Prescher gangs of firemen (non-unionists) who were Hall, his two sons and the deacon are ardent proceeding to the dock last evening were prohibitionists, and when the Lord blessed the latter with more apples than he could eat he was in sore straits. He did not want to turn them into older, for that was the bane of the farmer's life, especially after it had grown "hard." He consulted with his pastor and suggested giving the fruit away, but preacter Hall declaimed in eloquent terms against that, lest some one else might make older of them. It was finally decided to throw away the whole crop, and so the four men, with the help of the hired man, who silently protested against the work, stripped the orchard and dumped every blessed apple

One of Life's Burdens The medical practitioner of Canada will tell you that one of the most prevalent and most common ailments of the present day is indigestion. There are few individuals who have not experienced it oftener than once in their lives. Indigestion is an ail ment that develops other serious and dangerous troubles, unless it is attended to with promptness. The ordinary indigestion arises, for the most part, from overloading the stomach with food; or it may result from partaking too freely of wine, spirits or other

ntoxicating liquors. Confirmed or chronic indigestion may depend on debility or want of tone of the stomach, or it may be caused by the lining or mucous membrane of this organ being in a state of irritation or chronic inflammation One of the most common causes of indiges tion is not masticating the food we eat properly. Another cause is habitual inattention to diet, both as regards the quality and quantity of food, and irregularity in the times of eating. Indigestion may result from other causes

Besides these there are numberless othe causes which in a greater or less degree, exercise their baneful influence upon this vital and all-important function of our It is well known to the thousands who anffer from indigestion, that hundreds of remedies are offered for the cure of this distressing completet.
