MERCIES OF THE LORD

ERMON BY THE REV. T. DE WITT TALMAGE, SUNDAY, NOV. 29.

BROOKLYN, Nov. 29 .- Dr. Talunge's seron this morning had a distinctly Thunksving character. The appearance of the nacle was in keeping with it. The ens of fruits and harvest products with which the pulpit and galleries were decorated for the Thanksgiving day servwheat, sugar cane, fre, outs, coru and fruits, and products from north, south, mat and west put before the audience as by an object lesson the abundance of the nal harvest. The doctor's text was aken from Psalm existii, 10, 12 and "Beasts, and all cattle; creeping things and flying fowl; both young men, and maidens old men, and children: let them praise the name of the Lord."

What a scene it was when last Thursday at the call of the president and governors this nation assembled to chant the praises of God. But the day was too short to cele brate the divine goodness of such a year. The sun did not rise over Brooklyn until one minute before seven o'clock that morn ing, and it set four o'clock and thirty-five minutes that evening. What a small space of time in which to meditate upon twelve months of benefactions. So I add to that day this Sabbeth morning service, and school books comes the demand from a fe- with the fruits and harvests of the earth still glorifying the pulpit and the galleries, ask you to continue the rehearsal of the

which the books could be produced at a By a sublime egotism man has come to appropriate this world to himself, when the fact is that our race is in a small miment tending to chespen books will be popu- nority. The instances of human life, as lar, but it will take considerable persussion | compared with the instances of animal life, to induce the local government to undertake are not one to a million. We shall enlarge the founding of a printing pureau. The Ot. our ideas of God's goodness and come to a

Although nature is out of joint, yet even the expense involved by the change of text in its disruption I am surprised to find the books, calls for serious consideration. It is almost universal happiness of the animal spible for the government to become the creation. On a summer day, when the air publisher of school books, by contract, get-ting them out at low figures and giving them at actual wost to the children. Education robbed a bird's nest, or a hunter has should be encouraged in every way, and it broken a bird's wing; or a pasture has been robbed of a lamb and there goes up a leating from the flocks.

The whole earth is filled with animal de light-joy feathered and scaled and horned and hoofed. The bee hums it; the frog croaks it; the squirrel chatters it; the quai The London Standard repudiates the whistles it; the lark carols it; the whale the shellfish have their homely delightsjoy as great to them as our joy is to us. Goat climbing the rocks; anaconda crawl-"A more unjust statement it would be ing through she jungle; buffalo plunging difficult to make. Mr. Laurier, the leader across the prairie; crocodile basking in of the opposition, and Sir Richard Cart- tropical sun; seal puffing on the ice; ostrich wright, the present leader of the Ontario striding across the desert are so many wing of the liberal party, were members of bundles of joy they do not go moping or the Mackenzie administration, in power melancholy; they are not only half supfrom 1873 to 1878, with every opportunity | plied; God says they are filled with good. to adopt the measures and practice the arts, The worm squirming through the sod upa few examples of which have recently been turned of plowshare, and the ants racking

that, whatever the merits or demerits of of joy-the growl, the croak, the bark, the their fiscal policy may be, they have kept | howl. The good God made these creatures, plowshare turn up a mole's nest, or fisherman's book transfix a worm, until, by eternal decree, its time has come. God's word in favor of any liberal without justifi- hand feeds all these broods, and shepcation. The article is commended to the herds all these flocks, and tends al these hards. He sweetens the clover top for the ox's taste, and pours out crys-talline waters in mossed cups of rock for the bind to drink out of on his way down the crags, and pours nectar into the cup of the honeysuckle to refresh the hum ming bird, and spreads a banquet of a hun-dred fields of buckwheat, and lets the honey bee put his mouth to any cup of all the banquet, and tells the grassho clinging to the rock in midocean, with its that British demand for our'cheese shell fall tentacles spread to catch its food, has the owner of the universe to provide for it We are repulsed at the hideousness of the convenience of the monster, puts forty thousand distinct muscles in his proboscia.

GOD CARES FOR ALL HIS CREATURES. I go down on the barren seashore and happy life. I go down by the marsh and say, "In this damp place and in these loathsome pools of stagnant water there see the turtles on the rotten log sunning themselves and hear the bogs quake with

Winter is not allowed to come until the ants have granaried their harvest and the squirrels have filled their cellar with nuts. God shows the hungry ichnenmon where it may find the crocodile's eggs; and in arctic climes there are animals that God so lavishly clothes that they can afford to walk through snowstorms in the finest God gives them a new one. He helps the spider in its architecture of its gossamer bridge, and takes care of the color of the butterfly's wing, and tinges the cochineal, and helps the moth out of the chrysalis. The animal creation also has its army and pavy. The most insignificant has its means of defense—the wasp its sting, the eptile its tooth, the bear its paw, the dog

its muzzle, the elephant its tusk, the fish its scale, the bird its swift wing, the reindeer its antlers, the roe its fleet foot. are repelled at the thought of sting and tusk and hoof, but God's goodness provides them for the defense of the animal's

Yes, God in the hible announces his care for these orders of creation. He says that defense-Psalm civ, 18, "The high hills rocks for the conies." He watches the bird's nest-Psalm civ, 17, "As for the stork, the fir trees are her house." He sees that the cattle have enough grass-Psalm clv, 14, "He causeth the grass to grow for and alreep and horses have enough to drink into the valleys, which run among the ills; they give orink to every beast of the

field. The wild asses quench their thirst." THE SABBATH IS FOR THE CATTLE. the rights of cattle and said that they should have a Sabbath. "Thou shalt do any work, thou nor thy cuttle." sclared with infinite emphasis that ox on the thrashing floor should have the privilege of eating some of the grain as he young birds were taken from the nest for food, the despotler's life depended on the mother going free, God would not let the mother bird suffer in one day the loss of her young and her own liberty. And he who regarded in olden time the conduct of man toward the brutes today looks | a garden, and told that from all the trees

Breckville Recorder, but there are other people in Canada who have comething to may about the kind of people wan are to govern them. Their time is coming.

pasture.

Why did God make all these, and why make them so hat py? How account for all this singing and dancing and frisking all this singing and dancing and frisking amid the irrational creation? Why this heaven for the animalcule in a dewdrop? Why for the condor a throne on Chimthe Latin phase signifying, "The royal will the ship's wake on the see, which is and to be only the ship's wake on the see, which is said to be only the trolic of millions of in as thousand hills come down to give us many volces from the braticoal creation of the beat of the see, and the fish of the sea come up in our mot, and the ship's wake on the see, which is said to be only the trolic of millions of in as thousand hills come down to give us many volces from the braticoal creation of the sea come up in our mot, and the fish of the sea come up in our mot, and the fish of the sea come up in our mot, and the fish of the sea come up in our mot, and the fish of the sea come up in our mot, and the fish of the sea come up in our mot, and the fish of the sea come up in our mot, and the fish of the sea come up in our mot, and the fish of the sea come up in our mot, and the fish of the sea come up in our mot, and the fish of the sea come up in our mot, and the fish of the sea come up in our mot, and the fish of the sea come up in our mot, and the fish of the sea come up in our mot, and the fish of the sea come up in our mot, and the fish of our guns, and the fish of the sea come up in our mot, and the fish of the sea come up in our mot, and the fish of the sea come up in our mot, and the fish of the sea come up in our mot, and the fish of the sea come up in our mot, and the fish of the sea come up in our mot, and the fish of the sea come up in our mot, and the fish of the sea come up in our mot, and the fish of the sea come up in our mot, and the fish of the sea come up in our mot, and the fish of the sea come up in our mot, and the fish of the sea come up in our mot, and the fish of the sea come up in our mot, and the fish of the sea come up in our mot, and the fish of the sea come up in our mot, and the fish of the sea come up in our mot, and the fish of the sea come up in our mot, and the fish of the sea come.

tion, one explanation, one answer-God

I take a step higher, and notice the sdaptation of the world to the comfort and happiness of man. The sixth day of creation intelligence. In him a strange comming-ling of the temporal and eternal, the finite and the infinite, dust, and glory. The earth for his floor and heaven for his poof;

No embroidery so elaborate, no gauze so delicate, no color so exquisite, no mechan-

into immortal sculpture. It reins in the heaven; it feels the pulse of the sick child with its delicate touch, and makes the nations quake with its stupendous achieve-

What power brought down the forests, and made the marshes blossom, and burdened the earth with all the cities that thunder on with enterprise and power?
Four fingers and a thumb. A hundred million dollars would not purchase for you the darkness and whistle up the flagman a machine as exquisite and wonderful as at dead of night to let the western harvests your own hand. Mighty hand! In all its come down to feed the mouths of the great bones and muscles and joints I learn that

Behold the eye, which, in its photographic gallery, in an instant catches the mountain and the sea. This perpetual telegraphing of the nerves; these joints, that are the only hinges that do not wear out; these bones and muscles of the body with fourteen thousand different adaptathese two hundred million pores; this thousand times every hour; this chemcal process of digestion; this laboratory, beyond the understanding of the most akiliful philosophy; this furnace, whose factory of life, whose wheels and spindles realize the wonders of our physical organization we would be hypochondriacs, fearing every moment that some part of the machine would break down. But there are men here who have lived through seventy years, and not a nerve has ceased to thrill, or a muscle to contract, or a lung to

breathe, or a hand to manipulate. THE MIND OF MAN. I take a step higher and look at man's mental constitution. Behold the benevoence of God in powers of perception, or the faculty of transporting this outside world into your own mind-gathering into your brain the majesty of the storm and the spleudor of the day dawn, and lifting into your mind the ocean as easily as you might put a glass of water to your

mysterious linking together of all you Atclaide St., Hu I Eng , states he was totally ever thought or knew or felt, and then giv- | unable to work and had been confined to his ing you the power to take hold of the clew | bed for a long time; he had tried various line and draw through your mind the long train with indescribable velocity—one thought starting up a hundred and this boote; crutches were of little use. He tried thought starting up a hundred and this boote; crutches were of little use. He tried again a thousand—as the chirp of one bird St. Jecobs Oil. In twelve hours he found sometimes wakes a whole forest of voices, relief. He is now cured of his rhoumatism or the thrum of one string will rouse an | and is at his work daily .- News, Hull, Eng.

Watch your memory—that sheaf binder, that goes forth to gather the harvest of the past and bring it into the present. Your power and velocity of thought-thought of the swift wing and the lightning foot; thought that outspeeds the star and circles through ,the heavens and weighs worlds, and, from poising amid wheeling constella tions, comes down to count the blossoms in a tuft of mignonette, then starts again to try the fathoming of the bottomless, and the scaling of the insurmountable, to

ness of nostril, the eagle in far reaching the honey bee in delicacy of tongue, the spider in fineness of touch. Man's power, therefore, consisteth not in what he can lift, or how fast he can run, or how strong a wrestler he can throw-for in these respects the ox, the ostrich and the hyena are his superiors—but by his reason comes forth to rule all; through his in-At his all conquering decree the forest

that had stood for ages steps aside to let him build his cabin and cultivate his farm. The sea which raved and foamed upon the race has become a crystal pathway for commerce to march on. The thunder cloud that slept lazily above the mountai s made to come down and carry mail bags. Man, dissatisfied with his slowness of ancement, shouted to the water and th fire, "Come and lift!" "Come and draw!" "Come and help!" And they answered, "Aye, aye, we come," and they joined hand-the fire and the water—and the shuttle fly, and the rail train rattles on, and steamship comes coughing, panting, flam-

He elevates the telescope to the heaven and as easily as through the stethosec of distant systems of worlds throbbing with life. He takes the microscope, an discovers that there are hundreds of thou sands of animalcula living, moving, working, dying within a circle that could i overed with the point of a pin-animals to which a rain drop would be an ocean, a

I take a step higher and look at man moral nature. Made in the image of Go Vast capacity for enjoyment; capable a first of eternal joy, and though now disorof heavenly grace, able to mount up to more than its original felicity; faculties that may blossom and bear fruit inexhaus capacity; a soul destined to range in mited spheres of activity long after the world has put on ashes, and the solar sys tem shall have snapped its axle, and the atare that, in their courses, fought against isera, shall have been slain and buried amid the tolling thunders of the last day.
You see that God has adapted everything to our comfort and advantage. Pleasan things for the palate; mpsic for the ea beauty for the eye; aroma for the nostr kindred for our affections; poetry for ou taste; religion for our soul. We are put is

are sick, and the forests lumber when we would build a house or cross the water in The rocks are transported for our foun-dation, and metals upturned for our currency, and wild beasts must give as covering, and the mountains must be tunneled to let us pass, and the fish of the sea come

had arrived. The palace of the world was Hut for the soul still higher adaptation; made, but there was no king to live in it. a fountain in which it may wash; a ladder Leviathan ruled the deep; the eagle the | by which it may climb; a song of endiese air; the lion the field; but where was the scepter which should rule all? A new fading light that it may war. Christ came to save it—came with a cross on his earth were represented in his nature. His back; came with spikes in his feet; came body from the earth beneath; his soul when no one clee would come, to do a from the heaven above. The one reminding him of his origin, the other speaking of his destiny—himself the convecting link. God has done for him. Man is a sinner, between the animal creation and angelic here is a pardon. He has lost God's image; how suited to man's condition is what Sartimeus, eternal glories stream into his soul Jesus, I sing thy grace! Cure of the conformation of the human body, ex-claims, "Fearfully and wonderfully made." reject it, but heaven celebrates it!

I wish you good cheer for the national ism so graceful, no handiwork so divine. health, Pestilence, that in other years has So quietly and mysteriously does the hu-man body perform its functions that it Greenwood and Laurel Hill, has not visitwas not until five thousand years after the ed our nation. It is a glorious thing to be creation of the race that the circulation of | weil! How strange that we should keep the blood was discovered; and though an our health when one breath from a marsh atomists of all countries and ages have or the sting of an insect or the slipping of a foot or the falling of a tree branch might fatally assault our life! Regularly the Volumes have been written of the hand. lungs work, and their motion seems to be Wondrous instrument! With it we give a spirit within us panting after its immor- MURRAY friendly recognition, and grasp the sword, tality. Our sight falls not, though the air and climb the rock, and write and carve is so full of objects which by one touch and build. It constructed the pyramids | could break out the soul's window. What and hoisted the Parthenon. It made the ship, after a year's tossing on the sea, harp, and then struck out of it all the could come in with so little damage as world's minstrelay. In it the white markle ourselves, though we arrive after a year's of Pentelican mines dreamed itself away younge today?

I wish you good cheer for the national swift engine; it holds the steamer to its | harvest. Reaping machines never swathed path in the sea; it snatches the fire from thicker rye and corn husker's peg never ripped out fuller ear, and mow poles never bent down under sweeter hay, and , windmili's hopper never shook out larger wheat. Long trains of white covered wagous have brought the wealth down to the great cities. A race of kings has taken possession of this land-King Cotton, King Corn, King Wheat, King Rice, King Grass, King

CIVIL AND RELIGIOUS LIBERTY. I wish you good cheer for civil and religious liberty. No official spy watches our truth. We stand here today with our arms free to work and our tongues free to speak. mysterious heart, contracting four This Bible-it is all unclasped. This pulpit-there is no chain around about it. There is no snapping of masketry in the free men, with the prospect and determina heat is kept up from cradle to grave; this tion of always being free. No established factory of life, whose wheels and spindles, religion—Jew and Gentile Arminian and and bands are God directed. If we could | Calvinist, Trinitarian and Unitarian, Protestant and Roman Catholic on the same

most unpopular of all the sects, I believe that all other denominations would band together and arm themselves, and heart would be stout, and blood would be free, and the right e' men to worship God according to the dictates of their conscience would be contested at the point of the bayonet, and with bood flowing up to the bits of the horses' bridles. For mercies temporal and spiritual let consecrated lives be offered. Wherever
