HIGH FLYERS FLOURISH.

THE PACK TOO FAR FOR THEM—THEN THEY FADE.

Logical Fate of Young Men Who Spend Twice What They Earn and Have No Other Resources.

This fearful list of modern times is responsible for much in the way of sin, misery and degradation. For every one who plods steadily along, saves his money, lives frugally, and is content with what he has, there is at least another one, who not two or half a week, daily striving to keep up appearances or cut a dash. The eight dollar a week clerk lives at a five dollar rate, and the higher grade employee who gets two thousand a year tries to live in the same style with the fortunate laborer whose income is twice or three times that amount.
