whereupon Miss Rossie Johnson, dis stone-grapher, offered to go. There was just an hour in which to make preparations, but in half an hour Miss Johnson was on the way to the depot, and a few hours later she was aboard a stonmer. The vessel sailed Nov. 25th. At Liverpool she learned that the fast boat on which she had expected to sail slow ten-day boat had been substituted. This would not land her in New York before cool. She had to go to Edinburgh, London, Exeter and back to Liverpool. This meant ,000 miles in less than three days, see 1,000 miles in less than three days, see several people and explain the purpose for which Mr. Clark desired their proxies. It seemed almost impossible, but Miss Johnson accomplished it, and a cablegram to Mr. Clark brought him the information that Miss Johnson had secured all the desired proxies and sailed with them on the Servis, ine to arrive in New York on Monday.

THE FAIR FOR KINGSTON

In conversation with R. Meek the fol-lowing additional information was gleaned on the agriculture and arts association

"The members of the deputation feel that to their presence is due the fact that the agriculture and arts association passed the resolution urging upon the government the desirability of making a grant of \$5,000 to the provincial fair. There was a disposition to defer action, but the deputation pointed position of the egriculture and arts asso-tion upon the question. The principal op-penent of the grant was Nicholas Awery, M.P.P., who thought the government would not be inclined to give a grant of for prizes and \$5,000 for incidentals called for by the breeders' association in connection with their world's exhibit. Mr. Bowman, representing a western constituency, objected, but not to the fair being held in Kingston. He only thought that the grant should be get first before the place for the fair was located. The advocates for the fair were Messre. Haggarty, Legge and Morgan who argued that the government should give a grant in obedience to the cali of so many people for a fair in the eastern part of Ontario; that the \$19,000 asked for by the breeders' associations would benefit the west principally and that the east should be have some compensating advantage. The motion being carried an item for \$10,000 was

placed in the estimates of the association which goes to the government for its consideration." MARINE INTE LIGENCE.
