NEW YOUK, Oct. 31—As of old it was said that "all roads lead to Rome," so it might also be said of this city, that many of the most important events occurring in far-off States seem, sooner or later, first or last, to find a resting place in New York. If a comple clope in the west they come here. If a cashier defaults in a bank and does not seek refuge in Canada, he finds this city a congenial shelter. A bogus nobleman can flourish here for a month before he is found out, and all sorts of female adventuresses times while perfectly sound asleep.

lin the trial of the Rev. Henry W. George in Peekskill, who, a year ago, was paster of the Reformed church at Leeds. The case is one of the most extraordinary that ever came before a court, and the only mystery is how men, professing the religion of Christ, could have combined to pass this miserable scoundrel from one thurch to an other, till at last he lands in jail charged with murder. Mr. George graduated from a college in the west, and repeatedly during his college course was up before the faculty for stealing. Every professor knew he was a thief, and notwithstanding that the facts of his stealings were well known, he was allowed to take hely ordere. He was settled in a church in Chicago with a salary of in a church in Chicago with a salary of twenty-five hundred dollars a year, but he had hardly got settled in his place when he Oddfellows and Friends Spend a Delightgregation. SHAW ANSWERS OBJECTIONS TO

1. For the past few years the school board has been trying to procure a site near the normal school lot because of the overcrowding of Williamsville, Louise, Johnston etreet and Gordon street schools. The pul lic are well aware that the Herchmer farm has almost entirely been built upon during the past few years, thus adding to the school population of that portion of the city, and then Gordon street school has even been considered as unfit for school purposes owing to its construction as well as its proxi-mity to the water. This building the board purposes to dispose of when the new school is erected. While some look upon the site of the proposed new school as being too far away from the centre of the city let me say that large boys and girls do not complain of the distances they have to walk at present, notwithstanding that many living in the lower portion of the city attend Louise and Gordon street schools, while others living chools. This state of affairs is caused by the building of small schools, which force the scholars when promoted to move from the new site is the very best the board could

Again the schools are not only of brick, but are all three stories

Then they have no archiofficer at a yearly salary who is superintend-ent of buildings and prepares all plans, this further reduces the total cost as shown in the plans, the \$42,000 embraces everything and gives a school that, is its internal arangement, will be the equal, if not the superior, of any school in the province. These Toronto schools cost over \$30,000 each, so from these facts the public can see that the proposed outlay in Kingston is very ing in the Queen City. DHOWNED AT THE DRY DOCK.

A Bright Son of W. Thompson Falls Int A and drowning accident occurred at the dry dock at 4:45 e'clock yesterday afternoon. Little Thomas Thempson, a bright and intelligent lad of six summers, was walking along the edge of the dock, and when near the south abutment his foot struck some obstacle and he was hurled head foremost into a depth of about fourteen feet of water. The wurkmen, engaged in the accident too of the pump house, saw the accident have the courage to dive after the child un-til it was too late to save his life. Patrick Hart, an aged and sufeebled man, was the first to plunge in the water but his strenuous and after battling bravely for a few minutes to maintain his strength he was compelled to give up from utter exhaustion. A man, named Firspatrick, then dove down but his attempts to locate the body were also fruitiess. By
