The number of muscles in an elephant's trunk, according to London medical authorities, is 35,122, and he has use for each and every one of them.

At least has a black cut which in the evening follows, people abound emitting "mournful snarls." At midnight, according to dark testimony, the cut climbs to a lance point and terminates in a beautiful woman, who vanishes with a "fearful yell."

The White system of elevated electric railroad provides for cars having, but two wheels, one at either end, the car being studded horizontally by four guide wheels at each end, having a bearing against side rails considerably above the level of the main rail.

Miss Marietta Holley (Josiah Allen's Wife) is fitting up a new house for herself in Adams, N. She expects to entertain four or five sets of them this season.

"Let a girl bleach her hair," says a Boston doctor, "and within three months she will have trouble with her eyes, pains in the head, and be well on the way towards some nervous disorder requiring a doctor's services half the time." And yet they will bleach.

Language most shows a man. Speak that I may see thee. It springs out of the most retired and innermost parts of us, and is the image of the parent of it, the mind. No glass renders a man's form or likeness so true as his speech.

One of the most brilliant women in England is Lady Lindsay, daughter of the late Henry Fitzroy. Her receptions are magnificent affairs and are always attended by some of the most distinguished people of the day. She is a prolific writer, a cultivated artist and an excellent musician, combining with her many talents a charming manner and a great deal of womanly tact.

The French minister of agriculture has recommended the butchers of France to use sugar instead of salt for preserving meat. He has made a series of experiments the results of which indicate that sugar is the better preservative of the two. It is more expensive, but the powdered sugar forms a coating retaining the juices of the meat without loss, while the nutritive qualities of the meat are considerably lessened by the salt.

The abolition of slavery in Brazil is said to have had a pleasurable effect upon the industries of the empire, and a financial crisis is anticipated. The wants of the freedmen being few, they will not work steadily. Habits of idleness and thrift are yet to be acquired. The national outlook is so unfavorable that bank shares and similar securities have suffered a decline of 30 to 50 per cent.

The largest individual taxpayers in Boston are Frederick L. Ames, who pays \$10,375.24 on \$1,000,000 of real estate; Eben D. High Priced Surgery. One case, such as this young doctor spoke of, was that of a well known young fellow whose face had grown a large pimple like excrescence, disfiguring him frightfully, causing him great inconvenience, and at last becoming positively dangerous to his health. At last one of New York's big surgeons undertook to remove it. Two operations were necessary, with a long interval between them. The surgeon and his chief assistant performed them, and the fees, in popular report, ranged from \$10,000 to \$100,000 for the chief, and from \$5,000 to \$50,000 for the assistant. Yet even the larger amounts would not have reimbursed them for the study necessary in fitting themselves to do the operation. As the doctor explained to his master: "I done charge you 50 cen's fer killin' do cahf, sah, an' one dollah fer de know how." It's the cost of acquiring the "know how" that keeps many young doctors on the medical side of their profession.—New York Sun.

A Wise Precaution. Speaking of Fred Griffith, I saw something in his new car shop which will commend itself to everybody having dangerous machinery. All along the side of the mill, within the reach of every man employed in the shop, a strong cord leading to a bell in the engine room is fastened. In case of accident, by pulling this bell the engines can be stopped in a moment. Many times, by this simple precaution, a loss of life may be averted.—Buffalo News.

Only Comparatively Poor. It is quite true that the Duchess of Galliera has bequeathed upward of £400,000 to the Empress Frederick, but the legacy is heavily charged and incumbered by troublesome conditions, so that the empress will probably find it expedient to refuse it. I see it stated that the Duchess of Galliera was "comparatively poor" when she died. Considering that she has left upward of £2,000,000, I should vastly like to know who is "comparatively" rich.—London Truth.

A spring medicine is needed by everyone. Winter food, largely consisting of salt meat and animal fats, causes the liver to become disordered and the blood impure, hence the necessity of a cleansing medicine. The best is Ayer's Sarsaparilla.

Public opinion is the strongest factor in putting down any evil; and it is made up of private opinion, openly expressed and heartily followed.

"Ayer's Cherry Pectoral has given me great relief in bronchitis. Within a month I have sent some of this preparation to a friend suffering from bronchitis and asthma. It has done him so much good that he writes for more."—Charles F. Dumterville, Plymouth, England.

The best recipe for going through life in a commendable way is to feel that everybody, no matter how rich or how poor, needs all the kindness they can get from others in the world.

A Sure Remedy for Neuralgia. Neuralgia is one of the most common and painful affections incidental to this climate. Life to thousands is made miserable through its agency, and as it affects the nerves, only the most powerful and penetrating remedies can reach it. Nervine has created wonder in the minds of those who have uselessly tried other remedies, since its action seems magical. To all suffering from any kind of nerve pain, internal or external, we suggest a trial of Nervine. Sold by all dealers in medicine, 10 and 25 cents a bottle.

The great secret of avoiding disappointment is not to expect too much. Despair follows immature hope, as things fall hardest to the ground which have been nearest to the sky.

Advice To Mothers. Mrs. Winslow's Soothing Syrup, for children teething, is the prescription of one of the best female nurses and physicians in the United States, and has been used for forty years with never-failing success by millions of mothers for their children. During the process of teething its value is incalculable. It relieves the child from pain, cures dysentery and diarrhoea, griping in the bowels, and wind-colic. By giving health to the child it rests the mother. Price 25c a bottle.

Diphtheria. "Last January," says J. N. Teeple, of Orwell, Ont., "there appeared diphtheria in our neighborhood. Doctors ran night and day, but I kept right to Hagyard's Yellow Oil and brought my children through all right." Yellow Oil cures all painful complaints and injuries.

The faults and weaknesses of others, instead of being woven into gossip, scandal, and useless criticism, should be used as danger signals to warn us away from the paths which have led to them.

MISCELLANEOUS.

WOODS' FAIR AND 7c. STORE.

GREAT CLEARING SALE.

ON SATURDAY, JAN. 12TH, we will commence our great clearing sale. Encouraged by the success of our last January's clearing stock sale we have determined to make this January clearing sale the greatest attraction of the season; these are no idle words. The great public in this enlightened age is not to be led astray by bluster but honest, reliable facts, told in these columns have always met with prompt attention from the intelligent readers of this paper, and to them we say, do not delay, delays are dangerous. Our slaughter bargains will be spread upon our counters for you Saturday; be an early and secure the best selections. Our first slaughter will be 12 dozen best gilt-handled coal hods, 19c. each; these goods, were it not for Wood's Fair, would be sold in your city for \$1 each. One extra heavy English net halter with very strong tie, just the halter for farmers for their colts, usually sold at 50 our price 19c.; one 10 quart galvanized pail, very durable, never rust, worth 35c., our price 19c.; one 10 quart one of the greatest bargain-never offered by us; and to prevent the trade from snatching them up we have decided not to sell over two to any party. Sleights, not a great quantity left from our earlier sale, but enough, and we will sell you a large 3 bent-kne d steel regular price 75c., slaughtered price 30c.; handsome, large swan-necked tipped sledge, worth \$1, slaughtered price 30c. Fathers and mothers now is your golden opportunity, improve it. Plush goods, we bought this season an immense stock, and received thereby special cut prices, and have been selling them so low that I have been astonished how we could afford to sell such elegant goods for such low prices. Yet for the month of January we will drop them into our slaughtered list of 25 per cent. discount. This will bring an imitation leather dressing case down to 75c., and an elegant silk plush one down to 50c. Don't neglect to see this line of goods while the great slaughter sale is going on. Mining knives, best polished steel blade, only 7c. School books, a full line; Gage's copy book, 7c.; 100 page scribbler, 3c.; 200 page scribbler, 5c.; with each scribbling book we give a beautiful chromo; one large bottle of ink, 3c., or stafford's, the best ink made in the world, 4c. per bottle; a choice assortment of steel pens, including the celebrated 292, and many other popular brands, 3c. for 1c., or 3c. per gross; a full line of school slates, a good one for 3c.; foolscap paper, 12 sheets for 5c.; Dixon's 5 bent plain eraser, 2c. for 1c.; rubber tipped 1c. each; handsomely decorated paper tries, containing 21 sheets best white note paper and 21 envelopes for 1c.; some in very best cream tinted 14c. LePages glue mullage, the best in the world, only 10c. per large bottle. Once used you would take no other as a gift. Nonsuch stove polish, best liquid polish known to the trade, no run, no fumes, 10c. per bottle. We have the newest and best soap dish yet brought out, adjusts itself to your wash tub, scrubbing pan or sink with perfect ease; we shall offer it with a large cake of soap complete for 25c.; don't fail to see it. A great drive in a tubular lantern this month only 35c. Best selected bird seed, put up in pound packages each package containing a cuttle fish bone, per package 7c.; matches, per large box 7c. Heavy 60-foot clothes line only 10c.; 3 dozen best Star clothes pegs for 5c.; and in for the month of January, while we are trying to do ourselves, we will sell you a three string broom, made from the very best green corn, 2 for 25c.; you cannot match the special broom on the side of Wood's Fair for less than 10c. each. A splendid large snow shovel for 21c.; medium size for boys 10c.; best banner lamp burners, medium and small, 7c.; large size 10c.; very best lamp chimneys, medium and small, 4c.; per pair, 5c. Burner and tea knives, good, polished steel blades, only 3c. per half dozen pairs. Some very beautiful silver pickle cruet and butter dishes reduced to \$1. worth three times the money. But we cannot find space to enumerate all the special lines that have fallen prey to this great January slaughter; but we have called your attention to enough that you can see we mean business, and that we mean to drop prices to clear stock that will leave far in the background and the great bargain as the sales now going on, and you will realize more than ever how unsafe it is to trust your own judgment in making purchases till you have visited Wood's Fair. The trade supplied. Wood's Fair and 7c. Store, corner Princess and Wellington Streets, Kingston, Ont.
