"MADAME DE VARNEY."

Remarkable Romance of an Expert Female Pickpocket.

The latest sensation in Paris is the arrest of a Mme. de Varney, an American, as a pickpocket. She was held for three days and then told that her arrest was a mistake.

Had the French police communicated with Inspector Byrnes, of New York, they would not have labored under the accusation of having made a mistake. Here is her career in America, according to the inspector:

Her real name is Sophie Lyons. She belongs to a family of thieves. Her father and mother, sisters and brothers are all thieves; her son is a thief and died in prison.

As a child thief Sophie was an infant phenomenon. She was often arrested, but was such an innocent looking little thing that her victims were unwilling to proceed against her.

The pair lived happily together, and had four children, three girls and a boy. But the father was finally caught and sent to Sing Sing, and the mother returned to her old profession.

She served her term and returned to her profession. Soon after she became intimate with "Herr Hertenster," a celebrated banister, but she seems to have been fastidious in the matter of husbands, and tried several before finding one suited to her mind.
