LETTERS TO THE EDITOR.

Seeking Equine Information. Kingston Township, Jan. 22.—(To the Editor):—I noticed veterinary surgeon Massie's remarks in last week's Whig on the culture of horses. He tells the farmers to breed such horses as would be fit for saddle and carriage work. First, let me ask what constitutes saddle or carriage horses? What weight and height should they be? And what form should be either one of them, and where would he have market for such animals? Would it not pay the farmers of Canada to breed heavy horses, such as Percherons and other Clydesdales? There is good demand for these horses in our home market. A good Clydesdale grade is worth from \$200 to \$300. A good Percheron is worth from \$100 to \$200, while a good saddle horse is only worth from \$80 to \$175. A carriage horse will bring about the same figures. If a farmer breeds a saddle horse and has the misfortune to get a blemish on him, what shall he do with him? Though the blemish does not interfere with his usefulness, he would have to sell him at a sacrifice, for he is not large enough to work. On the other hand, if the farmer has a well bred beast and the progeny is selling for large sums, why not continue to raise such? Why would it not pay to raise coach horses, as there is greater demand for them in all American markets. As they are larger bred than saddle or carriage horses they are more useful on the farm. Then why not breed them?—CANADIAN FARMER.

With Increased Knowledge. Of the laws governing health and the treatment of disease, resort to the physicians is less often made than formerly. Successful treatment can be made in such minor ailments as headache, biliousness, constipation, fluttering of the heart, when sympathetic, foul breath, &c., all the various disorders resulting from deranged action of the liver and stomach by the use of Hamilton's Pills of Mandrake and Butternut. These pills, being entirely composed of vegetable extracts they form an admirable substitute for the numerous tonic bitters in the market. Hamilton's Pills are mild in action, certain in results, safe in all kinds of weather, and form the best family medicine extant. Sold by all dealers in medicine, and by N. C. Polson & Co., Kingston.

The beautiful glossy sheen, so much admired in hair, can be secured by the use of Ayer's Hair Vigor. There is nothing better than this preparation for strengthening the scalp and keeping it free from dandruff and itching eruptions. At the annual meeting of district L.O.L., held at Centreville, satisfactory reports were read from the lodges, showing an increase in membership and a healthy state financially. The following were elected officers: Wm. McGregor, W. D. M.; John Reid, D. M.; J. W. Kelley, D.C.; W. C. Reid, D. R. Secy.; S. Patterson, D. F. secy.; Wm. Brown, D. Treas.; H. Hooper, D.D. of C.; C. Riley, D.L.

Leading physicians recommend Ayer's Sarsaparilla. Old and young take it with perfect safety. It cleanses the blood, strengthens the nerves, and vitalizes the system. Popular experience has long placed this medicine at the head of tonic alternatives.

A Valuable Discovery. F. P. Tanning, Neebing, Ont., says he has not only found B.B.B. a sure cure for dyspepsia, but he also found it to be the best medicine for regulating and invigorating the system that he has ever taken. B.B.B. is the great system regulator.

Ahead of All. I have used Hagar's pectoral balsam in my family for years and have found it ahead of any preparation of the kind in curing colds, etc. I can especially recommend it for children. Alex. Moffatt, Millbrook, Ont.
