THE MIRACLE CITY.

A NEW NAME SUGGESTED FOR HAM ILTON.

Indicate That the Name Would be Quite. The number of remarkable cures occurring in Hamilton is enusing general comment throughout the country. To those who know the inside facts there is not the least cause for wonderment. The remarkable cure of Mr. John Marshall, who was known to almost every citizen in Hamilton, gave the Pink Pilis an enormous sale in the city, one retail druggist alone selling 2,880 boxes in the past six months. People whose cases had been considered hopeless, as was Mr. Marshall's, took hope from his cure, persisted in the use of the pills, with equally wonderful results in their case. And what

is happening in Hamilton in the way of re markable cures, is happening in all parts of the Dominion, and every day adds to the pile of grateful testimonials which the proprietors of Dr. Williams' Pink Pills are re-onlying. Last week the Hamilton Times investigated two more cases, the result of which is told in the following article in the issue of Nov. 7th : The account of Mr. John Marshall's Merrickville, was thrown from his carriage,

Paralysis then set in and I imme diately consulted a well-known specialist in Suffalo, who told me that I was suffering rum locomotor ataxy and could not get better. I came home again, and on the advice of friends tried several hot springs. but with no effect, except, perhaps, to ag gravate my complaint. I finally became iscouraged, and after two years' doctoring, underwent an operation. I was placed under chloroform, a gash two inches and a half in depth made in the side of each two near the hip, and the doctors put their fingers in the gash and stretched the sciario nerves in the vain hope that such would give me relief. Since then, now over ten years ago, until June last, I took no medicinwhatever, and retiring from business became so helpless that I could not walk a step without my crutches, and sometimes the pain was something awful. About June, however, I got some of Dr. Williams' Pink after using the first box fell continued to use them ever since with the result that the terrible pains I used to suffer from have vanished, and with the exception of a gentle little dart at rare intervals, might never know I had ever suffered with them.
