PAUL'S DEFIANCE TO HEATHENISM. What I have so far said in this discourse was necessary in order that you may understand the boldness, the defiance, the holy recklessness, the magnificence of Paul's speech. The first shunderbolt he launched at the opposite hill—the Acropo-lis—that moment all aglitter with idols and temples. He cries out, "God who made the world." Why, they thought that Prometheus made it, that Mercury made it, that Apollo made it, that Poseidon made it, that Eros made it, that Pandrocus made it, that Boreas made it, that it took all the gods of the Parthenon, yes, all the gods and goddesses of the Acropolis to make it, and here stands a man without any ecclesiantical title, neither a D. D., nor even a reverend, declaring that the world was made by the Lord of heaven and earth, and bence the inference that all the splendid covering of the Acropolis, so near that the seople standing on the steps of the Parhenon could hear it, was a deceit, a falsesood, a sham, a blasphemy. Look at the faces of his anditors; they are turning pale, and then red, and then wrathful. There had been several earthquakes in that

these men had ever felt. The Persians had bombarded the Acropos from the heights of Mars Hill, but this Pauline bombardment was greater and more terrific. "What," said his bearers, "have we been hauling with many yokes of oxen for centuries these blocks from the quarries of Mount Pentellcum, and have we had our architects putting up these struc-tures of unparalleled splendor, and have we had the greatest of all sculptors, Phidias, with his men chiseling away at those wondrous pediments and cutting away at these friezes, and have we taxed the tion's resources to the utmost, now to be

told that those statues see nothing, bear nothing, know nothing?" Oh, Paul, stop for a moment and give these startled and overwhelmed auditors time to catch their breath! Make a rhetorical pause! Take a look around you at the interesting landscape, and give your hearers time to recover! No, he does not make even a period, or so much as a color thunderbolt right after the first, and in the same breath goes on to say, God "dwelleth Paul! Mars Hill responded: "L too, have a his tory. Then the Acropolis spake and said, as though in self defense, "My Plato argued for the immortality of the soul, and my Socrates praised virtue, and my Miltiades at Marathon drove back the Persian oppressors." "Yes," said Mars Hill, "your Plato laboriously guessed at the immortality of the soul, but my Paul, divinely inspired, declared it as a fact straight from God. Your Socrates praised virtue, but expired as a suicide. Your Miltiades was brave against earthly foes, yet died from a wound ignominiously gotten in after defeat.
