon were destroyed in the Brisco house barr,

Napanee, and who nearly loost another

team by fire in the lichborne house barn,

says hereafter he will tie his horses to the

waggon and camp in the market square. Notes From Jones' Falia. Aug. 11.-We are enjoying most magnifi cent weather this week, and are sincerely hoping for its continuation after the frequent rains of the past weeks. - The Falls is quite lively at present. Saturday we were visited by five yachts and two steamers, and our lakes are constantly dotted with rowing and fishing vessels. We can boast of a bevy of young ladies not to be surpassed by those at any other watering place.
