DREADFUL PSORIASIS.

Covering Entire Body With White Scales. Suffering Fearful. Cured by Cuticura.

My disease (psoriasis) first broke out on my left cheek, spreading across my nose, and then all over my face. It then broke out on my arms, and the physician was afraid it would take my eyesight altogether. It spread all over my body, and my hair all fell out, until I was entirely bald-headed; it then attacked my limbs, and my arms and shoulders, and my nails were worse than just one sore. It covered my entire body, my face, head, and limbs the worst. The white scales fell constantly, and my bed was a sight to see. My nails became shapeless and decayed, the skin would thicken and crack and bleed, and my body was one mass of scratches. After spending many hundreds of dollars, I was pronounced incurable by the best physicians of the country, and after using two bottles Cuticura Resolvent, I could see a change; and after I had taken four bottles, I was almost cured; and when I had used six bottles of Cuticura Resolvent, one box of Cuticura, and one cake of Cuticura Soap, I was cured of the dreadful disease from which I had suffered for five years. I cannot express with a pen what I suffered before using the Remedies. They saved my life, and I feel it my duty to recommend them. My hair is restored as good as ever, and so is my eyesight.

MR. MERCIER ACCEPTS

THE COMMISSION PROPOSED BY LIEUT.-GOV. ANGERS.

The Party Caucus Held Last Night and So Decides—The Premier Asks His Colleagues to Stand by Him Until the Investigation is Complete.

QUEBEC, Sept. 19.—All the supporters of the Local Government that could reach here held a caucus in the Parliament Buildings this evening to discuss the political situation. Almost all the old pillars of the National party responded to the call of the president of the Liberal caucus, but the appearance of Mr. L. P. Pelletier in the caucus hall was somewhat of a surprise. Mr. Pelletier, however, was given a chance to give his views on the question, and of course his speech was a repetition of his former speeches, in which he so often protested of the services rendered the party and of the manner he was lately treated with.

The caucus was informed, however, that the crisis was at an end, the Government having accepted the Commissioners demanded by His Honor Lieut.-Governor Angers.

Many of the Liberal members present were of opinion that the Government should have held out to the last and rather appeal to the country than give in to the Lieut.-Governor's injunction. A fact which appears striking to many is that Mr. Charles Fitzpatrick was absent from the caucus, although he was seen around the Parliament buildings shortly before the opening of the meeting. It is reported that he was not summoned to it.

At 10.30 the members of the Cabinet were invited to the caucus, and their presence was greeted with loud peals of handclapping.

The Premier's announcement that the crisis was postponed received considerable enthusiasm. He denounced the Pacaud-Armstrong transaction very bitterly, but he hoped that his colleagues would be confident in the integrity of the Government until the Royal Commission had investigated the matter and the members of the Cabinet had exonerated themselves of all blame.

A petition to the Lieut.-Governor has been signed by all the members present asking His Honor to call the Legislature immediately. The paper was presented to the Premier, who promised to put it before the Cabinet for its approval.

Mr. Cochrane Acquitted.

OTTAWA, Sept. 19.—It was 4 o'clock yesterday morning. Long hours of talking on the Cochrane case preceded adjournment. Gorman, Mulock, Mason and Caron made long speeches.

Col. O'Brien, contrary to expectations, took no part in the debate and voted against both resolution and amendments. On Gagnon's amendment that the minority report be received the vote was 74 to 99, and on the main motion of Mr. Tisdale, chairman of the Investigation Committee, the vote was 75 to 98.

Hon. Thomas McGreevy in Quebec.

QUEBEC, Sept. 19.—The Hon. Thomas McGreevy was seen in Quebec last night. It is thought that he will leave soon for the border.

THE MONDEGO WRECKED.

Her Cargo of 554 Cattle and 82,584 Bushels Rye Lost The Crew Saved.

MONTREAL, Sept. 19.—The steamship Mondego, from Montreal for Dundee, is a total wreck on the coast of Newfoundland. The steamship Mondego, Capt. J. Rowell, left here on July 10. Her cargo was as follows: 50,000 bushels rye for Norris & Carruthers, 94,034 bushels rye for Crane & Baird, 8,550 bushels rye for R. Dodds, 400 cattle for John Crowe and 64 cattle for C. Coughlin. The cattle were for Dundee. The cargo is a total loss.

The vessel had a crew of thirty men and had on board also ten cattlemen from Montreal. The cattle foreman Joseph Hyland is from Toronto. The agents here stated that their only information was a short despatch from the captain, stating that the vessel was a total loss, but that all on board were saved. Another report received to-day stated that the "Mondego" was a total loss on the rocks in [illegible] Bay.

The Mondego was the [illegible] English mail boat, carrying [illegible] mails from Southampton to the West Indies. Afterwards she was purchased by A. Ross & Co. Sons of Temperance.

OTTAWA, Sept. 19.—Yesterday 1,200 of the striking mill workers paraded in procession through the city, and afterwards listened to speeches made by Mr. W. Keys, one of the most prominent men in Montreal labor circles, urging peace. Whilst reminding the men that the mill owners, their masters, their tyrants, had called out the militia to shoot them down, the speaker begged them to commit no act which would put them in power of the militia, the bloodhounds of Eddy, Booth & Co., whom they could drop one by one over the Chaudiere Falls. The masters have issued a letter stating they cannot afford to agree to the men's terms.

The House of Commons Damaged.

OTTAWA, Sept. 19.—A terrific storm of wind and rain struck the Capital at 1 o'clock yesterday. The wind raised a large piece of ornamental iron work from the roof and sent it crashing down upon the upper roof of the chamber of the House of Commons. The upper roof, which is of glass, gave way, and a shower of water and broken glass fell through the glass ceiling of the chamber and deluged the desks of the Ministerialists. As the damage is confined to one side of the chamber it is improbable that it will interfere with the sitting of the House.

A Fatal Reaper Accident.

WINNIPEG, Sept. 19.—A Brandon despatch says: Samuel Osborne, a respected farmer living near Carrollton, south of Brandon, met with an untimely death on Monday evening last. It would appear that he was driving a binder when his horses took fright and he got entangled in the machinery, the knife severing one leg at the knee. Deceased only survived the accident a few hours.

Gladstone's Health Causing Uneasiness.

LONDON, Sept. 19.—Sir Andrew Clarke has just left Hawarden after a visit, during which he examined Mr. Gladstone, and announces that the aged statesmen has not yet fully recovered from his recent attacks of influenza. Sir Andrew enjoined the greatest caution upon his distinguished patient, and even urged him to give up his political engagements entirely, but Mr. Gladstone, who is feeling quite vigorous, insists on making the trip he had planned to Glen Almond, Perthshire, for which point he starts on the 25th inst.

The De Cobain Case Again.

BELFAST, Sept. 19.—A man named Allen, who is the chief witness for the Crown in the charges of immoral conduct brought against Mr. S. W. De Cobain, one of the members of Parliament for Belfast, has been arrested in this city, the complaint against him being that he was engaged in the sale of obscene pictures. Mr. Edward De Cobain, a member of Parliament for Belfast, early in April last fled from the United Kingdom in order to escape arrest on a warrant charging him with unnatural crimes.

Arrival of Balmaceda's Silver.

SOUTHAMPTON, Sept. 19.—The British steamship Moselle arrived here yesterday from Montevideo, having on board the $900,000 in silver shipped by ex-President Balmaceda of Chili to Europe in order to pay for war materials. This is the silver conveyed to Montevideo by H. M. S. Espiegle. The bullion will be stored in the Bank of England pending the settlement of the legal questions involved.

Gold Fields in Ireland.

LONDON, Sept. 19.—A remarkable story of rich gold reefs found on the west of Ireland says that they resemble those of the gold strata of California, Australia and South Africa, extend clear around a mountain and yield at least four tonsight pennyweights per pound.

DEMOCRATIC CANDIDATE.

He Will Run For the Governorship of New York State.

ROSWELL P. FLOWER.

Roswell P. Flower is descended from Lamrack Flower, who emigrated from England in 1680, and settled in Harford, Conn., in 1696. He began his business life when 14 years of age, as a clerk in a store, at a salary of $5 a month. The limited time at his own disposal was utilized in study, and at 16 he had qualified himself to graduate with honors at the high school. This being accomplished, two years of hard physical toil succeeded, during which he worked cheerfully in a brickyard, on the roadway, sawing wood and whatever else he found to do in the limited sphere in which he then lived. When 18 years old he removed to Watertown, N. Y., where he was soon made clerk as the postoffice. After holding this position six years, he ventured into business for himself as a jeweler. For ten years he prospered in this calling, when upon the death of his brother-in-law, Henry Keep, a celebrated railroad magnate, he removed to New York—the care of the deceased's estate, valued at $4,000,000, devolving upon him and necessitating the change. His wonderful ability as a financier soon became known, and his establishment of a broker's office on Wall street, in partnership with Anson Flower, was followed by that degree of confidence in his business sagacity which has led to his present eminence among the leading financiers of the metropolis.

Mr. Flower was a member of the forty-seventh congress. A vacancy occurring in the seventh congressional, which includes the richest and most influential portion of New York city, by reason of Levi P. Morton being appointed United States minister to France, William W. Astor, an accomplished member of the wealthy family of that name, and who has been elected a state senator in a democratic district by nearly 3,000 majority, ran for the vacant seat. A republican in a republican stronghold, his only concern for a time was to be elected by a vast majority, and it seemed hopeless to oppose him, especially as his command of money was practically unlimited. Mr. Flower, however, ventured to do it, and though, as the beginning of the canvas, but slightly acquainted with the constituency, came out of the contest successful, 3,000 votes ahead of his competitor, who, it is stated, spent $150,000 in the struggle. The publicity given to this election naturally directed attention to the successful candidate, and his conduct in congress has been closely regarded.

Who Will Come Out Best.

LOUISVILLE, Sept. 19.—Millionaire E. V. Thompson, who resides near the Taylor boulevard, leading to Jacob Park, has blocked the road drive a dozen times in as many days, because the city did not fill up a pond in compensation for the right of way. The farmers kept tearing away the obstructions placed on the road by the millionaire. Last evening the latter felled a tree across the drive and thought he had fixed the matter so that the boulevard would not be used until the city filled up the pond.
